Marshall-Thompson
Ferns, baskets holding spires of white gladioli and pom-pom chrysanthemums and candelabra bearing white burning tapers were combined for the wedding uniting Miss Charlotte Marshall and Mr. Howard Thompson Saturday, August 16, at 2:45 p. m. at the Florence Methodist Church.

The bride is the only daughter of Mr. and Mrs. Kirby Marshall, of Evergreen Drive and Mr. Thompson is a son of Mr. and Mrs. L. J. Thompson, of Florence.

Prior to the ceremony Miss Janette Ogg, organist gave nuptial music including the "Indian Love Call." Larry Aylor soloist sang beautifully the ever popular "Because." The bride party approached the altar to the strains of "Lohengrin's" wedding march where Rev. C. N. Ogg performed the impressive double ring ceremony.

After the vows were spoken the bride couple knelt at the altar while the soloist rendered "The Lord's Prayer."

Miss Sophia Jacobs was bridesmaid and wore a gown of navy nylon sheer over taffeta fashioned with a circular skirt bodice, draped with off shoulder effect and crystal button trim. She carried a colonial arrangement of pink rosebuds, white pom-pom chrysanthemums and pink net with numerous streamers of narrow pink ribbon and her headpiece was of the same flowers.

Mr. Lee Thompson served as his brother's best man and both were attired in blue suits, bow ties and white boutonnières.

Given in marriage by her brother Edgar Marshall the bride was radiant in her street length gown of pastel blue nylon sheer over taffeta designed with a circular skirt attached to a v-neck medium bodice with a necklace of rhinestones. Her shoulder length veil of pastel blue nylon illusion was held in place by a halo of pink and blue flowers.

She carried white rosebuds, chrysanthemums, asparagus plumosis and blue net in colonial arrangement with streamers of narrow white silver edged ribbon.

Mrs. Marshall, mother of the bride and Mrs. Thompson the groom's mother were both attired in blue gowns accentuated by corsages of white rosebuds.

Following the ceremony a reception was held at the home of the bride's parents with approximately 50 guests attending. The bride

cake was a 3-tiered white creation beautifully decorated with bells and roses and topped with a miniature bride and groom. Punch was served with the cake with Mrs. Henry Steers of Erlanger, presiding at the punch bowl.

At the conclusion of the reception the bride donned a powder blue gown with navy hat and accessories and the happy couple departed for a brief stay at Cumberland Falls.

Mrs. Thompson has for a number of years been associated with the Wm. S. Merrill Pharmaceutical Co., of Cincinnati, while Mr. Thompson is an employee of The Specialty Device Co., also of Cincinnati.

Mr. and Mrs. Thompson will reside in the Herbert Reel apartment on Dixie Highway less than a mile south of Florence.

Among out of town guests at the wedding were Mrs. Billie Benjamin, and Mr. and Mrs. Ed Breckler, Newport; Mr. and Mrs. C. W. Caldwell, Volz, and Mrs. Evelyn Kennedy, Dayton, Ky.; Misses Helen Qualey and LaVerne Becker, Mesdames Ruby Kidd, Jean Ogden, Vivian Stansbury and Mr. and Mrs. Chas. A. Caldwell, Cincinnati; Mr. and Mrs. Ernest Lawson, Covington; Mr. and Mrs. James Caldwell, Hamilton, O.; Mr. and Mrs. Robt. Moffett, Ludlow; Mrs. Alberta Stephens Burrows, Westwood, and Mr. and Mrs. Ed Acra, Erlanger.

May health, happiness and prosperity attend Mr. and Mrs. Thompson as they embark upon the sea of matrimony.

LIVESTOCK, GRASS GIVE BEST RETURNS IN MARSHALL COUNTY

Producing livestock, grass and hay was the most profitable way to farm the upland and ridges of Marshall county in 1951. So found University of Kentucky research workers in a survey made in cooperation with 30 upland farmers of that county. The report of the University showed that Marshall county upland farmers with over \$3,000 invested in forage production and breeding stock tended to have gross incomes higher than \$3,000 in 1951. Farmers with less than \$3,000 in livestock and forage production tended to have gross incomes lower than \$3,000. Well organized farms having investments comparable to those in the better farming areas of the United States were producing incomes which compared favorably with incomes in those better areas.

The average Marshall county farm is too small to support heavy investments in machinery and labor without additional investments in forage and livestock production. Returns on machinery investments and labor used were low in 1951 except in the case of large farms on which forage and livestock investments increased the efficiency of both labor and machinery.

The study indicated that the best bet for the average upland farmer in Marshall county was first to invest in grass and hay production and then raise livestock to consume the hay and grass. After such investments made labor productive, it then became profitable to save labor with machinery. As undeveloped Marshall county upland is not very productive, it paid, when money was limited, to use the money to develop forage and livestock production before buying additional land. However, as most Marshall county farms are small, it will be necessary eventually to increase farm sizes before farm earning will become large enough to support standards of living comparable with those attainable from work in near-by industries.

Management is especially important. The study indicated, for instance, that good managers were often getting as much as \$3,000 extra income from what they had to work with, as compared with poor managers. The report, called "Sources of incomes on Upland Marshall County Farms," was written by Dr. Glenn L. Johnson of the Department of Farm Economics at the Agricultural Experiment Station in cooperation with the Tennessee Valley Authority.

RUSSELL FARMERS GROW TOP FESCUE

Thirty-eight farmers in Russell county have applied to the Kentucky Seed Improvement Association for certification of fescue seed. University of Kentucky Farm Agent Allan C. Davis observed that one of the largest fescue seed crops ever produced in the county was harvested, many farmers having yields of more than 400 pounds to the acre. Ed McFall's threshed 17,500 pounds from 25 acres, while Robert Roy threshed 10,000 pounds from 18 acres.

LOGAN 4-H BOY HAS FINE GARDEN

Despite drought conditions which caused many gardens in Logan county to dry up, Maurice Rogers, 14-year-old 4-H'er, has a garden that is helping to feed the eight members of his household.

Maurice is growing 15 different kinds of vegetables, many of them, such as beans, being planted at 2-week intervals to provide successive harvests. A pipeline from the well keeps his garden watered as needed. Grover A. Corum, assistant county agent with the University of Kentucky, called young Rogers' garden one of the most outstanding he had visited this year.

SIX GRAVES MEN STAY BY PEACHES

The H. B. Douthitt peach orchard of 16 acres is one of six remaining commercial peach orchards ranging in size from five to 20 acres in Graves county. All are receiving good orchard management practices, said Wilson R. Hoover, county agent with the University of Kentucky. Reduction of peach orchards in the county is due to their winter-killing in 1950-51, two crop failures and the serious shortage of labor, said Mr. Hoover.

Test Wells Will Be Drilled In North Bend Bottoms Area

Preliminary Survey Will Follow Drilling Of Test Well, Is Report.

Engineering concerns presented proposals to the Boone County Water Commission at a meeting of the body held Tuesday night at the courthouse, Burlington. Selection of the firm will be made by the Commission at a later date, according to Judge C. L. Cropper.

"Test well-drilling operations in the North Bend Bottoms region of Boone County will start early in September, Stanley M. Graves, the commission's chairman said. "As soon as test drilling operations are completed, Mr. Watkins' organization will begin a preliminary survey, the results of which will enable us to set up a definite schedule of rates for all communities desiring to purchase water from the Boone County system. We believe we will be able to submit a schedule of rates equal to, or lower, than any competing system."

Mr. Graves said the engineering report was to be completed within 90 days after the test drilling operations have established the necessary water flow.

Mr. Graves reported that the commission has high hopes of interesting Ludlow and Bromley in addition to Erlanger, Elsmere and Florence in purchasing water from the Boone County system.

Other members of the commission are Roy C. Lutes, Florence and W. Robert Ellis, Burlington.

Burlington Man Receives Degree From Ohio State University

Harry Russell Conrad, son of Mr. and Mrs. Ivan N. Conrad, of Burlington, R. 1, received the Doctor of Philosophy degree at commencement exercises Friday, August 29 at The Ohio State University, Columbus.

Dr. Conrad was graduated in 1942 from Hebron High School and served as an electronics technician in the U. S. Navy from 1943 to 1946. He received his Bachelor of Science degree from the University of Kentucky in 1948, at which time he was awarded the Sullivan Medal as the outstanding graduate of that year. In 1949 he received his Master of Science degree from The Ohio State University.

Dr. Conrad is residing in Wooster, Ohio, where he is on the staff of the Department of Dairy Science at the Ohio Agricultural Experiment Station. He has been engaged in agricultural research, studying the synthesis of the B vitamins and the digestion of roughages in the rumen of cattle. Recently he has devoted considerable time to developing the new high roughage system for raising dairy herd replacements.

He is a member of Sigma Xi, scientific honorary, Gamma Sigma Delta, Alpha Zeta and Omicron Delta Kappa, scholastic honoraries, and the American Dairy Science Association.

Attending the exercises from here were Mr. and Mrs. Conrad, son Carroll and daughter Vera, and Misses Nettie and Nora Long, of Erlanger.

Mrs. F. M. Voshell moved Friday into rooms in the home of Miss Myrtle Beemon.

Bob & Gene Nine Take Third Game In Elimination Series

Bussman Hurls Three-Hit Game In Defeating Hilltop Nine.

Bob and Gene, Boone County members of Ky. Athletic Goods Semipro Baseball League, chalked up their third straight victory in the elimination series by trouncing the Hilltop nine 7-1 at the Florence park Sunday afternoon.

Bussman, winning pitcher held the losers to three hits, while his teammates collected 14 safeties from the offerings of Brown, Newson and Graving.

Weisbrodt led the hitting attack for the locals with three safeties in five trips to the plate, one a hard-hit home run. Miller had three hits for the winners in five trips to the plate. Macke collected two of Hilltop's three hits in four times at bat.

The local boys are showing improved form as the season progresses, and no doubt will be among the top contenders for the series championship.

Helen Horton Resigns Secretary Position

Miss Helen Horton, Extension Secretary of Boone County, has resigned her position in order to enter the Freshman class of Western Kentucky State College, Bowling Green, Ky.

Soon after graduation from Burlington High School in 1951 as Valedictorian of the class, she was employed by Boone County as secretary to the County Agent and Home Demonstration Agent and has remained there for the past 14 months.

"Freshman Days" at the college are Sept. 11 and 12 with registration September 15. Miss Horton will enter the College of Home Economics and direct her major toward a more specialized field. She is the youngest daughter of Mr. and Mrs. Walter Horton, R. 2, Burlington.

Power Cut-Off Announced For Area Near Hebron Friday, September 5th

The Union Light Heat & Power Co., announces that electric service will be interrupted two hours next Friday, September 5th, 8:30 a. m. to 10:30 a. m. in the area north and west of Hebron. Only customers living along State Route 20 from Hebron to Petersburg and the side roads in that area will be affected.

The company regrets that it is necessary to inconvenience users of electric service for this two-hour period, but certain changes in the electric distribution circuits must be made that are too hazardous for employees to complete with lines energized.

PMA Committeemen To Be Elected For County Sept. 18th

Elections Being Held Early This Year In Order To Train Committeemen.

Elections of Production and Marketing Administration community committeemen and convention delegates who will select county PMA committeemen will be held in all Kentucky counties on September 18. H. B. Poppewell, acting chairman of the state committee, has announced.

The annual elections are being held early this year to provide sufficient time for training community committeemen for the additional year which will be assigned to them in the 1953 Agricultural Conservation Program. Usually the elections have been held late in November.

Nominations will be made and elections held on the same day in community meetings this year. This method of holding the elections was recommended by county committeemen attending the statewide conference in Lexington last February Mr. Poppewell said.

Last year nominations were made one week before the elections under an alternate method provided in committee election procedure.

Farmers in each community elect a committee of three, two alternate delegates to the county convention. Convention delegates elected in community meetings on September 18 will meet on September 19 to elect county committeemen for the coming year.

Because of the increased amount of work expected to be assigned to community PMA committeemen, especially in connection with aiding farmers with conservation plans in the ACP "new approach," many counties have increased the number of communities for the coming year.

All farmers of legal voting age co-operating in programs administered by the Production and Marketing Administration are eligible to participate in the community nomination and elections. Farmers not of legal voting age are eligible to participate only if they are "in charge of the supervision and conduct of the farming operations on the entire farm."

Each farmer is entitled to vote only in one community - even though his farming operations may be carried out in two or more communities.

To be eligible to serve as community or county committeemen or as delegates to conventions, farmers are required to be co-operators in programs administered by the Production and Marketing Administration of areas served. Present members of county PMA committeemen may not serve as delegates to county conventions.

All community and county committeemen and delegates will assume the duties of their respective offices as soon as elected and qualified.

Richwood Presbyterian Church Closes Revival

A beautiful and impressive candlelight service brought to a close last Friday night the revival at the Richwood Presbyterian Church. While they knelt at the foot of the altar eight newly-elected deacons and elders were ordained to their spiritual offices by the laying on of hands. After their ordination they were lighted by the ministers, the elders and deacons lighted the candles of those just received into the membership of the church. These new members then helped to light the candles of everyone in the congregation. The service ended with the benediction and the singing of the Lord's Prayer.

The carrying of candles out of the church became a symbol of the carrying of the light of the gospel to the surrounding community. Those ordained to serve as ruling elders were: Charles Chambers, Hubert Baker and David Houston, all of R. D. 2, Walton. Ordained as deacons were William W. Woodward, R. D. 4, Erlanger; Chester Sturgeon, and Jack Feagan, of Star Route, Walton; and George Bedinger and James Stephenson, of R. D. 2, Walton.

Mr. Oakley Easton, of Richwood was awarded a New Testament for bringing the most visitors to the service.

GI Bill Offered Korean Veterans

Korean veterans and other veterans who have been in active service of the armed forces for at least 90 days since June 27, 1950 will be eligible to enroll for the fall semester at the University of Kentucky under the Veterans' Readjustment Assistance Act of 1952, also known as the "New GI Bill."

Announcement of the eligibility of certain veterans to enter college under the new congressional act has been made at the University by Dr. Lysle W. Croft, director of the Personnel Office. The new GI bill, registered as Public Law 550—Second Session 82nd Congress, officially became effective August 20, Dr. Croft said.

As in the original GI bill of 1944, the amount of education to which the veteran is entitled depends on the length of time served in the armed forces. The new formula gives the veteran one and one-half days schooling for each day spent in active service, the UK personnel director explained.

An eligible veteran must begin his program before August 20, 1954, or within two years after his discharge, depending upon which is later.

The new bill differs basically from the old one in that now all payments for tuition and subsistence will be made by the Veterans Administration directly to the individual veteran and not to the school, Dr. Croft said. Allowances under the new bill give the full-time students with no dependents \$110 per month, full-time students with one dependent \$135 per month and full-time students with more than one dependent \$160 a month.

Veterans eligible to enter the University this fall under the new law were advised by Dr. Croft to obtain first a certificate of eligibility from their local Veterans Administration office. This certificate must be submitted to the University authorities before the veteran can enroll.

Duck and Geese Season Extended In Kentucky

Opens November 17 And Closes January 10; Bag Limits Unchanged.

The season for hunting ducks and geese in Kentucky has been extended 10 days over the season of last year, the U. S. Fish and Wildlife Service has announced.

The season for geese, ducks and coot will open on November 17, five days earlier than last year, and will close on January 10, five days after the closing date of last season. The extension was granted, the Service has informed the Department of Fish and Wildlife Resources, when it was found that the duck and geese population this year was estimated to be far greater than for past few years.

The bag limits will remain the same as for the past season. The daily limit of ducks is 4 with a possession limit of eight, which total may not include more than one wood-duck. The daily bag limit and possession limit for geese again is five which total may not include more than two Canada geese or its subspecies, or two white-fronted geese or one Canada and one white-fronted. The limit, daily and possession, for coot remains at 10, while the limit for redbreasted or American mergansers remain at 25 with no possession limit after the first day of the season.

Shooting hours for waterfowl and coot is one-half hour before sunrise to one hour before sunset (Central Standard Time) except on the opening day of the season when shooting is not permitted until 12 o'clock noon and ends one hour before sunset. The legal possession limit of waterfowl may be held in cold storage for 90 days after the close of the season for each species, the regulation adds. All automatic or hand-operated shotguns used in taking waterfowl must be plugged so as to hold not more than three shells in the magazine and barrel combined.

Tobacco Experts Urge Farmers To Let Burley Ripen

Losses From Black Shank Light Latter Part Of Season.

Tobacco experts at the University of Kentucky College of Agriculture are urging farmers to let their tobacco get ripe before housing it, even in areas where black shank has appeared in the fields, according to Joe Claxton, Boone County Agent.

They said indications are that losses from black shank in infested fields are not heavy late in the season unless there is a period of wet weather followed by flushing rains. For this reason farmers are urged in black shank areas not to cut their tobacco green and immature. The further growing of the plant during ripening and the improvement in quality will more than make up for the loss of a few plants from black shank, if an extended period of excessive rainfall is not experienced, it was said.

Boone County growers who had black shank this season are urged to disk their tobacco fields heavily as soon as possible after harvest and to seed the land with a heavy seeding of small grain to prevent the movement of soil from the fields this winter. These fields should not be used for tobacco next year, it was emphasized. The disk and drill should be cleaned of all dirt before being used in other fields.

Ossification of The Bones

N. TULCH

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

In the fetus or unborn child, the bones first consist of masses of cartilage which about the second month of fetal life begin to ossify, or become bony. In a long bone, which may be taken as an example the process commences in the center of the shaft and proceeds toward the extremities, which for sometime remain cartilaginous. Subsequently, a similar process commences in one or more places in the extremities and gradually extends through it. The extremity does not however, become joined to the shaft of the bone until growth has ceased, but remains separated by a layer of cartilage tissue termed epiphy cartilage.

The points at which bony development first commences are known as center of ossification.

The process of ossification consists in the appearance within the cartilaginous skeleton of bone calcareous for healthy matter which forming cells and the deposition gradually displaces the cartilaginous matter.

These processes extends gradual-

ly in every direction from the original center of ossification until the entire cartilaginous mass becomes or is ossified.

The first bones in which ossification appears are the choule (collar bone) and inferior maxillary (lower jaw bone) about the fifth to seventh fetal weeks, the last ossification to appear is in the pisiform bone of the hand about the twelfth week.—Adv.

Kentucky Dam Village, one of the state's complete accommodation parks, extends an invitation to year round vacationers. The park, located on Kentucky Lake in the western end of the state, offers a varied program of recreational facilities.

This first Brahman bull recently brought into Owen County has attracted much interest among neighboring cattlemen. The bull, one year old and weighing 900 pounds is one of an estimated 30 situated throughout Kentucky. The breed was first imported into the state about 10 years ago. The Brahman-type bull, a native of India, is noted for its adaptation under varied climatic and grazing conditions.

The hospitality that Kentucky is noted for is reflected in this sign over a Bowling Green restaurant. This same hospitality is extended to tourists by all state communities making Kentucky the state to which visitors always desire to return.

Fertilizing Pastures Stretches Grazing Season, Promotes Good Growth Next Year

Dairy cows get their fill from thick growing, well fertilized legume-grass pasture mixture.

YOUR beef and dairy cattle can "have their cake and eat it too," so far as feed is concerned, if you fertilize your pastures this fall, reports the Middle West Soil Improvement Committee.

Adding plenty of nutrients to pastures will not only give your cattle extra grazing days this fall, but it will help assure them abundant food supplies next year, the committee points out. Moreover, you will cut down costly feed bills and shave production costs, too.

The committee suggests these steps for boosting pasture production: 1—Fertilize old permanent legume-grass pastures with a top-dressing of nitrogen, phosphate and potash. The plant food will help promote fast regrowth after the summer heat. Such pasture can give good grazing this fall. 2—See that plenty of nutrients are added to old meadows that are

to be plowed under for corn next spring.

3—Seed some of your cultivated acreage to winter rye, winter wheat and other special fall crops. These will grow fast and give your cattle good fall grazing. Plant these crops early enough and be sure they have all the nutrients they need at seeding time.

The committee cites these additional benefits from fall fertilization of pastures: 1—You give your land the benefit of more protective cover. 2—You help build supplies of organic matter below the surface. 3—You increase your soil's water-holding capacity. 4—You slow down the march of erosion.

What fertilizer ratio to use may depend on several factors, but generally speaking a top-dressing this fall of a 1-1-1 ratio fertilizer such as 8-8-8 or 10-10-10 will build thicker, higher-yielding stands.

THEIR ANCESTORS AND THEIR DESCENDANTS

The Rouse Family

Jacob and Michael Rouse, sons of Matthias and grandsons of the immigrant John, (found in the records of Raussen, Rausch, Rush, and ultimately as Rouse), about 1802, travelled by ox cart from Hebron Church in Madison County, Va., to a small town in Pennsylvania, where a skilled German organ-builder had settled, and brought back with them the historic organ, still in use by the congregation of Hebron Church, and now more than 150 years old. The Rouse brothers had no roads over the mountains and through the unbroken forest on their journey of more than two hundred miles, but followed the rough trails of roving bands of Indians and wild animals, sometimes having to make detours of many miles in order to ford some swift-flowing mountain stream. But they successfully completed their undertaking and delivered the pre-

ious musical instrument to the expectant congregation. It was installed in the organ-loft provided for it in the annex which had been built to the original church building, erected in 1740. One is justified in surmising that perhaps the first hymn that pealed forth from the organ and was sung by our ancestors, was that soul-stirring battle-cry of Martin Luther, "Ein Feste Berg ist Unser Gott,"—"A Strong Castle Is Our God."

John Rouse (1), immigrated to Pennsylvania from the Palatinate of Germany prior to the arrival in Virginia of the Colony of 1717; he patented land in 1728, and was identified actively with Hebron Church from its organization in 1733; the church treasurer's report records him as John Raussen; the names of three of his sons are known, Matthias, Martin and Samuel, and there were probably other children.

Matthias Rouse, son of John, married Elizabeth —; he was a soldier in the Culpeper County Militia in 1756, and fought in the French and Indian Wars. His will was probated in Madison County, Va., in 1796; another Matthias Rouse, whose wife was also named Elizabeth, was a communicant at the Easter services of Hebron Church in 1796, and appears to have been a son or nephew of Matthias, son of John.

Martin Rouse, son of John, died in Virginia in 1802; he and his wife Elizabeth were communicants of Hebron Church in 1793; their daughter Elizabeth married John Lloyd; John, Adam and Samuel Rouse were sons, and there were perhaps other children.

Samuel Rouse, son of John I, died without heirs and willed his property to John and Adam Rouse, sons of his brother Martin. Matthias Rouse and wife Elizabeth were the parents of 1. Ephraim and wife Maria; 2. George, married Elizabeth Zimmerman, daughter of Christopher III; 3. Joseph (1750-1883), married 1774, Susanna Ralsbach; he emigrated from Virginia to Boone County, and later moved to Indiana; 4. Samuel, wife Maria; 5. Michael, wife Nancy; 6. Jacob, wife Anna; 7. Ludwig; Lewis, wife Elizabeth; their daughter Pat-

ty was born in 1788, Hebron birth record. Apparently Matthias and Elizabeth Rouse had but one daughter, Mary.

The names of Matthias and Elizabeth Rouse appear frequently on the Hebron Church records, as well as those of their sons, Joseph, Jacob and wife Barbara, 1796; Elizabeth, daughter of Jacob, 1803; John and wife Nancy, 1804; Amy, confirmed 1805, probably daughter of Jacob; Frederick, wife Rosina, 1805; Mary Rouse and Elijah Rouse, confirmed 1807; Elijah, wife Margaret, 1811; and Nicholas and Rosina Rouse, confirmed 1811.

Jacob and Lewis Rouse, sons of Matthias, were soldiers in the Revolution, and a Matthias Rouse also, probably the Matthias who with his wife Elizabeth attended Easter services at Hebron in 1798.

It is quite likely that each of these soldiers received from Virginia land grants in Kentucky for their military service. Rouse Mountain, a granite peak of the Blue Ridge range, on land in Madison County, Va., that once belonged to John Rouse the immigrant, is a fitting memorial to their memory as

soldiers and American patriots.

According to the "History of the German Element in Virginia," by Schwicht, 1898, and now out of print, "Ludwig Rausch, (a descendant of the immigrant John Rouse), about 1800, had ventured through the dark virgin woods as far as Florence county) evidently Boone, Kentucky, where he found very fertile lands. He returned to Virginia and praised the charming West, saying that he would make it his home. He departed again, built a log house, tilled the land, and in 1804 he went to Madison for his betrothed wife (I think the author is mistaken here, for I believe this Ludwig was the brother of Ephraim and a son of Matthias; Lewis, whose wife's name was Elizabeth, was married prior to 1788, when the name of their daughter Patty is found in the Hebron Church birth records).

"His success caused much excitement in the old German colony and the next year fourteen men with their families started for Boone County, Ky. They were Solomon Hoffman (a descendant of the colony of 1714) and his wife Elizabeth, with two children; George Rouse (brother of Ephraim and Louis) and wife (Elizabeth Zimmerman); Ephraim Tanner and wife (Susanna House); Johannes Haues (John House) and wife Emilie; Fried Zimmerman and his wife Rosa (Rosanna Crigler); Johannes Rouse (and his wife Nancy) John Rouse and wife Nancy Zimmerman; Benjamin Ayler; Simon Tanner; Johannes Biemann (John Beemon); Michael Rausch; Jacob Rausch; Fried Tanner, Joshua Zimmerman and Jeremiah Carpenter, i. e., Zimmerman." (This was Jeremiah Carpenter, son of the Rev. William Carpenter and his wife Mary Ayler) Preacher Carpenter's grandfather John readily accepted the English translation of Zimmerman to Carp-

enter when he first came to Virginia, but his relative, perhaps his uncle—Christopher Zimmerman, steadfastly clung to the German spelling—and Schwicht, who writes as if 90 per cent of the immigrants to Virginia were of German descent, after 175 years, stubbornly translated, with characteristic German obstinacy, Carpenter back to Zimmerman!

Jeremiah Carpenter, born in Virginia, 1795, died in Boone County, 1868; he married Juliana Rouse, born 1797; I believe she was a daughter of Jacob Rouse, wife Anna who was a son of Matthias and grandson of John I.

The Virginia emigrants named above who came to Kentucky in 1805 were the nucleus from which Hopeful Lutheran Church was organized. They and their many descendants and their church have been important facts in the history of Boone County for almost 150 years. In the words of Rip Van Winkle: "May they live long and prosper!"

W. C. Barriekman.

Notes and Comments

From the Editor's Desk

Tin Cup In Hand

One of the speakers at the recent convention of the Chamber of Commerce of the United States gave that organization, and the country, some straight, down-to-earth talk.

William Book, executive vice-president of the Indianapolis Chamber of Commerce said that local chambers have inconsistently demanded government economy even as they have asked for more and more tax money for local projects. Then he added, "From one end of the country to the other they have all too often been waiting, tin cup in hand, on the doorstep of Congress or some Federal bureau for a handout; for a bit of aid to build a dike or a dam, to pave a road, to build an expressway, a school or a hospital."

"Let's admit that economy begins at home. It begins with local chambers of commerce, among others."

The local chambers aren't the only offenders—not by a long shot. All manner of civic, business, agricultural, labor and other organizations go proudly on record in favor of rigorous government economy and debt and tax reduction—and then, in their next breath, clamor for handouts. And all too often Congress and the bureaus, their eyes firmly fixed on votes, provide the handouts—but do nothing about economy.

Yes, economy begins at home, in the grass roots. But we can't have economy for the other fellow—we

will have it for all or for none.

Our Country is Free

Sometimes we use our freedom badly—forget about it—trade it cheaply—and fail to fairly give as much to some as others. But we know no people on earth have more freedom, or love it better, or will fight so hard to keep it.

Listen! Read! Look! Talk! Argue! Think! Then VOTE.

Welcome To New Generations

Population growth is like the weather—there doesn't seem to be much that anybody can do about it.

The world's human population is soaring. There were fewer than one and three-quarter billion people on earth in 1912. Today there are nearly two and a half billion, and by the end of this century there will probably be over four billion. The world is currently adding to its population at the rate of 60,000 to 70,000 new human beings each day, and the rate is increasing. No expert is needed to tell us that, so far as the foreseeable future is concerned, feeding, clothing, and keeping so many people reasonably happy is going to be a problem. Our own country has shown how it can best be met.

A century or more ago a large percentage of people labored in agriculture. If theoretical planners had stepped in in those days and forced the productive processes into a fixed "orderly" pattern we would probably have been struggling with famine by now. Fortunately we were free to invent, devise and scheme new ways. We were free to leave our farms and get jobs in the cities where some of us figured out unheard of machines to do the work of ten men on the farm. Tract-

ors, trucks, reapers, combines, gangplows, cultivators—implements began to roll off the assembly lines by the tens of thousands. American agriculture took on a new look. For the first time in history farmers could raise their heads above sheer drudgery.

Farming has become a scientific, competitive business. Because of the machines, constantly better farming practices and rising production are inevitable. Upland food control, contour or strip farming, and soil conservation are routine practices to the modern farmer.

This American agricultural revolution is our welcome to the new people who will be crowding onto this old globe in the years to come. Other nations that fear the way of free markets, open competition and a maximum of individual liberty, will do well to heed our example.

How to Double Your Corn Yields Per Acre

Full fertilizer treatments pay off in corn yields like this.

MANY Midwestern farmers are changing their ideas from "salt and pepper" applications of fertilizer to "shovel" or heavier applications, reports the Middle West Soil Improvement Committee.

They realize that crops need a full dinner of plant nutrients, instead of just "seasoning" to make high yields per acre, says the statement.

"Farmers report that they have doubled or tripled their corn yields," the statement continues, "by turning from conventional applications of 100 to 150 pounds per acre of starter fertilizer to 500 to 600 pounds of a complete fertilizer plowed down before planting, followed by 150 pounds per acre in the hill."

In one Missouri test, 25-bushel corn land produced 124 bushels per acre when 1,100 pounds of nitrogen, phosphate and potash fertilizer was plowed down before planting and a starter fertilizer was added at planting time.

"Missouri agronomists report that full fertilizer treatments are the most profitable," says the statement. "They have demonstrated that the kind or type of soil is less important than the management methods used. When poor Ozark soils were fed a full fertilizer treatment, they yielded within 8 bushels per acre of the top production from the best corn land in that state."

What's the true of fertilizing corn is true of other crops, the committee says.

"In Wisconsin, the use of 700 to 1,000 pounds per acre of 0-20-20, 0-9-27 or 0-10-30 fertilizer has boosted alfalfa yields 2 to 2½ tons per acre. The full-fertilized fields have produced ample forage and high quality hay even in dry years."

In many instances, the heaviest fertilizer applications are the most economical, the statement points out. "Increased amounts of plant food," it says, "return the biggest profits."

Soil Building Plan Makes 'Middle Class' Land Grow as Much as Top-Yielding Acres

YOU can build soil fertility cheaper than you can buy it in the form of additional land, points out the Middle West Soil Improvement Committee.

By investing \$50 to \$75 per acre in soil building measures, you can make low-producing "middle class" land the equal of top-yielding soil within a year or two, declares a statement by the committee. Thus you save yourself the expense of buying high-priced land and you double or triple the return per acre.

Accomplishing such results involves several steps. You have to restock the soil's plant nutrient supply so it can feed the crops you grow. You have to make it a better storehouse for moisture. You have to add organic matter and build up the soil's tilth so it is easy to work and so crop roots have plenty of "leg room."

Agronomists recommend these measures for building up the soil:

1—Add lime as needed, according to soil tests.

2—Give the soil a full feed of nutrients. That means heavy applications instead of a "salt shaker" approach. It means using up to 1,000 pounds per acre of fertilizer plowed down before planting, plus at least 150 pounds per acre of a complete fertilizer at seeding time.

3—Condition the soil so it can

Deep-rooted legumes plus a full feed of fertilizer readies soil for top yields.

make maximum use of the fertilizer you add. This can be done by a rotation centered around well-fed deep-rooted legumes and grasses. The legume taproots pry open stiff, tight soil, letting air and water in. Organic matter left by the roots and plowed-under topgrowth, mellowing the soil, increases its water-holding capacity and crop-feeding ability.

Community PMA Elections Announced For Boone County

Five Locations Set Up In County, According To Chairman.

Elections of Production and Marketing Administration community committeemen will be held in each of Boone County's five farm communities on September 18. Mark Cook, chairman of the County PMA committee has announced.

The elections will be in community meetings at the following places: Hamilton—Hamilton School 1:00 to 4:00 p. m.

Walton—Verona—Town Hall 1:00 p. m. to 4:00 p. m.

Union—Beaver—New Haven school 1:00 p. m. to 4:00 p. m.

Florence—Burlington-Bellevue Courthouse, Burlington 1:00 p. m. to 4:00 p. m.

Petersburg—Constance—Hebron Hebron Fire House 1:00 p. m. to 4:00 p. m.

Farmers in each community will vote for three farmers to serve as community committeemen, for a delegate to the county convention to elect the county PMA committee for 1953, and for alternates.

Generally, a farmer is eligible to vote if he—as owner, tenant, or sharecropper—is participating in PMA programs or is carrying out practices in programs administered by the county PMA committee.

However, a farmer not of legal voting age is eligible to vote only if he is in charge of the supervision and conduct of farming operations on the entire farm.

Mr. Cook emphasizes that the effectiveness of Agricultural Conservation Program operations and of price support and marketing quota programs will depend a great deal on the community committeemen who are elected at these meetings.

The concentration of Agricultural Conservation Program operations in 1953 on the problems of individual farms increase the need for able community committeemen.

Mr. Cook expects to devote a considerable amount of time in helping each farmer to determine the conservation needs on his farm and to make the most effective use of ACP assistance and available services in carrying out most-needed practices.

Since this program deals with the protection and improvement of the soil and conservation of water on the farms of Boone County, community committeemen have a key role in the fight for continued production to meet the nation's expanding food needs.

The PMA chairman urges farmers in each community to look over the field carefully and make sure that farmers who are best qualified and who have the time for the job are elected.

The largest enrollment is at Florence with 615, followed by Hebron with 508, Burlington has 398 and New Haven 313. All the grade schools had a small increase with the exception of Petersburg which had a slight decrease in enrollment.

The enrollment for the county has increased 663 since the school year of 1947. During these years Florence school enrollment has increased 67%, Burlington 56%, Hebron 50% and New Haven 26%. The four grade schools during that time have had a decrease of eight in enrollment.

Two extra teachers had to be added after school opened, one at Florence and one at Hebron. This now makes a total of 68 teachers in the Boone County school system.

An additional bus had to be added at Hebron to take care of the crowded condition. With this addition and the rerouting of the buses, the situation has been relieved at the Hebron and Constance schools.

PRESSURE COOKER GAUGES DEFECTIVE

The importance of having pressure cooker gauges tested every year was noted by Grayson county homemakers. Of 55 gauges tested in one month by UK Home Agent Priscilla Lytle, only two were accurate. More than half of the gauges were off one pound, while six were off five pounds. This means that food or canning which was supposed to be processed at 10 pounds of pressure, was processed at only half as much, pointed out Miss Lytle, with a possible result of food spoilage.

HAVE MODERN DAIRY IN BALLARD COUNTY

Clay Powell and Sons, dairymen of LaCenter community in Ballard county, have made rapid progress in their industry the past two years. In November, 1950, they had a herd of 15 cows from which they were selling ungraded milk. Now their herd of 50 cows produces Grade A milk, and each cow averaged more than 6,000 pounds in 1951.

R. K. Kelley, farm agent with the University of Kentucky, notes that these dairymen have approximately 200 acres of improved pasture, they have recently completed a 16 by 45 foot upright silo, and their milk handling facilities are the most modern that are to be had.

BOYD HOMEMAKERS IMPROVE KITCHENS

That Boyd county homemakers have profited by lessons on efficient kitchens and improved storage space is seen in reports turned in to Mrs. Lois Sharp, home demonstration agent. Working with her on the projects was Miss Frances Stallard, home management specialist from the University of Ky.

Sixty-five percent of the homemakers have lap-tables or pull-out boards in cabinets, so they may sit to do long-time tasks and 34 percent moved a stove, refrigerator or sink in order to have a better planned workroom. At their annual check-up day, 200 women visited three homes in the county to see outstanding work done.

To see the pretty pine-paneled kitchen in the home of Mrs. Richard Gardner, one would never dream it is a laundry well as kitchen, said Mrs. Sharp. Concealed by doors of cabinets are the electric washing machine, the ironer and the ironing board. At the other end of the room are the stove, refrigerator, sink and cabinets arranged in U-shape. Unusual also are the storage cabinets extending the length of the house to serve a variety of uses.

Mrs. Lonnie Grace enlarged her kitchen by extending it to include a porch, making the room large enough to serve as a dining room also. Cabinets in her L-shape arrangement of equipment are of metal. Wall finishes and furniture arrangement in other parts of the house were the results of earlier lessons in her homemakers club.

The third home visited was that of Mrs. Walter McIntyre, where white pine was used for woodwork and cabinets. Rotating shelves in difficult-to-reach corners, knife racks in drawers, shelves made for spices, a drop-leaf table and special basement storage showed how this homemaker is saving time and energy.

LONG-TIME PLAN FOR FARM, HOME

The farm and home of Mr. and Mrs. William L. Spicer is one of several in Hickman county which shows the results of plans made through the Farm and Home Development program. Working closely with Warren Thompson, University of Kentucky county agent, the Spicers have made a long-time plan for their farm and home. Here are some of the things which have been done, or they hope will be done, by the end of this year:

Have the soil tested, establish 40 acres of permanent pasture, have adequate drainage, rearrange three field fences, fence reservoir-lake and put in stock tank, sow 33 acres of sudan grass, reduce corn and soybean acreage but increase yields of those crops, buy a good bull, reduce sow numbers to six and build a new well shed and pole barn.

Plans for the improvement of home living include more vegetables grown, butchering and freezing a beef, buying clothing more wisely, dental and physical examinations, more family recreation and giving more support to the local church and school.

ON KENTUCKY FARMS

Mrs. Jasper Jones of Morgan county cleared \$456 on one-fourth acre of strawberries.

The County-Central Kentucky Hereford Association with headquarters at Russellville has been recently organized to promote better breeding and wider distribution of Herefords.

Ohio county farmers report their largest acreage and yield of cucumbers since the crop was introduced in the county.

Corn borers were found in Webster county for the first time this year.

Earl Jackson, Negro farmer in Fayette county, had a family garden of 15 vegetables, with successive plantings of corn and beans.

W. F. Moody of Madison county found that orchard grass which grew voluntarily in his bluegrass pasture withstood the drought better than the bluegrass.

In Washington county, 122 fire-side baskets were made by homemakers in one month.

W. E. Lynam of Nicholas county has completed a milk room and cistern, and added other facilities for selling milk on a Grade A basis.

Mrs. Cecelia Miller of Todd county has refinished three corner cupboards, a highchair and seven picture frames, and changed eight dining chairs and a rocker as a result of lessons in her homemakers club.

Delvinta 4-H Club in Lee county used \$10 won for being the county champion club, to send three members to the district camp.

About 15 trench silos are being built in Caldwell county in an effort to salvage all possible feed from drought-affected corn.

CHAIR SEATING POPULAR

Chair seating has been a popular project with homemakers in Christian county the past year, more than 550 new chairs and stools having been refinished and seats woven of Hong Kong grass. Almost 100 old chairs have been resealed. Miss Mary Ellen Murray, home agent with the University of Kentucky, notes that the Bainbridge club members resealed 20 chairs as a result of the information given in the club.

RECIPE OF THE WEEK

A new kind of cookie for the lunch box will make the first days of school more pleasant. Miss Florence Imlay, specialist in foods at the University of Kentucky, notes that this one is flavorful and will stay moist.

Raisin-Apple Cookies

1 1/2 c sifted flour, 1 t baking powder, 1/2 t soda, 1/2 t salt, 1 t cinnamon, 1/4 t nutmeg, 3/4 c shortening, 1 c brown sugar, 1 egg, 1 T water, 1 c diced raw apple, 1 1/2 c uncooked quick of old fashioned rolled oats, 1/2 c nuts, 1/2 c raisins.

Sift together sifted flour, baking powder, soda, salt and spices. Add shortening that is soft but not melted, sugar, egg and water. Beat until smooth, about 2 minutes. Fold in diced apple, rolled oats, raisins and nuts. Drop from a teaspoon onto a greased baking sheet. Roll cookies in cinnamon-sugar if desired. Bake in moderate oven, 375 degrees, 12 to 15 minutes. Makes 3 dozen cookies.

GRANT FARMERS FAVOR TRACT-TYPE TRACTORS

Robert Hume, Grant county agent with the University of Kentucky, observes that a number of small tract-type tractors are in use this year in that hilly county. The owners maintain that this type of equipment has several important advantages, such as safety on steep hillsides and no loss of power by slipping, and thus are more economical in operation. A further claim is that they can be used for jobs in fields where wheel tractors could not operate.

Proper utilization of barnyard manure is a soil-conserving measure.

SAYS MIXED GRASSES WORTH \$100 AN ACRE

A profit of more than \$100 an acre on six acres of orchard grass, fescue and Ladino clover was realized by Orville Day of Wolfe county this spring. Hays Pigman, University of Kentucky county agent, notes that Day had seven cows feeding in the pasture. In a period of two and a half months, they produced milk which sold for \$643.09. Five bags of dairy feed costing about \$25 were fed during that time.

USES SAWDUST FOR STRAWBERRY MULCH

Arnold Wages of Bath county, who had good yields from his strawberries this spring, found that sawdust made a good mulch. From eight-tenths of an acre, he sold more than \$1,200 worth of berries. As an experiment, he mulched a small area with shavings and another with straw but, according to UK County Agent Joe R. Thompson, the berries mulched with sawdust were slightly larger than on the other two plots.

BULLITT FARMER MAKES BEANS PAY

A half-acre of string beans paid Jim Rarden of the Knob Creek section in Bullitt county approximately \$1,300, while many growers in the county had poor yields. He sold 200 bushels from a field of 2,000 hills for an average of about \$6.50 a bushel. Mr. Rarden reported to H. H. Rothwell, farm agent with the University of Kentucky, that he fertilized at the rate of 600 pounds to 6-8 inch acre, and then watered the field two times by pumping water from a creek.

All states and territories of the nation have passed laws permitting farmers to organize their own soil conservation districts. These districts are local units of government and they are organized and run by

From the Editor's Desk

Slowdown In Military Defenses

European journalists and others who visit this country are often surprised at one thing—the amount of war talk that goes on inside the United States. This doesn't mean that thoughtful Europeans are performing the ostrich act, burying their heads in the sand, and telling themselves that all is well and the Soviet Union isn't so much of a menace after all. But the European press plays down the possibility of war much more than does the American, and the feeling that another global war is inevitable is much more widely held here than across the Atlantic.

There may be a certain fatalism in the European attitude. War has devastated her cities and decimated generations of young men. It has created human misery to an unknown and almost unimaginable extent so far as most Americans are concerned. So great and awful a cataclysm, many Europeans feel, cannot happen again. And most certainly they feel that, should it happen, the world will end so far as they are concerned, and vice versa, and vanquished alike will be destroyed.

In any event, and regardless of the reasons for it, the European Army plan has fallen far short of the blueprints. The story is well told in a recent article in U. S. News & World Report, which began, "An unexpected slowdown is upsetting the basic schedules for building of military defenses for Western Europe."

"Target dates for arms build-up are being set back. Budgets for armament are being replanned and reduced. Arms output and arms shipment are lagging."

"War, if it should come in the year or two just ahead, will find the West far less prepared than plans called for just six months ago. Real defense, which had been planned for 1954, now appears unlikely before 1956 or later."

The goal set for NATO was 25 fully equipped and active divisions by December of this year. These were supposed to be A-1 units, ready for anything. Actually, 23 divisions are in being, but they are poorly trained and their equipment is inferior. Equally important, there is a severe shortage of up-to-date combat aircraft, and a potentially even more serious lack of adequate bases.

All the nations involved have contributed in one way or another to the slowdown, with the exception of The Netherlands. Britain's rearmament program is well behind schedule and may sag further. We have reduced our aid to Europe. France has cut her defense goals, and Italy is asking for a cut. The start of German rearmament is being delayed. Belgium has slowed defense preparations and has reduced the length of the terms conscripts must serve.

What it all amounts to is that Europeans are enormously weary of the burdens imposed by war and by preparation for war. Some of them argue that if the Russians had wanted war, it would have started before this, when Western Europe was totally defenseless and the Soviet hordes could have rolled to the channel and perhaps beyond without encountering anything worthy of the word opposition. As U. S. News put it, "War in Europe, any time soon, is being set down as a remote prospect by the military leaders and diplomats who shape policy in Western Europe."

Armed strength is regarded as an argument to be used in some future negotiated settlement with the Communists rather than as preparation to defend the Continent against an early armed aggression.

So, curiously enough, there is less belief in the inevitability of war in Europe, which would be the immediate battleground, than there is in the distant United States. All men of good will must hope that the European leaders are right on this tremendous question.

Our Country Is United

Never have — never will — and wouldn't like it if we did — except about one thing — our right to disagree. Fools and enemies sometimes think those loud sounds mean we are not united. . . but we know our basic unity is there because now there are so many more of us agreeing on that one important thing.

Listen! Read! Look! Talk! Argue! Think! Then VOTE.

Give Us Time!

In 1913, after a sufficient number of states had ratified the 16th amendment, a seemingly innocuous law was passed by Congress permitting a levy on the income of individuals and corporations. Count von Bernstorff, German ambassador to the United States, said: "You have adopted an income tax. That is the beginning. You will have more and more burdensome taxes. What amazes me is that your people seem intent upon following our example, instead of developing the system provided by your Constitution. Wait a few years and see the result!"

Von Bernstorff may have been a poor diplomat but he was a good prophet. Beginning in 1914, with a very modest share of the citizens' earnings, this tax is now extracting

from individuals alone more than 27 billion dollars per year or 450 dollars for every working person in the country.

Taxation in the United States has passed the point of oppression. About all that can be said is that the tax forms of our Internal Revenue Department do not yet bear the flourish of a royal decree.

FAYETTE HOMEMAKERS STUDY UPHOLSTERING

Upholstering is a new project undertaken this summer for the first time by homemakers in Fayette county. It promises to save housewives considerable money. Mrs. L. B. Gullett estimating that she saved \$50 by recovering one chair. Mrs. Dale Holbrook figured she saved \$15.

Twenty-three leaders enrolled in the new project taught by Mrs. Ruth Saunders and Mrs. Eloise James, home demonstration agents with the University of Kentucky. Among the completed pieces were five overstuffed chairs, two platform rockers, three Early American chairs, a Victorian couch, a fireside loveseat and several chairs of different styles. Repadding chairs and refilling spring cushions were included in the instructions given.

Antique velvet, tapestry and novelty fabrics were used for the upholstery.

FATHER AND SON BECOME PARTNERS

A father-son farming partnership which began in Muhlenberg county nine years ago with only 63 acres of unimproved land and about 20 head of dairy and grade beef cattle, now owns 400 acres, more than one-third being in permanent pasture.

The partnership consists of Andrew Scott, a retired miner, and his son, Billie, who determined through years of 4-H club work that he wanted to be a farmer. They now own 88 cattle, 68 of which are registered Angus. Their present plans are to have 250 acres in permanent pasture. Crops include a small acreage of corn, considerable barley and oats, seven acres of tobacco and 1 1/2 acres of strawberries.

Four-H club work has had its influence in this family, said UK Farm Agent A. W. Rowland. Billie's mother was a leader in her community for several years, and his daughter has been a member for six years, taking beef and home economics projects.

Liming and Fertilizing—Most soils require both lime and fertilizer for maximum use to crops. The lime raises the PH of the soil to a level where the fertilizer elements become more available to the crops.

PLAN TO RESEED LAWNS SEPTEMBER 15

The middle of September is the best time to sow lawns, says N. R. Elliott, landscape gardener at the University of Kentucky. Other suggestions by Prof. Elliott:

Sow extra-good Kentucky bluegrass seed. It may be sown right on top of the grass already growing. Sow one to two pounds of seed on the average sized front lawn (40 by 80 feet).

There are three MUSTS for good lawns:

1. Sow bluegrass seed every year.
2. Cut the grass high.
3. Spread fertilizer in November.

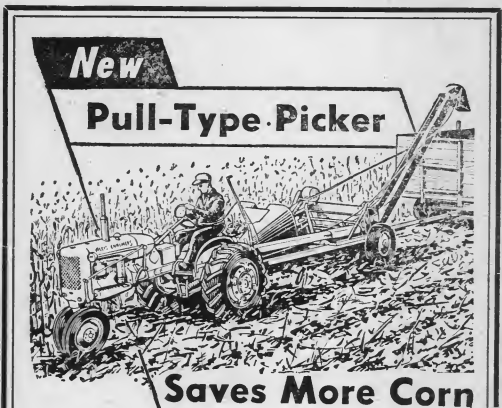

Winter cover crops should be planted in late summer or early fall.

Cards and Eagles Continue Winning Streak In Grid Tilts

Two Games Scheduled This Week At Burlington Field.

The Burlington High School Eagles and Hebron's Cardinals continued to make it tough on North-Kentucky Six-Man Football Conference foes last week. The Eagles, who have lost only one conference contest in five years of play, won their second consecutive game of the season Thursday night by trimming New Haven 48 to 26 and Hebron made it two straight for the young season when they ruined the Walton Bearcats' opener by 38 to 14 score.

Burlington had little trouble running up a 32 to nothing count on New Haven during the first half. The Tigers outscored Burlington 26 to 16 during the final half, with twenty of their points coming in the final quarter. Jerry Lustenberg, Eagle end, besides being a defensive star of the contest scored 12 points by kicking six consecutive attempts after touchdowns.

Hebron had the game their way during the first half, but Walton came back the second half to score two TDs and tack on two extra points. Smith, a Bearcat end looked good for the losers. Cornwall and Tanner were the big guns for the Cards.

This Week

Burlington will play Walton Thursday night (tonight) and Florence's Knights and New Haven will angle Friday night. Both games will begin at 8:00 p. m. and will be played at the Burlington field.

School officials have announced that the price for student admission for all games will be twenty-five cents instead of fifty cents as originally announced.

PMA Elections Held In Boone County Today

Five Points In County Will Be Used As Voting Places.

Production and Marketing Administration community committee-men are being elected throughout Boone County today, (Thursday), September 18th.

The elections are being held at Hamilton, Walton-Verona, Union-Beaver, Florence-Burlington-Belleview, and Petersburg-Constance-Hebron from 1:00 p. m. to 4:00 p. m.

Farmers in each community will vote for three farmers to serve as community committeemen, for a delegate to the county convention to elect the county PMA committee for 1953, and for alternates.

Community committeemen elected today have a key role in the fight for continued production to meet the nation's expanding food needs, as the program deals with protection and improvement of the soil and conservation of water on the farms of Boone County.

Dairy Owners Alerted To Serious Disease Problem

Cows Of All Ages Are Susceptible; Preventive Measures Outlined.

With thousands of calves being born on the nation's farms this fall, the American Foundation for Animal Health today alerted dairy owners to a serious disease problem which may attack the mothers of these new calves.

The disease, known as acetoneemia or "ketosis," frequently affects 15 percent of the cows in a herd.

Cows of all ages are susceptible, but ketosis usually strikes newly-fresh cows about six to eight weeks after they have calved. Foundation authorities said. "Top producers in a herd are prime targets for the disease."

"Ketosis may appear in either a mild form or a severe form," the Foundation reports. "In mild cases, the cow may go off feed and give milk which has a peculiar, sweetish taste. In severe cases, symptoms may vary from nervousness to depression and loss of weight. Milk production is cut drastically."

"As these symptoms can be confused with milk fever and plant poisoning, veterinarians base their final diagnosis on chemical tests. If detected in time, early treatment with intravenous injections and by other means will usually prevent death losses."

"There are three good preventive measures. First, provide liberal feedings of balanced rations, especially with cold water coming on. Second, take every precaution to keep cows from 'going off feed.' Third, have clinical tests taken at frequent intervals in fresh and pregnant cows so any signs of ketosis can be spotted early and treated promptly," the Foundation said.

The campaign which opened Tuesday will close September 27th with a Tag Day. Goal for the two counties has been set at \$15,000 Dr. Hafer said.

Mrs. C. W. Ransler, of Walton has been selected chairman of the southern section, and will appoint precinct chairmen in her area. Dr. Hafer stated that Mrs. Ruby Caldwell is chairman of Burlington and Mrs. Barbara Dye, is chairman of the Hebron area. Other precinct workers will be named at an early date, he said.

The Kenton-Boone Opportunity School for crippled children, which has been unknown to many in this section, has completed two successful years. It is owned and operated by the Chapter, staffed with carefully trained teachers by the Covington Board of Education and only two persons are on the Chapter payroll—the cook and the custodian, both of whom are part-time employees. All other personnel are volunteer workers.

Pictures To Be Shown

Boone County citizens will have an opportunity to become better acquainted with the work of the chapter through a movie which will be shown at various schools during the month. The movie entitled "Happy Faces and Busy Hands" will be shown at the Hebron School on September 19th at 8:00 p. m. in the school auditorium. The same picture will be shown at the Burlington school next week. All school children and residents from all sections of the county are cordially invited to attend.

Funds derived from the campaign will be used to operate the Kenton-Boone Opportunity School, buy supplies, furnish lunches, pay for pupil transportation to and from school, buy braces and shoes not paid for by the Kentucky Commission, and help the Commission on clinic and hospital expenses.

Eligibility Requirements

To be eligible for treatment a crippled child must be under 21 years of age, his parents must be indigent or able to pay for only a part of the cost of any needed treatment, and written permission must be given by the parents or guardian. This is readily arranged by bringing the child to the clinic for examination on the second Wednesday of the month, beginning at 10 a. m.

Support Urged

The support of all Boone County residents is earnestly solicited in Boone County's fund raising campaign by both chairmen and precinct workers. Your contribution will help to eliminate much suffering, and will help crippled children throughout this section.

PILLOW SLIP BINGO

The Pillow Slip Bingo at Florence Community Center is scheduled for Thursday evening, September 18. Proceeds from the affair will be added to the building fund. The public is cordially invited to attend.

DRAINAGE NEEDED FOR TRENCH SILLO

Suggestions on trench silos, published by the University of Kentucky College of Agriculture and Home Economics, says a narrow silo should be made if there is any question about the size. Any length not emptied may be kept for another year.

Locating the trench silo where there is good drainage is stressed in the suggestions. The best place is near the top of a hill. A tile drain should be installed in a lower corner, to carry away water entering the silo during the feeding period.

The water table must not be above the bottom of the silo, or within 8 feet of the surface of the ground, so there will be no water in the trench. All surface drainage must be kept out. Earth taken from the trench can be used to build up the surface of the ground around the silo, so water will drain away from the silo rather than into it.

RECIPE OF THE WEEK

An easy way to cook rice is to combine it was ground meat in meat balls. Should there be any left over, they will be as much enjoyed the second day as the first, says Mrs. Pearl Haak of the University of Kentucky.

Rice and Beef Porcupines
1 pound ground beef
1 cup uncooked rice.
1 t salt.
One-eighth t pepper.
1 t drippings
2 T minced onion
2 T green pepper
1 can tomato soup

Mix well the ground beef, rice, salt and pepper and form into eight balls. In the melted fat, brown the onion and pepper lightly, then add tomato soup and equal amount of hot water. Place the meat balls in a baking pan and pour over them the tomato sauce. Bake in moderate oven, 350 degrees, for about 1 1/2 hours, or until exposed rice kernels are done.

Menu: Rice and beef porcupines baked squash, carrot and pineapple salad, cornsticks, butter, and baked pears.

OIL SUCKER CONTROL IS NOT RECOMMENDED

Using mineral oil to prevent sucker growth on burley tobacco attracted some attention this year. Tests at the University of Kentucky Experiment Station at Lexington indicate that if enough oil is applied to prevent the growth of suckers the quality of the leaf is lowered.

It was found that enough oil must be used so that the oil flowed down the stalk and into the axil of each leaf and down to the ground. Unless oil flowed to the ground, suckers started at the base of the plant.

So far as burley tobacco is concerned, the Experiment Station considers the use of oil still experimental and does not recommend it as a farm practice.

TOBACCO GROWING ROTATIONS TESTED

Equally good results may be obtained by using any one of several combinations of grasses and legumes in a tobacco rotation, according to tests made at the University of Kentucky Experiment Station at Lexington.

Tobacco was grown one year and then a grass and a legume two years. Included were orchard grass and red clover, bluegrass and red clover, redtop and red clover, Kentucky 31 fescue and red clover, orchard grass and sweet clover, red-

top and Korean lespedeza, bluegrass and alfalfa, and Korean lespedeza and sweet clover.

The report says there were no significant differences in yield and value of the tobacco from the various plots. The average yield for 1946 through 1951 was 1,636 pounds and \$867 an acre.

The grasses and legumes were clipped several times a year and the clippings allowed to remain on the ground, with the exception of the orchard grass and red clover plot. Removing clippings on this plot for six years reduced yields an average of 230 pounds an acre.

Kentucky is noted for its fall fishing and hunt catches of bass are being taken daily. This catch was taken from Kentucky Lake in the vicinity of Kentucky Lake State Park and Kentucky Dam Village. The state also operates fishing and boat dock facilities at Lake Cumberland State Park.

Horseback riding and hiking are favorite sports of vacationers who visit Cumberland Falls State Park near Corbin. A stable of horses is maintained by the state at the park and miles of well-marked trails branch out from the park. The park is a year-round and is ideal for an invigorating mountain vacation.

TAG TELLS STORY IN BUYING SEEDS

Field seeds offered for sale in Kentucky be accompanied by a tag on which the germination, purity and nature of good seed content are shown, says a statement from the University of Kentucky. "Purchases should be made only after consideration of this information," it is continued. "Usually the highest quality of seed should be purchased. It generally contains fewer weed seeds per pound. Furthermore, the good seed of the crop desired will often cost no more and may cost even less per pound of actual seed, in a purchase of high-quality seed than in a purchase of low-quality seed."

CLEAR LAND AND INSTALLS DRAINAGE

J. S. Trospen of Means, Menifee county, this summer cleared 16 acres of bottomland, using a crawler tractor and brush rake. He also used heavy equipment to construct a drainage ditch 1,000 feet long and 1,800-foot drainage ditch for reclaiming and preparing about 40 acres for sowing grass this fall. He told UK County Agent Wallace Coffey that he is planning to treat his whole farm with three tons of limestone and 600 pounds of 4-16-8 fertilizer an acre.

Trospen harvested 18 acres of fescue seed, after it had been grazed in early spring. He will sow 40 acres more to fescue, he said.

**Dr. Army Vandenbosch
To Teach At Extension**

Dr. Army Vandenbosch, distinguished professor of political science at the University of Kentucky, will instruct an extension course on the United Nations during the fall semester at the UK Northern Extension Center, it was announced last week at the University.

Announcement of the course came from the Department of University Extension located on the University

campus in Lexington. Officially entitled "Political Science 106, the United Nations," the course offers a background of United Nations problems and issues together with an analysis of the UN charter and a comparison of it with the League of Nations.

The UK political scientist has been chosen to teach the course because of his close contact with the United Nations since its formation. In 1945 he represented the United States on the International Secretariat of the United Nations Con-

ference at San Francisco.

Dr. Vandenbosch is a graduate of the University of Chicago where he received the bachelor of philosophy degree in 1920 and the doctor of philosophy in 1924. In 1924 he served as a graduate assistant at the University of Chicago and from 1924 to 1926 he was an instructor in government at Iowa State College.

The United Nations expert joined the U. K. faculty in 1926 as assistant professor and gained annual promotions until he became a full professor in 1928. He has headed the Department of Political Science since 1934 and in 1948 the University Board of Trustees named him a Distinguished Professor of the University, highest faculty rank at the Bluegrass institution.

The United Nations course will be offered from 7 p. m. until 9:30 p. m. on Tuesday at the Northern Extension Center, First District school Sixth and Scott Streets, Covington. The first class meeting is scheduled for Tuesday, Sept. 23, and fees for the course will be \$22.50 for graduate students and \$15.50 for undergraduates. Three semester hours of credit will be given for the course.

Any person who has reached the level of a junior in college or above will be eligible to enroll for the class. Many professional people and other adults attending college now are expected to be interested in the course.

Persons desiring additional information concerning the course should contact Thomas L. Hawkins, director of the Northern Extension Center.

James E. Ransom Seeks Boone Co. School System Post

Is Son of Grover Ransom, Former Representative; Is Resident of Bellevue.

James E. Ransom announces his candidacy for election as member of the county school board, representing the Bellevue, Hamilton and Carlton precincts of Boone county.

He is 42 years of age and was born and raised in Boone county, and is the son of Grover Ransom, former state representative and cashier of the Bank of Verona.

He received his early education in Boone county schools, later receiving a Bachelor of Science degree in Civil Engineering from the University of Kentucky. A daughter, Sylvia is a student in the Burlington Consolidated high school.

Along with his announcement of candidacy he has handed us the following statement of his views and aims if elected to the office he is seeking:

"I favor, a sound, open, and efficient administration of Boone county school affairs in all phases of their conduct. As a taxpayer it seems to me that every effort should be made to strive for the greatest efficiency in spending for transportation and construction so that further increases in tax rates will be eliminated.

"From the educational standpoint, I favor the offering of a full academic and vocational curricula, by competent teachers, with those teachers working under decent conditions, and at a rate of pay in line with their tenure in service and scholastic level. Further I favor the retention of the grade schools in the communities in which the children live because of the advantages of having a center of community affairs close to home, for these children, their parents, the teachers and all interested persons. I will do my very best to learn the sentiments of those in the district I am to represent if elected, and so far as my individual efforts are concerned your policies will be carried out in all board operations.

"In this day and age there are many pressure groups who are seeking to have all kinds of 'isms' forced on and taught to our children. There are those who would discard the old ideals of teaching children the art of reading fluently, spelling correctly, and figuring quickly and accurately, the study of the classics and literary greats of the past. They would discard the vocational work whereby those who wish to prepare themselves early in life for the earning of a living. These same groups want to substitute many things that are un-American, trifling, and foreign to our way of living. I will work to the best of my ability to see that the schools of this county fulfill the purposes for which they have been created, efficiently, honestly, to the benefit of the greatest majority, further instructing all in patriotism, respect for law and order and undying loyalty to the Constitution of our country.

"I will make every effort to see that you live in the district from which I seek election, but if because of the necessity of making a living there is not enough free time for me to do so, I beg your indulgence and respectfully ask you to give me your vote."

James E. Ransom, son of Grover Ransom, former state representative and cashier of the Bank of Verona, is seeking election as member of the county school board, representing the Bellevue, Hamilton and Carlton precincts of Boone county.

Social Security Increase Somewhat Misunderstood

Many Will Receive Increased Benefits, According To Report.

There is some misunderstanding regarding the increases in the Social Security monthly benefits which will be made for this month, and which will appear on checks received early in October. All living retired wage earners who were receiving benefits before April 1, 1952, will receive an increase of 12 1/2% or \$5—whichever is greater. This has given rise to the mistaken expectation that all benefit checks will be at least \$5 higher, said Joseph T. Ware, manager of the Covington, Kentucky office of the Social Security Administration. Most wage earners who retired after April 1st have already had their benefits calculated on a slightly higher scale, and in some cases their increases will be less than \$5. There will be rare instances in which the increase will be only one dollar.

The total benefits paid a family cannot exceed 80% of the worker's average monthly wage. In such cases the full increase will be given the retired worker, but there will be no increase for the wife or children.

Many widows, children and parents of deceased wage earners will receive increased benefits, but these increases will often be very small. The amounts on the checks received early in October, Mr. Ware said, have been calculated with great care, and can be depended upon as correct; but anyone having questions about the amount of their check or anything else should call at, or telephone the Social Security office for Northern Kentucky, located at 7th and Scott Sts., Covington, Ky., telephone HE4mlock 3274.

—that's why a GMC pickup will
last longer. cost less to maintain!

WHEN the big GMC over-the-highway truck and the small pickup, shown above, are loaded to capacity—there's 30,000 pounds difference in their weights.

Yet they are alike in a lot of important ways that make GMC light trucks tops in all-around service!

For GMC is the ONLY pickup truck with all five of the important features which most manufacturers reserve for their bigger, "heavy duty" vehicles.

They are: Tocco-Hardened crankshafts, full-floating piston pins, airplane-type main and rod bearings, rifle-drilled connecting rods and full-pressure lubrication all the way to the piston pins—things that increase the life of any truck.

But that's not all. We'll be glad to demonstrate how other features like "pillow action" springs and recirculating ball-bearing steering give GMC's a real "passenger-car ride." Come in and see firsthand the fine features that make GMC today's top buy in pickup, panel and stake rack trucks!

PEOPLE'S SHOE STORE
814-816 Madison, Covington

A prominent "Foot Specialist" stated that it may be a far cry from a case of headache or backache or indigestion to a pair of bad feet, but the sooner the sufferer realizes that the pain in the back of his head CAN be related to the pain in the bottom his feet—the sooner he is going to get relief. Cramped nerves in the feet send "Nerve Reflexes" to distant parts of the body. Cramped blood vessels slow up circulation, letting chemical deposits and waste matter form at the joints of feet and legs. The next step is INFLAMMATION and PAIN at the joints that is often mistaken for arthritis or rheumatism. Why suffer longer? Why take chances with your health—comfort—and peace of mind. Go where schooled men will fit you with scientifically correct shoes for your type of foot.—Adv.

CLERK EMERGENCY MET AT WITEMYRE'S STORE

"Emergencies are made to be met," might have been the thought of Charles Witemyre, the amiable proprietor of Witemyre's, plumbing supplies and electrical appliances, 125 Pike Street, Covington.

For days and days Charlie advertised in the daily newspapers for a clerk. No results! Then he received word that a seven-pound boy was born to his daughter, Mrs. Jack Lampe, 249 Rosemont Ave., Ft. Thomas, Ky., Sept. 17.

"Guess I'll have to wait until that boy grows up to get a clerk," Charlie speculates.

Miss Mary Tanner, of Shelby St., was the guest of Miss Anna Lois Young Saturday evening for dinner on Lloyd Ave.

Mrs. Tom Marshall of Lloyd Ave., spent Saturday and Sunday in Cincinnati, the guest of her daughter and husband, Dr. C. J. Rosbrook. They all drove to Lebanon and had dinner at the Golden Lamb and attended the Lebanon trots after dinner.

RESOLUTIONS OF RESPECT

Whereas it hath pleased Almighty God to remove from our midst Sept. 2, 1952 our dear Sister, Miss Rose Anna Adams,

FIRST: That we bow in humble submission to His will, realizing that our loss is her gain.

SECOND: That we as members of Big Bone W. M. S. have lost one of our best, a Christian for many years, and will ever cherish her memory, which will always help each one to have faith in God.

THIRD: That we express our deepest sympathy to bereaved relatives. May God richly bless them. That a copy of these resolutions be sent to the relatives, a copy to the Boone County Recorder and a copy placed in the minutes of our W. M. S.

Respectfully submitted,
Mrs. Joe Ayler
Mrs. James Wilson. 1p

WIRE AND PAPER USED FOR SILOS

Arthur DeJarnette of McQuady, Breckinridge county, made a wire and paper silo in his tobacco barn. Ten feet across and 22 feet high, it cost \$20, according to UK County Agent Kenneth A. Brabant. Old wire already on the farm was used.

R. M. Skillman, Breckinridge county dairyman, made a paper and wire silo 12 feet across and 19 feet high. Harold Flood, also of Breckinridge county, used wire, hay and paper to make a silo. Pit or trench silos were dug by D. W. Pate and Kenneth Coleman.

SERICEA HELPS OUT IN WHITLEY COUNTY

How sericea lespedeza saved the day on Whitley county farms is noted by William L. Wells, UK assistant agent. All farmers growing sericea cut two hay crops and some of them three crops, he observed.

Although rain fell in August, it did not come soon enough to save fall-sown pasture mixtures. Farmers were advised to reseed pastures

by disking lightly and sowing small grain with the mixtures. By cutting everything possible for feed, most farmers in the county will escape buying hay, William said.

STRENGTH

The strength of a bank lies in its Capital, Surplus and Undivided Profit Account, plus the character and safety of its loans.

WE HAVE

Capital	\$50,000.00
Surplus	250,000.00
Undivided Profits	80,000.00

In these inflationary times we guard against making loans where the collateral is not adequate to fully protect the loan in the event of a recession in general business. This is a protection to the borrower as well as the bank.

We believe our depositors approve this policy.

Kentucky Plans Bow And Arrow Deer Hunting Season Nov. 24-Dec. 6th

A bow and arrow deer hunting season in the western part of the state will be held this fall if a request made to the Department of Fish and Wildlife Resources by the Kentucky Woodlands Refuge superintendent is granted, and indications are that it will be approved.

The request asks for the open season from November 24 to December 6 both dates inclusive. Hunting would be permitted only on marked sections of the refuge and the limit would be one deer to the hunter. Either bucks or does of the Fallow family may be killed, while only whitetailed bucks may be the target. The shoot would be managed by the Woodlands superintendent and all participants would register at the superintendent's office near Golden Pond. The hunter would be required to check in and check out each day that he hunts.

Also, it was requested that the season be opened on this restricted area to fox (red and grey), bobcat, groundhog, rabbit and crow. The limit of rabbits would be five.

The shooting area would be clearly marked in the area "between the rivers" and all hunting would be barred on all other areas of the refuge. To hunt with a bow and arrow the hunter must have in his possession a hunting license. It is believed the season will be granted by the Department since the deer population in that area has increased greatly in the past few years.

Bloodmobile Will Visit Boone County Friday, October 24

Place of Visit Not Definitely Decided At This Time.

The Bloodmobile from the Cincinnati Blood Center will come to Boone County on October 24th from 1 p. m. to 7 p. m. to again collect blood for the Armed Forces throughout the world. The place of the visit has not been definitely decided upon but will be announced in the next few days.

The above hours are used because they have proven most convenient to the greatest number of people. Won't you come and give blood? It is so necessary! Your blood may save a life. Isn't it a fine thing that you can give a life to someone who would otherwise die if it were not for your blood.

You, as a donor, are so precious to the folks working at the bloodmobile visits that everything is done for your comfort. Everybody is glad to see you. This is real democracy in action. Someone helping another. Your coat or wrap is taken from you, you are greeted everywhere with a smile, and after you have given this life-saving blood, you are served delicious coffee or tea and sandwiches, home-made cookies, and of course, fruit juice. This is done, because YOU are a VIP, yes, indeed, a very important person, because you, by giving this gift of blood are saving a life.

The greatest surgeon cannot have a life, if he needs blood for his patient and it isn't there. But you can help those doctors and their medical detachments on the battlefields and in veterans hospitals by giving them the most valuable help—a pint of your blood. Won't you do this? Sign up for this coming visit on October 24. Call Mrs. Allan Gaines, Walton 33 or Mrs. Elizabeth G. Negtor, Florence 84.

Bridge Bids Will Be Received, For Ky.-Indiana Span

November 12, According To Announcement of Indiana Commission.

The Indiana-Kentucky bridge over the Ohio River between Boone County and Lawrenceburg, Ind., is a step nearer reality after the announcement of the Indiana Toll Bridge Commission that it will receive bids for construction work November 12 in Indianapolis.

The proposed bridge will connect with Kentucky 20 in Boone County near Petersburg. Kentucky has agreed to build a new 2 1/2-mile road connecting the bridge approach and the highway. On the Indiana side, it will connect with Indiana Routes 48 and 1, and with U. S. 50.

Cost of the proposed project is estimated at \$4,000,000 to \$5,000,000. It will be financed by a bond issue, which will be retired from tolls to be collected on the new bridge. The Indiana commission announced bids on the revenue bonds will be received November 21.

The new structure is to be called the Indiana-Kentucky Memorial Bridge.

It is believed by local officials that the new bridge will result in great benefit, both from an industrial and residential standpoint. It will also give highway traffic, particularly heavy truck traffic, a route which will bypass Cincinnati and the larger northern Kentucky cities.

The bridge will open a new route to the Greater Cincinnati Airport from Indiana and the extreme western part of Cincinnati.

Indiana state officials predicted that tolls would pay off the bonds and make the bridge toll-free within 20 years. The tolls will enable it to be built without cost to the taxpayers.

Open House Planned By Mid-Valley Pumping Station

Residents of Area Invited To Visit Station October 18 and 19.

Keynoting its participation in the nation-wide celebration of Oil Progress Week the Mid-Valley Pipeline Company will hold an informal "Open House" at its Hebron pumping station for residents of this area on October 18 and 19.

In making this announcement, Mr. J. L. Carroll, Maintenance foreman of this area, said that Mid-Valley cordially extends an invitation to all its neighbors and friends in the area who would like to come and visit the company's pumping station near Burlington, one of the nation's largest and most modern facilities designed specifically for transporting oil underground safely, efficiently, and economically from producing fields to major refineries.

With the nation saluting Oil Progress Week October 12-18 inclusive, Mr. Carroll explained, Mid-Valley's management and its 150 employees believe that Open House celebrations at its various pumping stations would prove of timely interest to the company's many friends and neighbors in 15 communities from Texas to Ohio where the firm maintains operations.

"Pushing petroleum through a pipeline is the fastest growing means of the shipping," Mr. Carroll said, "and today by the large proportion of both crude oil and refined petroleum products are carried through a 160,000-mile pipeline network crisscrossing the nation in every direction."

To perform this tremendous transportation job, Mr. Carroll said, takes plenty of pumps, engines and motors, electrical controls, safety devices, and a whole host of auxiliary equipment items directed and coordinated by skilled station engineers to provide the smooth functioning performances required in carrying oil underground over long distances.

"Mid-Valley welcomes visits from all those persons who would like to get an inside view of an installation that typically exemplifies the size and scope of such facilities, and would like to see for themselves what goes on at a modern crude oil pumping station like the one our company operates near Burlington," Mr. Carroll said.

Formed in 1949 and put into full scale operation in 1950, Mid-Valley operates a 1,000-mile pipeline, which carries crude oil from the producing fields of Texas, Arkansas, Louisiana, and Mississippi, to expanded refineries in Ohio and Kentucky. Two feeder lines and two delivery spurs are directly linked with the main trunkline. In addition, the company has district warehouses located at Haynesville, Louisiana, Oxford, Mississippi, and Erlanger, Ky.

Maximum thruput capacity, all of which is not being used at the present time, totals 235,000 barrels of crude oil daily. In terms of gallons, this amounts to 9,870,000 gallons—one barrel for petroleum industry use being equal to 42 gallons.

It's pressure—and plenty of it—that moves oil through a pipeline. Pressure of the oil is raised to approximately 1,000 pounds per square inch by centrifugal pumps upon entry of the oil into the main line. As the black liquid passes

through the line, this pressure decreases due to friction of the oil as it moves against the pipe wall. This makes it necessary to boost the pressure for the desired rate of flow.

In Mid-Valley's case, this pressure boosting process is repeated 13 times—at 13 stations like the one located near Burlington, and which are spaced at intervals approximately 75 miles apart, over a distance of 1000 miles—to keep the oil traveling through the welded steel line of 22 inches in diameter, until it reaches the Mid-Valley delivery terminals in Lima and Clevelves, Ohio, and Latonia, Kentucky.

These stations, 5 of which are electric powered, and 8 diesel powered, utilize a total of 60,000 horsepower to move oil and keep it on the move, on a continuous 24-hour basis.

To accomplish the same task by rail of moving 28 million tons miles of crude oil every day as Mid-Valley does, would require some 80 trains of 60 cars each operation continuously 'round the clock!

The meeting was addressed by Thomas F. Schnorr, chairman 5th District and Thomas Hoksins, Fifth District member-at-large of the State Republican Party Central Committee. They outlined the need of Boone County for a live Republican group, made suggestions for launching of the various activities indigenous to such an organization and wound up by promising every help at their command toward the common goal of better government for Boone County.

Republicans Plan Eisenhower-Cooper Fish Fry October 10

Florence Fire House and Community Hall To Be Location Of Rally.

At an emergency meeting held Monday night, September 29th at Florence, officials of the newly organized Boone County Republican Club headed by temporary chairman, Vaughn Hempling of Constance and campaign chairman, Otis Readnour, of Walton, plans were formulated for a fish fry and entertainment. The Florence Fire House and Community Hall was selected as the most appropriate place to house the rally.

It has been many years since the Republicans in Boone County have gathered to voice their sentiments in the governing of their progressive county, and the leaders of this reborn and aggressive organization voted to put on what they are pleased to call their "Cooper-Eisenhower" fish fry as the best means of starting the ball rolling in a campaign to elect Republican officials to various county posts as well as contributing their share of votes in the state and national elections.

The "Cooper-Eisenhower" fish fry will feature plenty of crisp fish sandwiches, delicious refreshments and music and entertainment for everybody. Admission will be free, of course, and the optimistic membership is busy inviting all and sundry to the first affair of its kind staged in Boone County in many years. The entertainment committee is laying in huge stocks of succulent piscatorial delicacies in sufficient quantities that no one may go home hungry.

Arrangements for the "Cooper-Eisenhower" fish fry get-together are in the capable hands of Otis Readnour.

Where A-C Subsoilers
ADD EXTRA ACRES

Low, waterlogged areas in fields are too often unproductive, even where rainfall is comparatively light. Excessive water remains in these spots long after the shower.

Now Allis-Chalmers Subsoilers may help solve this problem. Just go round and round above the "pot-hole" ... breaking up the subsoil so that more water will penetrate before it collects in the low place. Next, chisel right through the low area.

Hydraulically controlled, the WD Subsoiler penetrates to 18-inches, the CA to 14-inches ... breaking hardpan below the reach of a plow.

Let us show you how the new Allis-Chalmers Subsoilers can make more of your land more productive.

Hebron-New Haven Win Football Tilts During Past Week

Competition Much Keener As Season Progresses.

Results of last week's 6-man football games in the Northern Kentucky Conference did not change the team standings to any degree, but the game results did indicate that competition is getting tougher as the season progresses. Powerful Hebron (now sporting a 3-1 record) had plenty of trouble with the Florence Knights before taking charge of the game in the last half. The half time score was tied at 16-16. The final score was 44 to 28 with the Cards on top.

Coach Red Perkins' New Haven Tigers began to show some of the power which was expected of them last Friday afternoon as they routed the Walton Bears 54 to 0 at New Haven. The win pushed the Tigers to a 2-2 record for the year and puts them in a spot to tie Hebron this week if they can win from the Cards Thursday night.

Coach George Maines' Knights will furnish the opposition for Burlington undefeated Eagles Friday night at Burlington.

Remaining Schedule

Oct. 10 Burlington-Florence.
Oct. 16 Burlington-New Haven.

WITH THE FARMALL
SUPER C ON THE JOB!

Plow-bottom socked-down to work an honest 8 inches deep—and that's easy. The McCormick No. 8 plow is built to lay clean, uniform furrows, as deep as 10 inches. And the Farmall Super C Tractor pulls one 16-inch bottom in heavy going—or two 12-inch bottoms in average plowing.

The Farmall Super C is built to power the diversified farm of 80 to 120 crop acres. Its upholstered seat, mounted on a coil spring and hydraulic shock absorber, gives you a "feather-cushion" ride.

There's a full line of simple, low-cost, quick-change implements for the Farmall Super C. All excess wheels, levers and pounds are designed-out of these implements—no extra strength, plus new ease and speed of changing from one implement to another, are designed-in.

And all of the Farmall Super C's quick-change implements are under complete, two-way control—with the Farmall Touch-Control. "Tell" the control with a finger-tip touch what you want done—instant-acting hydraulic power does it! See us now about a Farmall Super C.

Bob and Gene Nine Take Title of KAG League In Finals

Defeating Grants Lick Nine By Score of 7-2 Sunday at Florence.

Bob and Gene took the elimination series champion of the Kentucky Athletic Goods Semipro Baseball League by trouncing the strong Grants Lick 7-2 Sunday at the Florence park in the third game of the series. The locals won the first and third game of the play-off series.

Bob and Gene completed the regular season play in second place as Grants Lick copped the pennant with a record of no defeats for regular season play.

Gene Bussman was on the mound for the winner and scattered five hits, fanned nine and walked two. Allen Nagel started for Grants Lick but he was relieved with two outs in the eighth inning by Bob Menckel.

Bob and Gene broke a 2-2 tie with a five-run rally in the eighth inning. Twice the winners came from behind to tie the score. Grants Lick scored in the second and Bob and Gene tied it in the third. The losers went into a 2-1 lead in the sixth, but the locals again knotted the score in the seventh frame.

In the second inning, Alvin Rinehard opened with a double for Grants Lick and held on while two players were retired before Ray Bowman singled him home. Bob and Gene knotted the score as Gene Bussman was safe on an error of his fly ball and took second, scoring on a single by Jerry Ryle.

In the sixth inning Grants Lick had two men on base with a single and a walk. On the next play the runners advanced a base on an out. John Henry on third base attempted to score on an field grounder, but was out, with Rinehard taking third. Rinehard scored on a single by George Dittus. Bob and Gene made it 2-2 when Tom Imfeld walked with two outs and came all the way as Charlie Ben's fly to left was dropped.

The local boys scored five runs in the eighth, turning the game into a rout on an error, a single by Miller, triples by Bussman and Jerry Ryle, a walk, and a single by Imfeld.

Jerry Ryle had two singles and a triple and C. Benson had three hits to lead the winners' attack.

"Sox" Benson and Dick Stagman were outstanding in defensive play throughout the game, making several spectacular catches which could have gone for extra bases.

The championship was the third for the Bob and Gene nine in the past four years. They also won the Times-Star champion for the 1951 season.

Will Improve City's Sewage Disposal System; Council Approves Issue.

Erlanger residents will be asked to vote November 4th on a \$40,000 bond issue for improvements to the city's sewage disposal system as a result of action by the City Council last week. The Council passed an ordinance approving the bond issue. City Attorney, Ervin C. Bramlage, has asked Sam F. Ste, Kenton county clerk to place the issue on the ballot.

The issue calls for 25-year bonds, callable at the end of 10 years. Mr. Bramlage said a two-thirds vote is necessary for passage of the issue. The money is necessary to improve sanitary sewer lines and the disposal plants, Mr. Bramlage explained. The whole system needs overhauling and many of the outfall lines should be enlarged, he said. The city commenced building the disposal system in 1938. Since then the city's population has nearly doubled.

Erlanger's disposal plants are located on Riggs avenue, Sunset avenue and Stevenson road.

Florence Firemen's Fund Raising Drive Boosted \$989.00

Ralph Orchelle Holder Of Lucky Ticket On 900-Lb. Steer.

The Florence Volunteer Fire Department fund raising campaign was swelled a total of \$989.00 last week by the sale of tickets on a 900-pound steer, which was won by Ralph Orchelle, Dortha Ave., Florence, who held the lucky ticket.

The fund raising drive was inaugurated by the firemen after the department purchased a new pumper several weeks ago. The new pumper is one of the latest models, and will greatly aid in the prevention and control of fires in the Florence area.

Progress is being made in the drive, according to volunteer firemen. A total of \$1,500.00 has been collected to date, and it is expected that the debt of \$10,000 on the new pumper will be materially reduced by the close of the drive November 19th.

Property owners and residents of the Florence area, who have not been contacted by the fund raising committee are urged to send their contributions to the Florence Volunteer Fire Department as soon as possible. An effort is being made by committeemen to contact every resident in the community.

"This is a community project, and should be supported by every resident of this area," a spokesman for the committee said.

Efforts of the volunteer fire department have materially reduced the insurance rate in the Florence area, and will continue to hold the rate at a minimum so long as fire fighting equipment is maintained at a high level.

WHATEVER CROP GROWS HERE

THE FARMALL C WILL BE THERE, ALL THE WAY!

Grains, grasses, field row crops, vegetables—whatever is planted in this mellow, weed-free seed bed, the new Farmall C Tractor with Touch-Control will be on the job all the way. The Farmall C is shown here with the McCormick No. 10-A Disk Harrow.

For the Farmall C delivers practical 5-way power: (1) at the drawbar, for pulling trail-behind machines; (2) at its mounting pads, for pushing forward-mounted implements; (3) at the belt pulley; (4) at the power take-off; (5) at the Touch-Control power arms for raising, lowering and regulating mounted implements by hydraulic power. All at surprisingly low operating cost!

Available for the Farmall C is a full line of matched, quick-change implement units. New and simple in design, each low-cost implement mounts on the tractor to form a compact operating unit. Rear-mounted implements, likewise, are quick-change.

Implementers for the Farmall C are under the complete, 2-way hydraulic control of the Farmall Touch-Control. The Farmall C pulls one 16-inch or two 12-inch bottoms; cultivates two rows of wide-planted crops. Ask for full information.

WORD OF APPRECIATION

On April 1, 1941, it was the writer's pleasure to become pastor of Burlington Baptist Church, and next Sunday we will close that ministry of eleven years and seven months, having accepted the call to become pastor of the Florence Baptist Church, and I wish to take this opportunity to express my feelings concerning this great privilege and joy which has been mine across the years.

First, I feel that when the good Lord directed my coming to Burlington Baptist Church, it was a great hour in my life, for no one could have been received and honored in a greater way than by this fine church. They have followed our leadership in a very fine way, though we have failed, no doubt, many times. They have always had the courage to speak up if our desires and suggestions were not for the best interest of the church, for which we have been very thankful. Even though that be true, we have come through with many things to be thankful for, and have one of the most beautiful church buildings and parsonage in the entire community with all indebtedness taken care of through tithes and offerings. We shall ever be indebted to this fine church as well as all others that we have served in our ministry, for their contribution in helping to give me so many victories for the Lord.

Second, not only to this fine church, but to all people regardless of who they may be—never have we found a group of people that loved us more and have meant so much to this writer. Regardless of color or creed, we have been friends thru the years and as I go from you, I shall always thank God for all of you! You are a great people!

As I go to my new field, I hope I can still continue to be of service in any way possible to any and all. Sunday morning October 19th, we will preach our last sermon as pastor of this fine church, and I wish to extend an invitation to everyone who can, to attend the services. On Sunday night, our program will be made up of music, led by Edwin Walton, featuring the Burlington Baptist Church choir. We wish to extend an invitation to everyone to attend the service, 11:00 p. m.

In Boone County was the French Catholic, Longueuil, whom history records as the first European to enter what is now the state of Kentucky. He stopped at Big Bone Lick, a place much visited by the Indians on account of the springs. The second explorer who came within this portion of Kentucky was Celeron, a Frenchman, in 1750, who was the first to explore the Ohio River from its course to its mouth. History records two captive Virginia women as having escaped from the Indians at Big Bone Springs in 1754 and safely making their way home.

The greatest of all explorers was Daniel Boone, after whom our county was named. Kentucky was made a state in 1792 and this part of the state was included in Campbell County. Boone County was separated from Campbell County in 1798. All of Kentucky was considered a part of Fincastle County Virginia, and claimed by that state. The land grants are either recorded in that county are in Campbell County, for in 1805 when the first deed book was opened in the new Boone County the land was already in the hands of individuals. The first deed shown in this county was made by Samuel Glore to David O'Neal, who sold ten acres on the Sugar Fork of Big Bone Creek for twenty dollars.

Kenton County was a part of Campbell County, and Florence,

Whether for a stroll, as these two women are about to do, or for a long hike through a scenic woodland, the miles of well-marked trails at Natural Bridge State Park, near Slide, are a paradise for nature lovers. The season at this park has been extended to November 1 for Fall vacationers. Kentucky Dam Village, Kentucky Lake and Cumberland Falls State Park remain open year round.

Recently a group of Western Kentucky newspaper and radio men were taken on a tour introducing them to various facilities and scenic beauties offered tourists in Southeast Kentucky. Members of the group are shown here inspecting Wolf Creek Dam near Jamestown. The tour was sponsored by the Commonwealth and the Kentucky Chamber of Commerce.

which was formerly called Connersville for Paschal Conners, an early settler, and previously Maddens-town for Dr. Madden, is said to be older than Covington. Florence formed a link in the road which ran from Lexington to Georgetown and Cincinnati. The name of Connersville was changed by act of the Legislature, which incorporated the town of Florence on June 27, 1830, with the following trustees: B. A. Collins, Jacob Shotts, Henry Stuch and Wm. T. Bainbridge. In 1851 the Burlington and Florence Turnpike was begun, a mud road having previously been in existence.

In 1851 Cornelius Ahern, who was the instrument in the hands of God of starting the first Catholic Church in Boone County, came to Florence with his family. He found two Catholics in the little village, Mrs. Scott, the wife of the village doctor, and Mr. and Mrs. Ferneding, who kept one of the village taverns. The Aherns naturally felt lonely without the Mass and invited Father Thomas R. Butler from Covington to say Mass. Father Butler came on a week-day in the latter part of the year. He arranged to say Mass on a Sunday and the word was spread abroad and the gathering proved to be so unexpectedly large that Mr. Ahern said then we surely need a church. Professor Andrew Collins, whose father, Andrew Collins, was one of the founders of the church, narrates that his father had just come to Taylorsport, near Bullittsville, in the year 1851, after a trip up the river from New Orleans in which city he had landed from Ireland. He heard the Mass was to be said in Florence and traveled perhaps fifteen miles on horseback to be present. This was the beginning of the Catholic Church in Florence. Mass was always celebrated in Mr. Ahern's log cabin on Shelby Street and the old parishioners narrate that Mr. Ahern always insisted on those who came a long distance or who came fasting to Mass to participate in his hospitality. Father Butler arranged to come every three months and the village people took very kindly to him and invited him up to the Christian Church to explain the Catholic doctrine, which invitation Father Butler accepted.

Father DeMarie, an Italian priest, who came from time to time to say Mass in Florence in Mr. Ahern's log cabin, as did Bishop George Aloysius Carrell, the first Bishop of Covington, and also Father Guilfoyle, undertook to go on a missionary tour to raise funds for the church. Father Force was the first pastor appointed for Florence. The Catholics of the neighborhood had raised enough money to start building, together with that which Father DeMarie had collected, the old church on Shelby Street. Ezra K. Fish, a non-Catholic, on September 26, 1855, donated two lots, making a ninety-foot front on Shelby Street and one hundred and twenty foot on Center Street. The parish purchased from him another lot adjoining on Shelby Street on June 21, 1856. This lot had a frontage of forty-two feet, extending one hundred and twenty feet back to an eight and one-half foot alley. The purchase price was seventy-five dollars. Mr. Ahern, who was a stone mason, built the stone foundation, with the help of the men in the congregation. While the church was being built, the Know Nothing propaganda was in full swing. Religious liberty was not accepted by a

large number of American people as a principle or as a practice. However, there were not many bigots in the village, as is always the rule where people have personal contact with Catholics, but out in the country there were many Know Nothings. They had a lodge and a plot was formed to burn down the Catholic Church before completion. John Bradford, a prominent non-Catholic, warned Mr. Ahern. Mr. Ahern, Mr. Kennedy, Mr. Collins and about twenty other members of the church assembled at the church and remained all night to guard it. There was no attack, owing it is said, to the courageous action of Col. H. Buckner, who went to the meeting of the Know Nothings and, laying a revolver on the table and calling God to witness, stated that he would shoot the man who put a match to the Catholic Church. He was known as a man of his word and this interference broke up the plot. In the meantime the village people also declared they would help defend the church.

The first Catholic Church was built of frame. Its dimensions were twenty-five by forty feet. A steeple topped it off about thirty feet high. There was a gallery and the building could accommodate about four hundred, as there were no pews, but plain pine benches. The building cost six hundred dollars to erect, and was dedicated in June, 1856. There was no resident pastor. Father Force said Mass once a month and seems to have made Mt. Sterling, Ky., his headquarters for the baptismal records for Florence from 1855 to 1881 are to be found in the records in Mt. Sterling. The early priests were missionary priests going on horseback from one mission station to another.

Among the pioneer Catholics were Cornelius Ahern, James Kennedy, Martin Farrell, Joseph Sullivan, Andrew Collins, Thomas Golden, John Usher, Joseph Ferneding, Thomas Dorsey, Michael Carey, Mrs. Dr. Scott, Mrs. Fred Cull, Mrs. Fred Rich, and Mrs. Henry Oelsner.

The early non-Catholic friends included Col. Ezra Fish, Spencer Fish, Jonathan Williams, John Bradford, and the Price, Buckner, Stevens, and Carpenter families.

There was no resident pastor appointed for St. Paul's Church until Father Bent, who came in 1874. From Father Force's time until Father Bent, the following priests officiated at Florence: L. D. Willie, 1862; W. J. D'Arcy, 1863; A. Egglemeers, 1864-65; Abbot S. Hiermann, O. S. B., 1865; Rev. James McNeerney, 1865-66; L. Young, 1867; J. F. Van de Wiel in 1867; George A. Watson, 1867-68; John A. McGill, 1869; Jas. W. Smith, 1869-70; J. F. Whelan, 1870-74.

Father Bent built the addition to the church which gave room for the sanctuary and established the first school, and its first teacher was Miss Murphy. School was taught in the church. Father McNeerney built a school room on the lot purchased from Mr. Fish. Father Bent lived in Florence in an old brick house on the south side of Shelby Street, the first building from Main Street. The church purchased the house on Main Street, the second door from Burlington Road, and in this house Fathers Kolb, Kathman and McCaffrey lived. Father McNeerney returned to Florence here July, 1877, until November, 1878, when he was succeeded by Father Burke, who

was pastor here for the long period of eleven years. Father Burke installed pews in the church and spent about two thousand dollars of his own money on the church. Father Burke kept the records of the church in good order. The baptismal records show two baptisms performed by Bishop A. M. Toebe at Williamstown and also a baptism by Father Lambert in 1877. The priests assigned to Florence always had the care of mission churches, and the baptismal records cover many of the surrounding towns such as New Liberty, Warsaw and Williamstown. Four missions were served by Father Burke: Walton, Verona, Independence, and Florence. As a consequence there was Mass in St. Paul's only once a month. Father Wm. Gorey was Father Burke's successor until 1891. Father J. B. Kolb was appointed on April 1 of that year and remained for thirteen years, exceeding the period of service of any of the pastors to the present date.

The mission at Walton was dropped from Florence and Father Kolb built a church at Erlanger.

Father William F. Kathman was appointed pastor September 1, 1904, and to him is to be given the credit of inaugurating the building of the present pretty brick church building and pastor's residence. The cost of both was \$14,000. Father McCaffrey was appointed his successor on May 1, 1911, and carried to completion the building of the present church plant. Father McCaffrey was the first priest to say two Masses on Sunday, one in Florence and one in Independence, nine miles away. Father John F. O'Dwyer was appointed pastor on January 28, 1913, and one of his first acts was to close the school. He improved the church grounds with roads and walks. His successor was Father John Kroger who came on January 1, 1916, and remained only nine months. His successor was Father Lelen, who sold two acres of the church property to reduce the church debt which was dragging along during the war period. Rev. Gerald J. Connelly came on October 1, 1918. Father Connelly converted the old church building into a modern hall, with stage, scenery, folding chairs, electric lights, and purchased a moving picture machine. Mr. and Mrs. John R. Miller on January 18, 1920, from the estate of their son, John Miller, donated one thousand dollars, the largest single gift ever made to the parish. The parishioners also contributed towards the reduction of the church debt during 1919 and 1920 by a total subscription of one thousand six hundred and eighty dollars. Father Connelly was transferred to Brooksville, Ky., June 8, 1921, and was succeeded at Florence by Reverend Herbert J. Egbright.

During the summer the concrete highway linking Florence to Covington was completed. Electric lights were installed in the church and residence and two side altars were obtained from Holy Cross Church, Latonia, Ky.

On the first Saturday in August, 1921, the first picnic was held on the church grounds. The response

from parishioners and friends in the city was beyond all expectations and enough money was cleared to pay off the debt of fifteen hundred dollars and to make needed repairs on the buildings.

September, 1923, was a very blessed month for the parish. On the tenth day of the month the parochial school was reopened, after being closed for ten years. The old school room was repaired and converted into a modern sanitary classroom. The enrollment was twenty-five pupils. The services of the Benedictine Sisters were obtained and Sister Mary Irene, O. S. B., the only child of the parish to enter religious life, was placed in charge. Her residence was at Erlanger, and the trip back and forth was made daily by bus. One week later, owing to the difficulty of having eight grades in one room, the sacristy was utilized as a second classroom, and Miss Catherine

Bauers became the teacher of the four lower grades.

During the fall of this year a modern steam heating system was installed in the church.

TIME TO BUY, PLANT NEXT YEAR'S BULBS

Now is the time to buy and plant hyacinth, tulip and daffodil bulbs for next year's blooms, according to N. R. Elliott of the University of Kentucky. He warns that they should not be set later than Nov. 1. Bulbs may be set in beds where annuals, such as zinnias, marigolds and snapdragons are growing. Hyacinths should be planted so the top of the bulb is five inches below the surface of the ground, while daffodils and tulips should be four inches. All should be spaced eight inches apart.

THINGS WORTH LEARNING
Learn to control the person who wears your own hat. That is a great victory.
Learn to keep from grumbling. If you can't say anything good, don't say anything bad.
Learn to stand. Don't be a leaner.
Learn to laugh. Nobody wants to hear you cry.
Learn that people are not slighting you. Maybe they do not have time to think about you at all.
Learn to attend to your own business. That is probably more than you can do well.
Learn never to meddle. Meddlers often get hurt but never paid.
Learn to keep your troubles to yourself. Nobody wants them. Everybody has plenty of troubles of their own.
Learn to speak briefly. Let others do most of the talking.
Learn to say kind words. Nobody resents kind words.
Learn to avoid cutting and nasty remarks. They are of no value to either the speaker or the hearer.
Learn to do your own work well. The other fellow has his job to do.

LIVESTOCK FEED NEEDS OUTLINED

Drought and lack of good pasture are upsetting the normal feeding of livestock. A leaflet of the UK College of Agriculture and Home Economics places a year's needs of a milk cow at 30 bushels of corn, 300 pounds of protein supplement and two tons of hay. Larger amounts of these feeds will be needed this year.

A heifer one to two years old ordinarily requires five bushels of corn, 50 pounds of protein supplement and a ton of hay; a calf in its first year, seven bushels of corn, 200 pounds of supplement and a half-ton of hay.

A beef cow or bull needs a ton and a half of hay during the winter months. To winter a feeder calf calls for 10 bushels of corn and a ton of hay, and wintering and finishing a good yearling, 10 bushels of corn, 120 pounds of protein supplement and a ton of hay. Dry-lactating of a two-year-old beef animal requires 14 bushels of corn, 25 pounds of supplement and a fifth of a ton of hay to produce 100 pounds of gain.

A sow needs 13 bushels of corn and 40 pounds of supplement a year; sow and litter, 14 bushels of corn and 85 pounds of supplement pig until it weighs 225 pounds, 17 bushels of corn and 70 pounds of supplement, and a feeder pig, per 100 pounds of gain, seven bushels of corn and 150 pounds of supplement. To keep a boar, one should have 35 bushels of corn and 150 pounds of protein supplement.

A ewe and lamb eat about a bushel and a half of corn and a seventh of a ton of hay in a season. One hundred laying hens eat at the rate of about 80 bushels of corn and 3,000 pounds of protein supplement feed a year.

It's the soles of the people I keep in view,
For I am the doctor of Boot and Shoe,
And I serve the living and not the dead,
With the best of leather, wax, nails and thread.

I can sew on a sole or nail it fast,
And do a good job and make it last.
There is nothing snide about what I can do,
Doubt not my statement for work proves it true.

I can give you a lift, too, in this life,
Not only you, but your family and wife.
A great many patients came to my door,
Worn out and run down, besides feeling sore.

Though I don't use poultice, plaster or pill,
I can cure all sick shoes, no matter how ill.

State's Bankers Receive Award For Work With Agriculture

Atlantic City, N. J., Oct. 1.—The banks of Kentucky were cited here this morning for their outstanding service to the state's agriculture, when the Kentucky Bankers Association was presented with the 1000-point rating award of the Agricultural Commission of the American Bankers Association. The award was presented at the closing general session of the A. B. A.'s 78th annual convention, which has been in session here since Monday.

The award was presented in recognition of the high quality of regular banking services provided to the farmers of the state as well as for special activities conducted by the Association's member banks in the agricultural field during the past year. This is the 13th consecutive year that the state's banks have received the award.

Points toward the award are given by the A. B. A. for such activities as promotion of soil conservation and land management, cooperation with the extension service of the state agricultural college, support of farm youth groups such as Future Farmers of America and 4-H Clubs, special activities such as farm credit schools and educational projects, and other programs which strengthen banker-farmer relationships. Quality of regular bank service is given large consideration, along with the work done in agriculture by the state bankers association. In addition, prime importance is placed upon the appointment of bankers in each county to represent the state bankers association in agricultural matters and coordinate the farm programs of the banks in their respective communities. In Boone County the Agricultural Chairman is A. B. Ren-

Among the outstanding agricultural projects conducted by Kentucky banks during the past year was a series of farm management meetings for bankers held by the Kentucky Bankers Association in cooperation with the Federal Reserve Banks of Cleveland and St. Louis and the College of Agriculture at Lexington. Eight meetings were held this year with the purpose of giving bankers a better understanding of the problems and procedures of farming. The subject for the meetings was "Farm Machinery and Buildings—Money Makers or Money Losers."

Count Your Blessings

In all the talk about high prices, a few important facts are often overlooked.

One of those facts is that America has the highest living standards in the world, by a tremendous margin. Nowhere else does the average family enjoy such an abundance of both necessities and luxuries.

Another is the fact that in America the average wage-earner has to work much less time to earn enough to buy food, a car, a suit of clothes, or practically anything else, than in the other nations of the world.

Still another is that—because of our system of free competitive enterprise—we have a system of production and distribution of goods and services which is absolutely unrivaled.

As an example, the retail store you take for granted is so far superior to its counterpart in most other countries as to be beyond comparison. That goes for big stores and small ones, chains and independents. Foreigner after foreigner, on their first visit to America, have been actually awed by the endless and infinitely varied arrays of foods and manufactured wares. And they've been amazed by the fact that almost everything which is displayed and sold is within the means of the average family. Many of the things we look upon as near-necessities are regarded as unobtainable luxuries in other lands.

So next time you enter your favorite retailer's establishment, see it with fresh eyes. See it for what it is—the show window of America. And count your blessings!

Your Share

It may be that you think you don't owe any part of the national debt. If so, you are just as wrong as you can be.

The national debt of a free nation is owed by the people of that nation—not by some vague, impersonal government—because in a free nation the government is the people. The national debt is therefore the debt of the people—so you had just as well figure your share of it.

Dividing our present national debt of \$280 billion by the 150 million people in the country shows that on the average each person's share of this debt is \$1,733.

Now, to some of you, that may not seem to be too excessive a debt. You may think that if and when the time comes that you must pay your share, you won't have a great deal of trouble doing it.

But wait a minute! The average per capita debt of \$1,733 means that this amount is owed by each man, woman and child in the country—black and white, sane and insane, literate and illiterate—all sorts of people.

And when you remember that millions of people in the country, in addition to the babies and children, do not have and never will have total assets amounting to \$1,733, then the fact begins to soak in that your share of the national debt is a great deal more than this average.

And, of course, there is no getting around that fact; it is certainly true that the average reader of this article owes much more than \$1,733 as his share of the national debt.

It would be entirely impossible to figure out accurately any particular individual's share of the debt—there are too many factors to be taken into account. But an interesting figure has come to our attention lately which might very well indicate what this share might be—still on the average, of course, because here again there would be many variations.

This figure is the amount of life insurance in force in the nation. It is approximately \$255 billion—about \$5 billion less than the national debt—The Elizabethtown News.

EAST BEND W. M. U.

The East Bend W. M. U. met Thursday, October 9, at the home of Mrs. Betty Jon Allen. Ten of the members were present. Those answering the roll call with a Scripture verse were Mrs. A. G. Hodges, Mrs. R. L. Hodges, Mrs. Bessie Black, Mrs. Sue Ryle, Mrs. Fay Stephens, Mrs. Marie Hensley, Mrs. Betty Allen, Miss Rose Hodges, Miss Lucille Hodges and Mrs. Wilma Slayback.

The topic of the lesson, "Choosing the More Excellent Way" was discussed by seven of the members. We sang "America" and "America the Beautiful" for our hymns. We were dismissed with prayer by Mrs. Bessie Black.

Our next meeting will be held Thursday, November 13th at the home of Mrs. Ada Ryle. We urge all members to be present at our next meeting and we invite and welcome new members to join us.

History of St. Paul's Church, Florence, Ky.

(Continued From Page Six)

In 1924 the interior of the church was painted for the first time and a large main altar was purchased. All the statues were renewed and repaired, and a vestment case, confessional and baptismal font were donated.

New families had moved into the district, attendance at school had increased, so that a new building was necessary. A total of twenty-five hundred dollars was subscribed for a new school. On March 30, 1925, ground was broken and the construction began under the direction of E. A. Herzog. Work progressed rapidly and the school was dedicated September 13, 1925, by Right Rev. Francis W. Howard, D. D., Bishop of Covington, before the largest gathering ever assembled in the town. School opened the next day, with Sister Mary Grace, O. S. B., as the teachers, and forty-three pupils enrolled.

The old church building on Shelby Street was rapidly falling into decay. Accordingly it was condemned by the town officials, and razed by the men of the parish in January, 1926. The lumber was used to construct a large hall in the rear of the present church, and is used regularly for entertainments, social gatherings and society meetings. The dramatic club organized in 1927 has made great progress and offers wonderful opportunities to the young people of the parish.

The growth of the congregation has not been rapid, but it has been steady, and as it grew it advanced materially and spiritually. The mission preached by Rev. Clement Carroll, C. P. in November, 1929, was an inspiration to the community, and a thousand Holy Communions were received during the week.

As the occasion demanded and the means permitted, modern improvements were made. Natural gas was installed, furniture and stage equipment procured for the hall, and a steel safety tabernacle donated for the altar. New desks were placed in the school, and a fully equipped playground established in the school yard.

For all these improvements, the Ladies' Society worked untiringly. This group has been of great assistance to the parish. Through their efforts an organ was purchased for the church and they have assisted materially in reducing the church debt.

The school enrollment in September 1930, was ninety-four pupils and a third classroom was opened. The Holy Name Society was organized during the winter.

At the present time we have, a very complete group of buildings: a beautiful church, a modern school and an up-to-date auditorium. The three societies are well organized and meet regularly. Father Ebbing served at St. Paul until 1939. Rev. August Muench was pastor from May 21 to July 16, 1939 and was followed by Father Edmund Priest for the period of July 16, 1939 to April 15, 1940. Rev. Edward W. Carlin was assigned here on April 15, 1940, and is the present pastor.

This sketch briefly portrays the history of St. Paul Church and is a tribute to the goodwill and cooperation of the parishioners, without which the efforts of the pastor would be of little avail.

A politician has to have two hats—one to throw in the ring and one to talk through.

Cards are being sent out to all members of the church and to the prospects announcing the coming services. The public is cordially invited to attend all services held at the church 7:30 each evening Sunday, October 26 through Friday, October 31.

The Evangelistic Mission will begin with the Youth Mass Meeting to be held in the First Methodist Church, Covington, at 7:30 p. m. Saturday, October 25. Goley, director of the Methodist Church Department of Community Evangelism.

The series of meetings will begin Sunday morning, October 26, at 11:00 with Rev. Oscar Nickols from Madisonville, Ky., as the speaker. Visitation in the homes of the prospects will begin Sunday afternoon at 3:30. The visitation committee will meet at the church at 2:30 for visitation instructions. Loss Is Estimated At \$15,000; Large Amount Of Burley Burns.

A large tobacco barn, 12,000 pounds of tobacco, five tons of hay and other equipment were destroyed by fire on the farm of Richard Utz, 481 Erlanger Road, Erlanger, Friday.

Fire companies from Erlanger and Elsmere battled the blaze for two hours, preventing flames from spreading to three nearby homes. Maurice (Sparky) Strange, Erlanger volunteer fireman was overcome by smoke while fighting the fire, but was revived by fellow firemen and remained on duty.

Mr. Utz stated that he had just returned to the Locust St. School where he is janitor when he was notified of the fire. When he arrived home the barn was a mass of flames.

Besides the large 60x150-foot barn, the tobacco and hay, the fire destroyed two nearby corn cribs, an auto owned by Henry Wehmer, of Crescent Ave., and a trailer owned by Mr. Utz.

Mr. Utz said the tobacco stored in the barn was owned jointly by himself, Tommy Lewis, David Elslinger, William Hartman and Vaughn Parr. There was no insurance, he said. Loss was estimated at approximately \$15,000.

Eldon Dummit To Address Republican Rally Friday Night

At Hebron School Auditorium; Cochran Will Be Heard.

One fish fry is good, two is better. That was the consensus of Boone County Republican thinking as the newly formed group announced the follow-up of their Florence meeting with another scheduled at Hebron schoolhouse, Friday night, October 24th.

Otis Readnour, campaign chairman, has promised plenty of fish for those in attendance. Officials predict as many as the 350 who attended the Florence Community Hall meeting earlier in the month. "Plans are being made to bring out a record vote and if early predictions are realized the Republican drive for a voice in Boone County government will be heard for the first time in the memory of the residents," Paul De Lott, publicity chairman said.

"No matter what your political beliefs may be, you are invited to be on deck and tap the good things both physical and mental in store for you at the Republican Fish Fry, Friday night, October 24th, Hebron schoolhouse at 8:00," Mr. De Lott continued.

Committeemen To Contact Farmers In '53 AC Program

Committeemen Given Training Course Prior To Taking Field.

Community committeemen of the Production and Marketing Administration elected in Kentucky's 826 farm communities on September 18 will have the responsibility of aiding farmers in their communities in making 1953 farm conservation plans in the Agricultural Conservation Program.

In announcing this addition to the regular duties of community PMA committeemen, the State PMA committee has pointed out that the committeemen are receiving short training courses, half of which is on farms. They will visit all farms in their respective communities this fall and winter to help farmers plan practices to be carried out in the 1953 ACP.

This new approach, or plan of operation, for the ACP was used in Laurel county, and in 48 other counties in the nation this year. It has proved so successful that Congress appropriated special funds for its extension to all counties in 1953.

Program objectives for 1953 provide that ACP assistance should be used to encourage and aid farmers to carry out conservation practices over and above those which they would carry out using only their own resources. Every effort should be made to see that ACP assistance is directed to those soil and water conservation practices which farmers would not carry out to the extent necessary for the national defense without this assistance, and is shifted away from those practices which are becoming established in the farmers' regular operations.

The general duties of PMA community committeemen include assisting the county PMA committee in administration of the ACP, marketing quotas, farm price supports, and federal crop insurance in those counties where this program is offered and keeping farmers informed about programs applicable in their communities.

1952 ACP Deadline Near
Farmers signed up in the 1952 Agricultural Conservation Program have only a little more than two months to complete the practices which they planned to carry out this year. There will be no ACP payment this year unless the practices designated on farm worksheets this year, a substitution may be made only if approved by the county PMA committee before the substitute practice is started.

New Haven Tigers Tounce Burlington Eagles Thursday

Walton Upsets Hebron Cards By Score of 53-30 Friday Night.

Coach Norman Perkins' rip-roaring Tigers of New Haven High School did something in Northern Kentucky Six-Man Football Conference play that no other team has been able to do in more than four years in more than thirty ball games. They defeated the Burlington Eagles. And they not only edged out a victory but they did it in good fashion by a score of 46 to 22.

The outcome of the game was never in too much doubt after the Eagles' first kick as the Tigers scored on the first series of plays. The score by quarters was 22-8, 22-14, 26-22 and 46-22 with the Tigers leading all the way.

The win for New Haven, coupled with another mid upset—Hebron's 53 to 30 loss to the Walton Beards, gave the Tigers a solid hold on second place, and it put them in a position to gain a tie for the league championship. The Tigers have two more games to play, one with Walton Friday night, Oct. 24, and a season-final with the Florence Knights on Nov. 6. Burlington, who still holds the number one spot with a 5-1 record has league games with Hebron Oct. 30 and Walton on Nov. 7.

Beards Win

Walton's Beards bounced back from their 68-0 loss at the hands of New Haven two weeks ago to run wild over second place Hebron last Friday night. The win gave Walton a 2-3 record for the season. Florence was idle last week.

Caverna Colonels Will Play At Local Football Field Thurs.

Unofficial State Champs Will Meet Eagles In Return Game.

The Caverna Colonels, last year's unofficial state champion six-man football team, will roll into town this afternoon (Thursday) to take on the Burlington Eagles at the local field tonight at 8:00 o'clock. Some of the luster of the game—which might have been—has gone since the Eagles absorbed a good football lesson from the New Haven Tigers last week and thus lost their perfect record. But everybody, coach, players and fans included, think the Eagles will rebound and give "Bub" Sidwell and his Cave City sextet a run for their money.

The Colonels, paced by coach Sidwell's son, Kenny, and two big ends by the names of Joe Burks and Don Woodward, have a 5-0 record for the season and now have won nineteen in a row over all state opposition. The Colonels defeated the Eagles 31 to six last year at Caverna. Two of the stars of that game, Gayle Rouse of Burlington and Joe Stuart of Caverna are now teammates at the University of Kentucky and both saw considerable action in the U. K. freshman game with Vanderbilt last week.

Tickets Still On Sale

Tickets for the game are still on sale and will be until 3:30 o'clock this afternoon (Thursday) at the Florence School, New Haven School, Ernst's Grocery at Hebron and RAM's restaurant in Burlington. Student tickets are twenty cents and adult tickets forty cents. All admissions at the gate will be fifty cents, school authorities stated.

Light But Fast

The Purvis and White visitors will be slightly lighter than Coach Walton's Eagles, but according to advance information the team is extremely fast and in using Coach Sidwell's own words when here last week to scout the Eagles, "we're better than last year."

Probable Starters

Offense: Caverna—Woodward (165) l. e.; Chaney (165) c; Burks (185) r. e.; Sidwell (155) q. b.; McKinney (140) h. b. and Godwin (145) h. b.
Burlington—Lustenberg (175) l. e.; Cropper (185) c; Patterson (160) r. e.; J. Ryle (160) q. b.; Warren Ryle (160) h. b. and Jones (160) h. b.
Defensively Caverna will call on Hughes (160), Cherry (160) and Braden (170) while the Eagles will counter with Rice (178), Smith (170) and Adams (155).

Engagement Announced

Mr. and Mrs. Alvin J. Schadler, of Latonia, Ky., announce the engagement of their daughter Marjorie to Reynold Todtenbier, son of Mr. and Mrs. E. C. Ruppert, of Burlington. The wedding will be an event of December 27th.

Open House Of Mid-Valley Pipeline Co. Well Attended

Visitors Learn About Transportation of Crude Oil Through Pipeline.

Mid-Valley's pumping station on the Hebron-Limaburg Road was the scene of friendly greetings as old and new friends met at the open house on October 18th and 19th. Mid-Valley personnel were present to greet visitors and conduct them on a tour of the installations. Not only did the visitors learn about the transportation of crude oil through a large diameter pipeline, they also met the men who make the operation possible and who are their neighbors and a part of their communities.

Messrs. Hale, Constiner, Gaherty, Graham, Ellingsworth and Kane conducted the visitors through the pumping station and stated that residents of this area and their friends would always be welcome at Hebron pumping station.

A new Mid-Valley office and warehouse will be opened to the public in the near future and at that time the men who maintain the equipment and the right-of-way will be present to explain their part of Mid-Valley's operation.

Mr. and Mrs. John Sebastian and daughter Barbara Lee enjoyed a week-end visit in Louisville with Mrs. Sebastian's parents, Mr. and Mrs. Robert Love.

Need Money to
Improve
Your Farm?

HERE'S THE ANSWER! "We never were able to improve our
farm until we got a long-term, 4%, amortized Federal Land
Bank loan.

"Then, our payments were so much smaller that we took the
difference and improved the whole place. With lower interest
we had money left to lime, fertilize, build up our pastures,
put back fertility taken out by crops, buy better livestock, paint
buildings, keep up our fences, put modern conveniences in the
house and improve the whole farm."

That kind of story has been told time and time again by farmers
who financed their farms with Federal Land Bank Loans. The
low, 4% interest rate with amortized principal payments made
the difference between "keeping the farm up" and "just barely
getting by." Find out how a Federal Land Bank Loan can
help you—TODAY!

**Only GMC builds 'em
"Big-Truck" rugged!**

GMC is the *only* manufacturer to engineer its lightest-weight models with all five of the "heavy-duty" features most other manufacturers reserve for "big trucks only."

Even in the lightest GMC pickup truck, you'll find a sturdy truck-built engine protected by many of the same extra-value features that go into the big 200-horsepower GMC's: Tocco-Hardened crankshaft, airplane-type main and rod bearings, full-floating piston pins, rifle-drilled connecting rods and full-pressure lubrication all the way to the piston pins.

There's the same "extra" engineering that means extra years of trouble-free service in the chassis, too—a deep, rigid frame riding on long "pillow-action springs," and real "truck-size" brakes that respond to a nudge of the pedal.

Why not come in and drive one? Even the steering mechanism—which operates in a bed of recirculating ball bearings—is the best in the business. Whatever size truck you need, you can't beat a GMC!

Florence Fire Chief Dies of Heart Attack Answering Call

Had Been A Resident Of Florence For Past Thirty Years.

Chief Albert (Al) Hue of the Florence Volunteer Fire Department died of a heart attack when driving his automobile to a grass fire at Union, Monday afternoon. He was 61 years old.

The car struck a utility pole after it veered off the road on Main in Florence. Mr. Hue was pronounced dead on arrival at St. Elizabeth Hospital, Covington. Although the front of his car was demolished and he was battered in the crash, his death was due to a heart attack, according to Coroner Robert Brugh.

Mr. Hue was a retired foreman for the Thomas H. and Nashville Railroad at the Cincinnati Union Terminal. He had helped to organize the Florence volunteer firemen 30 years ago. Although ill for the last 18 months, he only recently completed a house-to-house canvass in Florence to obtain funds for a new fire truck.

He had lived in Florence for more than 30 years and for 15 years was a member of the town council. He was a member also of the Brotherhood of Railroad Trainmen, the Catholic Order of Foresters and the Holy Name Society of St. Henry Church, Erlanger.

He is survived by his widow, Mrs. Emma Hembath Hue; a daughter, Mrs. Robert B. Riegler, Florence; a son, Albert Hue, Jr., Florence; a brother, Thomas Hue, Cold Spring, and three sisters, Mrs. Virginia Gross, Newport; Mrs. Mae Donathan, Forest Hills, and Mrs. Sarah Grubbs, Louisville.

Requiem Mass will be sung this morning (Thursday) at 8:30 a. m. from the Ralph Stith funeral home Florence, with additional services at St. Henry Church, Erlanger. Burial will be in St. Mary Cemetery, Ft. Mitchell.

Competition Keen In Boone Football Conference Tilts

Cards and Tigers Win Over Walton and Florence Squads.

New Haven's Tigers have only one game left on their football schedule, that game with winless Florence on November 6. Should the Tigers win the game and Burlington's Eagles lose both of their remaining contests with Hebron and Walton, the Tigers could win the Conference. If the Eagles split even in their two games and the Tigers win over the Knights, a two-way tie will result.

Burlington's Eagles can at least guarantee themselves a tie by winning over Hebron Thursday night (tonight) October 30.

Cards, Tigers Win
Hebron bounced back last week after losing to Walton's Bearcats to take the measure of Coach George Maines' Florence Knights by a 54-45 score. The game was close most of the way. New Haven had to battle in the early part of their game with Walton last Friday night before finally routing the Bearcats 46-21.

Zoning Commission Prepare Master Plan For City of Florence

Public Hearing Set For November 6th At Community Center.

The City Planning and Zoning Commission of the City of Florence, Boone County, Ky., has prepared a Master Plan for the City of Florence and for the five-mile area surrounding the city. The Commission will hold a public hearing on November 6, at the Florence Community Center, at 8:00 p. m. The purpose of the hearing is to consider the plan and if it is approved it will be recommended to the Florence Board of Trustees for adoption. Copy of the Master Plan may be inspected at the office of William Fitzgerald, City Clerk, 86 Dortha Avenue, Florence, (in the evening only).

The Commission, composed of Clifford Coyle, Al Becker, William Meiners, W. E. Morgan, Wilbur Osborn, Ray Meyers, and William Fitzgerald, has been working on the plan for a number of months. Chairman G. R. Scott is now a member of the Commission and Frank Trego has been appointed to replace Ray Meyers, who has moved from the city.

In the course of its work the commission has studied the Kentucky Statutes governing City Planning and Zoning and has acted in strict compliance with its provisions. It has studied Master Plans of a number of cities in Kentucky and Ohio in an effort to profit by the experience of those communities.

The title of the Master Plan states that it is to regulate and restrict the erection, construction, reconstruction, alteration, repair, or use of buildings, structures, and land for the purpose of promoting health, safety, morals, or the general welfare of the community, including the height and size of buildings and other structures, the percentage of lot that may be occupied, the size of the yards, courts and other open spaces, the density of population, and the location and use of buildings, structures, and land for trade, industry, residence or other purposes; and for said purposes to divide the City of Florence into zones or districts of such number, shape, and areas as are deemed best suited to carry out the said purposes; to provide a method of administration and enforcement.

The Commission has prepared a map of the City showing the zones it has suggested, new streets it has thought desirable. For the purpose of this Master Plan the city is divided into the following zones: Residence A, Residence B, Retail Business, Highway Business, and Industrial. No building, structure, or land shall be used that does not conform to the regulations prescribed for the zone in which it may lie. Any building or structure lawfully occupied at the time of passage of the Master Plan may be continued even though it does not conform to the regulations for the zone.

Billboards, off-street parking, and planning of new subdivisions are included in the Master Plan. It is not expected that this Master Plan will be perfect. It is, however, a beginning based upon the experience of other cities. It cannot be expected to correct all of the defects in the present plan of the city. It will, if properly administered, prevent some of them in the future.

Squirrel Season Closed Tuesday Due To Forest Fires

Precaution Taken By State Authorities, According To Report.

The squirrel season, which was scheduled to begin November 5th was declared closed Tuesday, October 28th, by Gov. Wetherby, due to the number of forest fires now raging throughout Kentucky.

The regular season, scheduled for August 25th through November 5th was drawing near a close, with hunters losing only seven days of the season. It is believed that many of the fires through the state had been started by careless hunters who had tossed cigarettes into dry leaves and brush.

Sportsmen throughout this area are warned not to go afield after this order was issued, as they will be arrested for violation of the game law if apprehended.

Lee McNeely, Sr., was ill over the weekend with a severe cold.

Football Followers Given Treat In Colonel-Eagles Tilt

Thursday Night At Local Field In Mythical 6-Man Championship Contest.

"It's not whether you win or lose, but how you play the game," so once said a famous sports writer. Never was such a description so apt as in an attempt to describe the gallant game played by the Burlington Eagles last Thursday night against the Caverna Colonels, of Cave City, in what was generally considered the Kentucky mythical 6-Man school boy football championship contest. The Colonels won the contest by scoring standards 29 to 20, but both teams won the praise of their coaches, the fans, and at least one major college scout who viewed the nip-and-tuck battle.

The Eagles opened the scoring early in the first quarter as Ronnie Jones bucked over from the three-yard stripe after the Eagles had marched from their own twenty-yard strip. Offensive blocking by the Eagles in this series of plays seemed to instill spirit in the Eagles and it seemed to somewhat bewilder the favored Colonels. The visitors were not so easily bewildered though, as they came back in the second quarter to show some fancy offensive power led by their two backfield stars, quarterback Kenny Sidwell and halfback, Lowell Braden. Braden scored the first of his four touchdowns early in the quarter pushed over for another TD and a fourteen to eight halftime lead.

Shortly after the half Braden scored another TD, after grinding off runs of 12, 21, 6 and 9 yards in four plays. Sidwell passed to Jimmy Godwin for another single point and thus the visitors led 21 to 8. Midway in the third quarter the Eagles started another scoring march and it paid off as Jerry Ryle, Eagle quarterback scored a sneak. The Eagles failed on the two-point conversion, but their scoring for the quarter was not halted because on the next series of plays the Eagles recovered a Colonel fumble and after a 28-yard march Jones again bucked over for the score, and Lustenberg added the extra points. Most of the yardage in both marches for third period scores was ground out by the Eagles sophomore halfback, Shorty Ryle. The quarter ended 21-20 with the Colonels on top. They sealed the game early in the final quarter when the hard-driving and fleet-footed Braden scored his fourth TD and added the two extras. Coach Walton's crew didn't concede the game yet and made two serious efforts to hit paydirt in the waning minutes, but both fell short.

The game was one of the best ever played on the local field and besides the play of Jones, Jerry Ryle and Shorty Ryle, the defensive play of Lustenberg, Cropper and Rice was outstanding.

The win for Caverna was their sixth straight this season and their twentieth over two years. It was the second setback for the locals this season.

Members of both teams, team managers, cheerleaders and coaches were guests of members of the Burlington School Future Homemakers Association for refreshments after the game at the school cafeteria. As this writer viewed the after-game scene—the genuine spirit of sportsmanship, the school boy spirit of fair play and admiration for their opponents—he most definitely realized what good American games do to build citizenship. The last scene and sounds were "good luck," "see you again," "you've got a real team" and so on.

Eggleston-Ryle

Decorated in bitter sweet and chrysanthemums, Sand Run Church was the setting Saturday, October 11 for the candlelight ceremony at 7:30, uniting in marriage, Miss Betty Faye Eggleston daughter of Mr. and Mrs. W. B. Eggleston and Mr. Carol E. Ryle, son of Mr. and Mrs. Wilbur O. Ryle.

The flower girl wore yellow taffeta and carried a basket of yellow baby chrysanthemums and ribbon. The ring bearer looked very manly in his white satin shirt dark trousers and bow tie.

With Rev. L. M. Hamilton at the piano Mrs. Rodney McGlasson sang very beautifully "Because and "Oh Day of Golden Promise."

Given in marriage by her father, the bride was lovely in her gown of ivory slipper satin which was designed with keyhole neck line, long leg of mutton sleeves and a flaring skirt that ended in a train. A lace crown elaborated with sequins held her fingertip veil of nylon net. Her only jewelry was a necklace of rhinestones, a gift of the groom. Her bouquet was white carnations stephanotis and lace.

For her son's wedding Mrs. Ryle wore navy nylon embellished at the shoulder with a cluster of red rose buds.

The brides mother wore a navy blue crepe gown with black accessories. Her flowers were white carnations.

Following the reception the bride and groom left for a short honeymoon in Kentucky. On the trip the bride wore a yellow suit with brown accessories.

Three Boys and Girl Admit Theft At Constance School

Fingerprints Taken By Sheriff Prove Guilt of Youths.

Three Kenton County boys and a Cincinnati girl admitted to Sheriff Easton, Monday that they participated in the robbery at the Constance school September 16th.

One of the youths, Ronnie Huff 17, of Covington admitted that he entered the school and removed an 18-pound ham, 2 butcher knives, five pounds of ground beef, milk, a small amount of cash, and a large cooler valued at \$30.00. Sheriff Easton was summoned to Covington when Huff was picked up by Kenton County patrolmen on a charge of automobile theft. Fingerprints filed with Kenton County officials by Sheriff Easton, taken at the Constance school corresponded with those of Huff.

The large cooler and butcher knives were recovered by Sheriff Easton, after questioning Huff. The cooler had been hidden in the Ohio River near the youth's home.

Sheriff Easton stated that the youth picked up by Kenton County authorities registered as Bobby Lee Jones, 16, Stanley Gibbs 15, and Pat Lucas 15, of Cincinnati. All of the youths are being held by Kenton County authorities with the exception of the girl who was released to Cincinnati authorities, Sheriff Easton stated.

Fire Burns Over Several Hundred Acres At Big Bone

Blaze On Farm Of Ivan Clements Fought For Several Hours.

Several hundred acres of wooded section in the Big Bone area was burned over by a grass fire which started early last week, according to reports. The blaze was one of many reported throughout the county.

Volunteer firemen from Burlington, Florence, Hebron and Walton were alerted for possible duty if the fire in the Big Bone area should threaten other property. Last reports from this section indicate that the fire had practically burned out.

Volunteer firemen fought a grass fire on the farm of Ivan Clements in the Union neighborhood Monday night and Tuesday, bringing the blaze under control at 3:30 a. m. Tuesday morning.

No effort was made to fight the Big Bone blaze due to the location of the territory. The section was difficult to reach even afoot, and it was impossible to reach it with fire fighting equipment.

The four Boone County fire departments were kept busy through the past week answering calls in various sections of the county. All calls were reported as grass fires.

Republicans Predict Victory For Party Candidates Nov. 4

Two Hundred Attend Rally Held At Hebron Friday Night.

"For the first time in the past hundred years Boone County voters are going to the polls and voting Republican," reports Paul De Lott, publicity chairman of the Boone County Republican committee. "As a result of the whirlwind campaign staged by the recently formed Boone County Republican Club, organization leaders are predicting a spectacular majority for their candidates, Ice Eisenhower, John Sherman Cooper and William Cochrane," he continued.

"Those attending the fish fries staged at Florence and Hebron are waxing enthusiastic about the new type, modern and streamlined style of electioneering waged by local Republicans," Mr. De Lott said. At Hebron, the crowd of well over two hundred heard speeches by Howes Mead, former Congressman, Harry Riggs, and Eldon Dummit. Mr. Dummit said this election represented the voters' last chance to save the America they loved. "We don't care how you vote," he said, "as long as you vote Republican."

Mr. De Lott stated that precinct men of the county are prepared for a record day. They will furnish transportation to all voters who have no way of getting to the polls, he said.

Mock Election Held At Burlington School

In a mock election held last week at the Burlington High School, under the supervision of the social science department, the student body voted 53 for Governor Stevenson and 45 for General Eisenhower.

Four years ago the election results conducted by the same classes gave Mr. Truman 54, Mr. Dewey 50 and Mr. Turnmond 4.

The classes have been studying political parties, the constitution, pressure groups and other timely subjects. They are now in a campaign to urge everyone who is eligible to vote to do so on November 4th.

DEMOCRATS OR REPUBLICANS

The Democrats say that the country will go to the dogs if the Republicans are elected. The Republicans say that the dogs already have us.

If either side is as bad as the other side paints the picture, we should take time out from banking and see just what is wrong with both sides.

We don't suppose it could be just that the "OUTS" want to get in and the "INS" want to stay in.

We are so busy banking and trying to get our customers to save their money that we don't have time to know too much about the political situation, but we are going to vote next Tuesday anyway.

Need Money to Improve Your Farm?

HERE'S THE ANSWER! "We never were able to improve our farm until we got a long-term, 4%, amortized Federal Land Bank loan."

"Then, our payments were so much smaller that we took the difference and improved the whole place. With lower interest we had money left to lime, fertilize, build up our pastures, put back fertility taken out by crops, buy better livestock, paint buildings, keep up our fences, put modern conveniences in the house and improve the whole farm."

That kind of story has been told time and time again by farmers who financed their farms with Federal Land Bank Loans. The low, 4% interest rate with amortized principal payments made the difference between "keeping the farm up" and "just barely getting by." Find out how a Federal Land Bank Loan can help you—TODAY!

THE FARMALL C WILL BE THERE, ALL THE WAY!

Grains, grasses, field row crops, vegetables—whatever is planted in this mellow, weed-free seed bed, the new Farmall C Tractor with Touch-Control will be on the job all the way. The Farmall C is shown here with the McCormick No. 10-A Disk Harrow.

For the Farmall C delivers practical 5-way power: (1) at the drawbar, for pulling trail-behind machines; (2) at its mounting pads, for pushing forward-mounted implements; (3) at the belt pulley; (4) at the power take-off; (5) at the Touch-Control power arms for raising, lowering and regulating mounted implements by hydraulic power. All at surprisingly low operating cost!

Available for the Farmall C is a full line of matched, quick-change implement units. New and simple in design, each low-cost implement mounts on the tractor to form a compact operating unit. Rear-mounted implements, likewise, are quick-change.

Implements for the Farmall C are under the complete, 2-way hydraulic control of the Farmall Touch-Control. The Farmall C pulls one 16-inch or two 12-inch bottoms; cultivates two rows of wide-planted crops. Ask for full information.

DO NOT VOTE AGAINST YOUR OWN INTEREST Vote The Straight Democratic Ticket

In 1932 when the Democratic Party came into power, it was confronted with a gigantic task of reinstating faith into the people of America that their government is for the people as well as by the people. In the midst of the greatest depression the world has ever known, under the expert guidance of the late Franklin D. Roosevelt, there was born an united feeling of governmental assistance to those in need: The farmer, the shop worker, the aged and the businessman were given immediate protection under the enactment of legislation proposed and brought about through a progressive Democratic Party. Programs indoctrinated by the Democratic Party such as farm aid, progressive labor legislation, Social Security benefits, Federal Deposit Insurance and the Security Exchange Act which were brought about for the sole purpose of protecting and aiding those in need. The Democratic Party stood for then and does still stand for the protection of the farmer, the working man, the aged, the small business man, and those who were most seriously hurt under the administration's preceding Roosevelt's election in 1932. It is true that many voters have forgotten the dark days of the 30's when soup lines were a common sight, and on every corner men and women were selling apples, but there are those who also remember the many homes and farms that were foreclosed and sold at the Court House door, and there are those who remember the salvation that was granted under the Home Owners Loan Corporation and the Federal Land Bank, also the many homes that were saved from being foreclosed under the granting of these loans and today by reason thereof, the many thousands of people, that would have been homeless had it not been for such governmental assistance, they are now the owners of the same property.

If you were to listen to the opposition they would have you to believe that the relief and benefits you have received directly and indirectly through the past twenty years under the Democratic Administration would have happened regardless of what party was in power, but if you were to analyze that statement and look at the record of the Republican Administration prior to 1932 and ask yourself this question—"Was the Republican Party a party for the working man, the farmer and the little businessman?" Never in the history of this great nation has the working class of people received such benefits and such advantages in government as compared to what they have received under the present Democratic Administration for the past twenty years. Don't be confused or misled by the opposition because it is only through the facts that you can decide for yourself. Remember that this is a very important vote you cast, one that can decide the history of the world; use it with care and discretion; exercise it by all means, but in doing so do not forget all the benefits you and yours have enjoyed by means of and thru the Democratic Party

Don't Plow Under
20 YEARS OF
FARM PROSPERITY

America is a big country. At the beginning of 1952 there were 156,000,000 of us—with 7,000 newcomers daily.

Feeding that many mouths is a big job—a job that rests squarely on our nation's farmers.

We can't have a healthy people or a healthy economy, unless our farmers prosper. Today they are prospering and we all benefit by it.

But it didn't just happen. It wasn't always this way.

1932 POVERTY and CHAOS

In 1932 the average American farmer earned 80 cents a day. The price of wheat was the lowest in 300 years. Corn fell to less than 15 cents, cotton and wool to 5 cents, sugar to 3 cents and beef to 2½ cents.

It was cheaper to burn corn for fuel in the Midwest than to try to sell it and buy coal.

The Democratic Party tackled the problem head-on.

THE ROAD TO PROSPERITY

Here's how the Party strengthened America by building up its farm economy:

- 1 Encouraged farmers to raise adequate supplies. Insured them against price drops that could wipe them out, destroy their productivity. Today basic farm products are supported at 90% of parity.
- 2 Established soil conservation service. Today four out of five of the nation's farms are included in the program. Almost 78 million acres of farm and pasture land have been restored, protected and improved under Democratic administration programs.

3 Helped farmers to own their own farms. For 50 years the trend had been the other way—toward tenant farming. More than 2,000,000 farmers have been encouraged to own their farms by loan help from the Farmers Home Administration.

4 Brought electricity to the farm. In 1932 only one farm out of ten had electric power. Today only one out of ten does not have it. The Rural Electrification Administration did the job.

5 Extended farm credit at moderate interest rates so that farmers could improve and expand their production.

6 Expanded Federal agricultural research.

A GREAT DAY FOR AMERICA

The results have been:
Our farm output has increased 50% since 1932. In 1920 there were only 920,000 tractors on American farms. Today there are 4,100,000. Today there are 2½ times as many trucks, 10 times as many mechanical cornpickers and 13 times as many grain combines on America's farms as there were in 1930.

Net income for the average farmer stood at nearly \$2,800 in 1951—almost ten times what it was in 1932. Allowing for the rise in prices farmers pay, the average farmer's income is four times what it was in 1932 and double what it was in 1929—the peak year of Republican prosperity.

Farm prosperity has been matched by the rest of our economy. People have jobs. Business is prospering. There is money to buy what our farms produce. Increased farm income has sent millions of rural Americans into the marketplace to buy what our cities produce.

We're eating more and eating better. Though we have grown by 30 million people since 1932 our per capita consumption of all foods is 13% higher than the 1935-39 average!

UP

ON
THE
FARM

Republicans Against The Farmer

Where did the Republican Party fit into this march of progress? Here is what it did:

- 1 Reduced the number of commodities on which definite price supports was assured. (80th Congress.)
- 2 Reduced parity for several important commodities. (80th Congress.)
- 3 Reduced price floors by putting in a sliding scale of 60 to 90 percent of parity. (80th Congress.)
- 4 Prevented the Commodity Credit Corporation from acquiring new storage facilities to enable farmers to get price support loans. (80th Congress.)
- 5 Voted against an improved Soil Conservation Act in 1936. Voted to withhold on conservation payments in 1943. The 80th Congress voted to abolish soil conservation in 1948. The 80th Congress voted to cut the program in half.
- 6 Voted to kill the farm ownership loan program in 1947.

7 Voted to cut off one-third of the staff of the Rural Electrification Administration in 1947.

8 Voted to cut the budget of the Research and Marketing Administration by one half.

Whether you're a farmer, worker, businessman or professional man—no matter how or where you earn your living, you're better off today because farmers are prospering.

Which party had the foresight and courage to do the job? You can see for yourself.

Yelton in Burlington, the picturesque grounds of the Dinsmore home on the Bellevue Pike, and the Cason home on Middle Creek to view the handmade clock. The society was also given a special invitation to visit the new pumping station of the Mid-Valley Pipe Line Co., located just above Linsburg on the Hebron Road. Sketch of Boone County School Activities During Past Five Years Given By Superintendent Ockerman

The following report of the Boone County school system from July 1, 1947 to June 30, 1952, was prepared by H. N. Ockerman, Superintendent of Boone County schools:

This is a sketch of the Boone County school system for the years beginning July 1, 1947 and ending June 30, 1952. All comparisons in this report will be for this period unless otherwise stated.

School enrollment from 1936 to 1944 had been steadily declining in Boone County. In 1944 our enrollment was 1430 which represented only 72% of our census. Enrollment for the next three years remained practically the same. The upward swing in enrollment began in 1947. For that year we enrolled 1578 which was still only 78% of our census. For the present year of 1952 our enrollment in the Boone County school system has increased to 2230 students, which is 83% of our census. The latest information from the State Department of Education shows Boone County tied with Nelson County for tenth place from the top in the state for the greatest percentage of school enrollment based on census. During this period our enrollment increased from 1578 to 2230 or 41.3 percent. This has created many problems for the school system, such as a greater demand for school room space, teachers, equipment and bus transportation. Of these problems caused by this increased enrollment, acquiring competent teachers was the greatest.

The teacher situation in Kentucky

is still critical. This has been true for the past ten years. During the war many teachers left the profession to seek employment elsewhere at higher wages. Each year a few number of boys and girls are planning to make teaching a life career. This is due to other positions paying better salaries and offering working conditions which are also better. In Boone County during the past five years our teachers' qualifications have improved. The teaching staff has increased eleven members making at present a total of 67 teachers. In 1947 we had 56 teachers of which 24 were college graduates; and among these graduates only six had masters' degrees or work toward that degree. Now out of a total of 67 teachers 37 are college graduates, and out of that number 22 have masters' degree or work toward that degree. The average number of college hours per teacher is 112. This is an increase of 19 college hours per teacher during this five-year period. There was budgeted for teachers' salaries for the school year 1947-48, \$95,322.81. This year \$165,736.99 is budgeted. This is an increase of over \$70,000 for teachers' salaries alone. A teacher with a college degree got \$162.80 per month for the school year ending in 1947. This year a beginning teacher with a degree will receive \$266.67 per month.

This increase in enrollment has also called for new school equipment. During this period (1947-52) \$27,292.46 was spent for new equipment compared to \$1,675.39 spent the five years previous. A large

part of this amount has gone for school desks. Twenty-eight classrooms have been completely equipped with new chair desks. The typing department at Florence has 36 new typewriters and tables which replaced the ones which the board had bought before this period. They were second-hand, and their ages varied from 15 to 25 years. The heating systems at most all of the schools have been reworked, especially at Florence, Hebron and New Haven. At Hebron there was in part of the building a two-pipe system and in the rest a one-pipe system. This was due to the fact that parts of the school were built at different times, consequently the heat was distributed unevenly. A new and larger boiler was installed, and the system changed so that now there is more uniform heat throughout the building. At New Haven the boiler has been reworked, a new stoker installed and a condensation pump added to bring the water from the gymnasium and dressing rooms back to the boiler. Originally this water returned by gravity through pipes under the floor. Eventually these pipes developed a leak and were abandoned. Naturally this condensation could not be returned to the boiler. It was going down the drain, and as a result cold water had to be continually added to the boiler. It was almost impossible to keep the building warm. At Florence boiler was repaired, a new stoker from it and the condensation lines under the concrete floor had to be renewed. \$41,024.75 has been spent for maintenance on the buildings. This is approximately three times the amount spent for the five years previous. All buildings are in a good state of repair, and all have been painted on the inside with the exception of the colored school and that has been painted on the outside.

Much improvement has been made in that part of the budget called capital outlay. This includes additions to buildings, equipment, new sites, improvements to old buildings and new buses. Since we have discussed new equipment which is a part of capital outlay, we will deduct that from it and we still have \$198,438.51 which has been spent, compared to \$50,930.13 for the previous five years. In driving over our county you have noticed several changes in the appearance of the school plants. The most noticeable one is at New Haven with its Perma-Stone finish. This had to be done to waterproof the building. When it rained the water penetrated all the walls making a very damp and unsightly appearance on the interior of the building. At Constance new inside restrooms were built to replace the old outside ones. At Bellevue, the school has been completely remodeled, and painted on the inside and outside. There are asphalt tile floors all over the building and a small library room added in the upper hall. Two new restrooms, kitchen and a furnace room have been built. A new oil-fired hotwater heating system was installed, and a deep well to furnish water instead of the cistern and old chain pump. Practically the same remodeling can be seen at Petersburg, when finished, as at Bellevue, except the only building done was the two restrooms.

Another item which the Board of Education has been faced with is the additional costs of bus transportation. In Boone County we drive approximately 1600 miles a day to transport the children to school. With the present set-up of bus maintenance, purchasing of parts and equipment, we are the fifth lowest county in the state in cost per bus mile. Our cost is \$ 124.27 per bus mile compared to \$ 192.35 for the state average. In a report received from the State Department of Education for the school year 1950-51 we find the following: Boone County spent \$32,786.50 to operate 1525 miles of bus service a day; a neighboring county spent \$46,802.82 to operate 1363 miles. If you think we have crowded buses in this county, in the same report you will find the following: Pupils per bus—Boone 57.1, Kenton 83, and Campbell 94.9. The figures are an average per bus and not per bus route. Almost all of our buses make two routes, so the number per bus route would be approximately one-half of the above figure if both routes were about equal. We have some buses in the county which make only one route; and as the routes are very uneven, some of them are crowded, but we hope to remedy this situation soon.

The Board of Education at the beginning of this period had bills carried over from the previous years for \$8,388.67. This was in addition to a note of \$15,000.00. There was the following bonded indebtedness on school property: Hamilton, Constance and Hebron \$28,000, New Haven and Florence \$25,000.00 and Burlington \$43,000.00. This made a total indebtedness of \$119,388.67. On July 1st of the current year we have no current debt or carry-over bills from previous years. We have only \$36,000.00 worth of non-callable bonds on the Burlington building. These bonds cannot be paid till maturity dates. During this period the Board of Education paid off a total of \$83,388.67 worth of indebtedness on the school system. At the end of the school year, June 30, 1952, the books were closed for the year with a balance of \$36,465.23. If it had been possible to call in those bonds on the Burlington school, we could have been free of debt, and would still have had a

balance of \$465.23.

Possibly some people will say, "Why shouldn't they accomplish things with the increased revenue they have received?" You will find increased revenue in every school system in the state of Kentucky, and you will also find operational costs in Boone County as high as any school system in the state comparable to its size. Yet out of 232 school systems in Kentucky all but twelve are levying a school tax of \$1.50, and some have an additional building tax in excess of that. Boone County is one of the twelve in the state which levies less than \$1.50 tax for school purposes. Its levy is \$1.30.

Possibly some might say, "Look at what the bonded indebtedness will be for the new Boone County High School." Before this new school program was proposed, members from the State Department of Education visited the county many times, and worked with the Board on the school program. This program, when in full operation, will be the combined work of the State Department of Education, University of Kentucky and the Teachers' Colleges. Before the bonds on the Boone County High School could be sold the State Board of Education reviewed our financial ability as to payment of these bonds. On the day the bids were opened on these bonds, the local board was represented by two men from the financial department of the State Board of Education. Some may say, "Is the educational program a sound one?" The following is a quote from a letter from the State Department of Education: "I have today gone over the educational program which you have proposed for the development of the schools in Boone County. This program is one that takes care of not only the immediate needs, but the long range needs of your system. I approve your educational program and consider your building needs to be those that will properly house it."

In conclusion, the Board of Education thinks that the boys and girls of Boone County deserve a school system which will meet their needs in preparing them for citizens of tomorrow. So as parents and citizens of Boone County let us not lose sight of the slogan which states, "Better Schools Make Better Communities."

—H. N. Ockerman.

Armistice Day Set For Visit Of Red Cross Bloodmobile

**Committeemen Make
Plans For Florence Visit
Tuesday.**

Don't forget the Bloodmobile will make a visit to Florence on Armistice Day, November 11. If you haven't made your pledge call Florence 84 and your pledge will be taken.

On December 19 the Bloodmobile will make a visit to Walton. Plans are being set up this week for that visit. Persons living in the vicinity of Walton or surrounding communities, are urged to make plans to give blood there.

Boone County made its quota last year through the gracious cooperation and contributions of blood by citizens of this area. You are urged to help make the quota this year. This is not a selfish request as the blood is being collected for the Department of Defense of the U. S. Government for the Armed Forces.

Last week the Lifeline committee of the Florence blood donor group met at the Florence Community Center to make plans toward securing donors for the visit November 11. Community captains on the donor committee are Mrs. William Oliver, Mrs. William Wesler, Mrs. Robert Eastman, Mrs. Aleen Conner, Mrs. Ralph Smith and Mrs. William Meiners and will be assisted by Mrs. C. F. Blankenbaker, Mrs. Alan Gaines, Chapter chairman and Mrs. Elizabeth G. Nestor, executive secretary. These ladies have many able solicitors who are cooperating with them but the names are not available at this time. Much appreciation is extended to all those who are helping with this work in any way.

You are invited to bring the family and enjoy the evening out—no cooking, no dishes.

H. E. White Named Forest Fire Aid In Emergency Move

Soil Conservation Staff Will Assist In Controlling Fires.

H. E. White of Burlington has been designated temporary deputy forest fire warden by the State Forestry Division. He is chairman of the Boone County Board of Soil Conservation District Supervisors.

Floyd Kells, Boone County soil conservation technician, said he had received a telegram from H. K. Gale, Lexington, State Soil Conservation Director, announcing that an emergency state-wide fire hazard had been proclaimed by Governor Wetherby.

Mr. White will be assisted by the staff of the Soil Conservation Service of Boone County in developing an over-all plan for controlling field and forest fires during the emergency.

Burned out areas in Boone County will be inspected by Mr. Kells and Mr. White in an effort to formulate a workable plan for controlling this hazard.

Light showers falling Sunday night and early Monday morning will be of much benefit in keeping down forest and grass fires throughout this section.

Sininger-Noel

The Florence Baptist Church was the setting for the marriage of Sue Sininger to Billy Louis Noel on October 25th at 6:30. The church was beautifully decorated with baskets of white chrysanthemums backed by green ferns and palms. Officiating minister for the candle-light ceremony was Dr. O. W. Robinson of Southgate.

The bride was preceded down the aisle by Jennie Lee Tanner, bridesmaid and Mrs. Roy Martin, matron-of-honor. Their ballerina length gowns of white lace and tulle over satin were identical. They carried colonial bouquets of white orchids and pompons.

The bride, given in marriage by her father, wore a gown of white chintilly lace over satin. Her gown, also of ballerina-length was fashioned with a high net yoke, Peter Pan collar and long sleeves tapered to the wrist. The shoulder-length veil was held in place by a Juliet cap of matching lace. The bridal bouquet was of tiny pompons centered with white orchids.

The groom and his attendants, Billy Ray Markesbery, best man and Roy Martin wore dark trousers and white dinner jackets.

Ushers were Gilbert Bell, brother-in-law of the groom and Roy Youell, brother-in-law of the bride. Following a reception at the home of the bride's parents, the happy young couple departed for a brief honeymoon in the South.

They are at home to their many friends at 645 Dixie Highway, Elsmere.

Burlington Eagles Turn Back Hebron Cards Thursday

**After Trailing 18 to 6
At Halfway Mark; New
Haven Still In Running.**

The Burlington Eagles guaranteed themselves of at least a tie for the Northern Kentucky Six Man Football Conference championship last Thursday night when they trimmed the Hebron Cardinals by a 49-24 score at the local field. The win gave the Eagles a 6-1 record in conference play for the season with one game—Walton's Beacards—left to play. The hard pressing New Haven Tigers, idle last week, now sporting a 5-2 record play George Maine's Florence Knights Thursday night (tonight) for their season finale. If the favored Tigers win this one and Burlington should lose to Walton tomorrow night both the Tigers and Eagles would finish with identical 6-2 records.

But according to past play the Eagles shouldn't have too much trouble with the Cats who have a 2-5 season record and just received a drubbing from Florence, the latter's first win of the season.

Eagles Turn On
After being outplayed and outscored 18 to 6 in the first half last week with Hebron, the Burlington Eagles led by Jerry Lustenberg, Shorty Ryle, Jerry Ryle and Ronnie Jones scored 43 points in the final half while holding the Cards to a lone TD for a 49-24 win.

Florence played their best game of the season in their 26 to 12 win over the Beacards Friday night. The Knights led throughout the game.

Final Games
Nov. 6 Florence-New Haven.
Nov. 7 Burlington-Walton.

Test Wells Being Drilled In Boone County, Report

**Two Six-Inch Holes
Started On River Bottom
Farm Near Taylorsport.**

Drilling operations for a source of water supply for the proposed Boone County water distributing system was started Friday of last week, according to reports.

Stanley M. Graves, Hebron, chairman of the Boone County Water Commission, reported that Thurman S. Posey of the A. R. Posey Well Drilling Co., Cincinnati, was supervising the drilling of two six-inch holes on a stretch of Ohio River bottom land owned by Paul McGlasson, near Taylorsport.

It is expected that the test wells will be completed the early part of next week.

Representatives of the U. S. Geological Survey are gathering scientific data on below-surface formations as the drilling progresses.

Final tests of the quality of the water and the maximum capacity flow from each well upon completion of the test drilling, will be under the supervision of J. Stephen Watkins & Association, Lexington engineers.

Sufficient land has been obtained by the Water Commission to provide a well field of sufficient capacity to insure an ample supply of water, not only for those Northern Kentucky communities that have expressed a deep interest, but to industrial users as well.

The Boone County Water Commission is composed of Stanley Graves, Hebron; Roy C. Lutes, Florence, and W. Robert Ellis, Burlington.

Farmers Warned Against Mixing Of Tobacco Grades

**Burley Should Be
Stripped In Fundamental
Grades.**

Again it is the time of year for stripping tobacco. Russell Hunt of the Extension Service, University of Kentucky, warns tobacco growers not to mix grades this year. He states that the story of mixed grades bringing higher prices is hurting the market, and that our burley tobacco should be stripped in the fundamental grades of which there are four. There may be or may not be tips on crops, but if there are, tips constitute a subdivision.

Arrangements have been made to hold two tobacco stripping demonstrations in Boone County, according to Joe Claxon, County Agricultural Agent. Walter Raisor of the Federal Tobacco Grading Service, U. S. Department of Agriculture, will be on hand for the stripping and sorting demonstration.

The demonstration will be held in Boone County, Wednesday, November 12th at the following farms: 10:00 a. m. at Harry Guley's farm, located 2½ miles out of Burlington on the East Bend Road and 1:00 p. m. at Lassing Huey's farm, located off Highway 42, turn at the New Haven School.

Anyone having difficulty in stripping, bring samples of the tobacco to the meeting.

Record Vote of 4,988 Cast In Boone County; Democrats Carry County

**Pluralities In Thirty-Six States Reported For
Eisenhower In Early Election Returns; Spence
Is Easy Winner For Congressman.**

Early election returns from various states throughout the nation indicate that Gen. Dwight D. Eisenhower will be elected by a landslide, with early reports given him substantial leads in thirty-six states, with many southern states being chalked up in the General's column.

A record vote of 4,988 was cast in Boone County Tuesday, with Stevenson collected a total of 2,620 and Eisenhower 2,309. Early returns Tuesday morning showed the Democrats holding a small lead in the presidential election in Kentucky. The vote was Stevenson 223,892, Eisenhower 222,851.

Although complete returns had not been reported, Gov. Stevenson had conceded victory to Eisenhower late Tuesday night. General Eisenhower took many southern states, starting his spearhead into the traditionally Democratic South by winning Virginia's 12 electoral votes, the first time the state had been counted in the Republican column since Herbert Hoover whipped Al Smith in 1928. Texas, Florida and Tennessee, other Democratic states were swept into the Republican column.

Fire Loss Held To Minimum By Prompt Action of Firemen

**For Twenty-fourth
Annual Convention of
N. K. E. A.**

Twelve hundred school teachers and administrators from nine counties in Northern Kentucky will meet in Newport on November 6th and 7th for the Twenty-fourth Annual Convention of the Northern Kentucky Education Association. The N. K. E. A. District is a division of the state-wide Kentucky Education Association, and includes all local school districts and parochial schools within the counties of Boone, Bracken, Campbell, Carroll, Gallatin, Grant, Kenton, Owen and Pendleton.

The first general session Thursday evening will be featured by an address by Andy Holt, of Tennessee, former president of the National Education Association, and nationally-famous authority on "Public Relations," which is the general theme for the two-day session. His topic will be "Improving School-Community Relations."

Friday's activities will include two general meetings and one workshop period devoted to group discussions.

Pupils throughout the area will enjoy a holiday on Friday, but not so the teachers, who will, on the contrary, spend a very busy day trying to improve themselves in their profession.

Eight Unit Tourist Court Destroyed By Fire Friday Night

**Damage Is Estimated At
\$15,000; Defective
Wiring Blamed.**

An eight-unit tourist court 200 feet behind the Spanish Villa, located at Devon, on U. S. 25, three miles south of Florence was destroyed by fire Friday night and Saturday morning.

The two-story frame and stucco building housed garages and eight cabin-type apartments, it was reported. Forty firemen from the Walton and Florence Fire Departments fought the flames from 9:30 p. m. Friday night until 12:30 a. m. Saturday morning. Volunteer firemen pumped water 700 feet from a lake and several cisterns.

Mack Tuller, owner of the court estimated his loss at \$15,000. It was reported that the fire apparently started in the laundry section of the cabins. Cause of the fire evidently defective wiring.

The blaze was discovered by a tourist who had rented a cabin for the night.

Early returns show Eisenhower running through the farm states of the Midwest like a prairie fire. He was leading in Iowa, Kansas, Indiana and Missouri.

In conceding victory to Eisenhower, Gov. Stevenson said, "I urge you all to give Gen. Eisenhower the support he will need. With a united people, with faith in democracy we shall move forward with God's guidance in freedom and dignity and peace."

The election picture early Wednesday morning showed Eisenhower leading in 39 states with 442 electoral votes; Stevenson with 89. Eisenhower had a popular vote of 22,963,194 to Stevenson 19,558,693 with a total of 96,211 of 49,347 precincts counted.

Speaking to a cheering throng in New York late Tuesday night, Gen. Eisenhower said "this is a day of dedication rather than triumph." He promised the American people he would never give "short weight" to his great new responsibility.

Senate Race Close
Boone County gave Underwood a small lead in Senate race over his Republican opponent John Sherman Cooper. Underwood had a total of 2,493, while Cooper had 2,295 with all precincts counted.

Spence led the ticket with a total of 2,690 votes, while his Republican opponent Cochran tallied 1,907 with all precincts counted.

School Election
C. G. Kelly was reelected member of the Boone County School Board in Tuesday's election by a total of 352 votes against his opponent Harvey G. Bell's 79, in District No. 5.

James E. Ransom defeated Bruce Ryle for School Board Member in District No. 4, by a total of 56 votes. Ransom collected 226 votes, while Ryle had a total of 170.

Elmo Jergens was elected to the school board from District No. 1 without opposition.

Dan Roberts and O. F. Young were elected as members of the Walton-Verona Graded School District without opposition.

Historical Society Makes Tour Of Interesting Spots

In Boone County; Thirty Members Participate In Tour.

Thirty members of the Boone County Historical Society toured some interesting spots in the county on Sunday, October 19. This

tour, which was directed by Mrs. J. P. Brothers, vice-president of the society, was the first of a series planned to visit the many spots of historic interest in the community. The group met at the historic Town Hall in Florence and boarded a bus. The first visit was to the Mid-Valley Pipe Line station near Hebron. Officials of the company showed the installation and explained the operation of this 1000-mile long pipeline which brings crude oil from Texas into Kentucky and Ohio. The next stop was the home of Mrs. Artie Rouse, on the Camp Ernst Road about three miles from Limaburg. On this place is a log

cabin built by Ephraim Clore in 1812. He walked to Boone County from Madison County, Virginia, taking six weeks for the trip. A number of household articles of pioneer times are on the place and were exhibited to the members.

The next stop was at the home of Dr. M. A. Yelton, in Burlington. This house was built by Dr. Adolphus Sayre about 1870. On the property is a building once used as the law office of Albert Gallatin Winston. It is reported that he left an estate of over a quarter of a million dollars.

Mrs. Yelton, a most charming hostess, showed the many pieces of antique furniture in the home and told many interesting stories about the acquisition of each. A beautiful Federal Officer's sword brought forth some stories from the visitors about the days when Yankee and Rebel fought or two of the county. With Mrs. Lucille Jones at the piano and Lawrence Aylor leading, the house echoed with the words of "My Old Kentucky Home." Coffee and cookies served from antique pot and dishes completed the demonstration of true Kentucky hospitality and the party boarded the bus to continue its tour.

The Julia Dinsmore estate on the Belleview Pike was then visited. It was not possible to get into the house; but the beautiful grounds, the slave quarters, the old carriage, the burying ground on the hill-top, were inspected. Of particular interest were the two large tulip-polar trees near the house.

The party then visited the home of Mr. and Mrs. Ralph Zane, who live a mile or two off the Belleview Pike. Here they saw a clock made by T. Zane Roberts in 1913. Mr. Roberts was a school teacher who had taught in schools in the county for a number of years. This clock, which was two years in the planning and making is no ordinary time piece. It tells the time of day, the day of the week, the day of the month, the month of the year and the year. It shows the stages of the moon and by four small spheres the relationship of the earth with its nearest planets is shown. Mr. Roberts was not a trained astronomer. He attended the Morgan Academy at Burlington for a short time. He was a self educated man. Mr. Cason, present owner of the clock is a nephew of Mr. Roberts, the builder. Mrs. Cason was a most charming hostess and explained the operation and functions of the clock.

This concluded the first Boone County tour. Another one is planned to include the Petersburg community.

Many Prizes To Be Offered In Fall Festival Nov. 22nd

Event Will Be Sponsored By Burlington Parent-Teacher Association.

A number of excellent prizes have been obtained for winning entries in the fall festival to be presented by the Burlington P. T. A. at the school on Saturday evening and night, November 22, it was announced this week by Mrs. Albert Sebree and Mrs. Orville Sebree, co-chairmen of the advertising committee. The committee added, however, that more prizes, either cash or merchandise, were needed to make it possible for "really worthwhile premiums" for contest winners.

Some of the exhibits in the foods, clothing and floral division according to Mrs. John Revel, home economic teacher and chairman of this section, will be: 1. Best fall floral arrangement; 2. Best and most attractive cotton quilt (modern); 3. Most attractive hand knitted garment; 4. Best one-pound candy; either one kind or assorted; 5. Various kinds of cakes; 6. Best pies, pumpkin and fruit; 7. Jellies and 8. household furnishings.

A complete list of exhibits will appear in next week's Recorder or those interested may obtain a list from Mrs. Revel at the school.

Farm Crops

Ear corn, tobacco, potatoes, turnips, apples, pumpkins, native nuts and fruit and vegetable displays will feature the farm crop division James R. Huey, chairman stated. This list will also appear next week or entry blanks may be secured at the school from Ralph G. Maurer, general chairman of the festival.

Hobbies and Collections
A great interest has been shown in the hobby and collection show Mrs. A. E. Stephens and Mrs. Leroy McNeely, co-chairmen of this division stated. Already more than a dozen entries have been made in the hobby-collection section Mr. Maurer stated. Entry blanks are available at the school.

Plenty To Eat, Drink and See
There will be plenty of good food, plenty of soft drinks and lots of fun for everybody. An oyster soup dinner with the trimmings will be served beginning at five o'clock, according to Sam Ryle, chairman of the dinner committee. Continuous entertainment in the form of instrumental, and vocal musical numbers will be offered during the dinner hours. Other entertainment for both young and old will be presented throughout the program. Noel Walton has charge of the entertainment.

Edwin Walton, principal of the school and chairman of all booths, states that a number of interesting games, contests, guessing games and booths have been planned by the P. T. A. and school organizations.

A Free Turkey
Someone is going to have a turkey for Thanksgiving, because a lucky person is going to win a good, fat member of the "gobble" family during the program. Also, though the prize itself has not been announced, there is going to be a valuable door prize. This prize along with others will be announced next week, Mrs. Noel Walton, P. T. A. president and a member of the general committee stated this week.

Prizes For Winners
An idea of the type of prizes that will be awarded from the list donated will be two permanent waves, merchandise orders at grocery and hardware stores, personalized stationery and good old green cash. A complete list of the advertising donors will appear in a later story and will appear in the festival program.

Make A Date
Let's everybody set aside this date, Nov. 22, on our calendars and plan to go to his great community party and festival. The P. T. A. supports your school and your children and now they need your support.

Total of \$47,919 Made To Boone County Residents

For Old Age Assistance, Dependent Children And Needy Blind.

The Department of Economic Security reported that for the nine-month period ending September 30, public assistance payments totaling \$47,919 were paid to residents of Boone County, for old age assistance, aid to dependent children and to needy blind.

Commissioner of Economic Security Vego E. Barnes reported that of the total payments in Boone County, \$43,352 went to the needy aged; \$3,226 to the upkeep of dependent children, and \$1,341 to the needy blind.

Average payment in Kentucky for aged assistance during the third quarter of 1952 was \$30.12 to the old people who received monthly checks. Under the dependent children's program, an average of \$53.03 went to the families each month. Blind people received an average of \$31.97.

Barnes explained that public assistance recipients in the state are receiving larger checks this month, reflecting additional amounts voted by Congress at its last session plus anticipated balances of state funds resulting from case load reductions in the three programs. Old age assistance rolls have been reduced by 13,000; aid to dependent children by 10,000 children; and aid to the

needy blind by 150. Reduction in the rolls by efficient administration has enabled the state to make payments more in line with current standards of living, Barnes continued.

Increases in average payments were: Old age assistance, \$30.17 to \$35.03; aid to the needy blind, \$32.06 to \$36.30; and aid to dependent children, \$14.88 to \$17.97. On the latter, Barnes said, the average family will receive \$64.15 for October as compared to \$53.17 in September.

Maximum payments under the public assistance program have been upped from \$50 to \$55 for both the needy aged and the needy blind. The aid to dependent children program has resulted in a maximum increase of \$3 for each recipient.

G. V. Seiler Purchases Registered Ayrshire

G. V. Seiler, Rt. 2, Ludlow, Ky., has recently made an initial purchase of four registered Ayrshires according to the Ayrshire Breeders' Association Executive Secretary, Chester C. Putney, of Brandon, Vermont.

The transaction was recorded in the National Office of the Ayrshire Breeders' Association in Brandon where complete records on all registered Ayrshires in the United States have been maintained since 1875.

Because of their ability to produce at a low cost an abundance of milk with an average butterfat test of 4%, the Ayrshire breed of dairy cattle has become increasingly popular with dairymen throughout the country.

Need Money to Improve Your Farm?

HERE'S THE ANSWER! "We never were able to improve our farm until we got a long-term, 4%, amortized Federal Land Bank loan."

"Then, our payments were so much smaller that we took the difference and improved the whole place. With lower interest we had money left to lime, fertilize, build up our pastures, put back fertility taken out by crops, buy better livestock, paint buildings, keep up our fences, put modern conveniences in the house and improve the whole farm."

That kind of story has been told time and time again by farmers who financed their farms with Federal Land Bank Loans. The low, 4% interest rate with amortized principal payments made the difference between "keeping the farm up" and "just barely getting by." Find out how a Federal Land Bank Loan can help you—TODAY!

Some Ancestors of Boone County Citizens And Some of Their Descendants

The Aylors
In November, 1951, I wrote an article for the Boone County Recorder about the Aylor family. Since then I have received some additional information about the Aylors which I think will be of interest to many Boone County citizens.

In a letter from Claude Yowell of Madison, Virginia, he presents much valuable data about the Aylors of Virginia, which I am condensing for this article. Mr. Yowell is a genealogist of ability. Although he is at present principal of the Madison County, Va., High School, he devotes much time to the study of his hobby, family history. He has written a history of Madison County, Virginia, and in its preparation learned the important fact that the history of a community is to be found chiefly in the events in the daily lives of its citizens. The Boone County Historical

Society has also discovered this truth, and as a consequence is aiding materially in developing the history of Boone County.

Mr. Yowell says the name of the Aylor family is found in the county records spelled in many various ways, which makes it difficult to trace its history. It is probable that the immigrant ancestor came first to Pennsylvania and later joined the Germanna Colony of 1717 in Virginia. When Henry Snyder of this colony made his will in 1742 he mentions his daughter Anna Magdalene Aler, and his grandchildren Henry Aler (Sr.) and Elizabeth who was then the wife of Christopher Tanner, son of Robert and Maria "Turner" Tanner.

Henry Aylor, Sr., married Anna Margaret, who was a Crigger, according to some students of the family history.

Henry Aylor was regarded as a man of judgment and integrity among his neighbors, as is shown by the fact that he was named as an appraiser of the estates of Peter Clore. Michael Clore and Matthias Blankenbaker (This name was spelled variously in the Virginia records of two hundred years ago, and even today it is found in Boone County, Ky., as Blankenbaker, while in Oldham and Jefferson Counties it is spelled Blankenbaker; here in Texas descendants of the family spell it Blankenbeckler, but since they are prominent Republicans in the Kentucky Blankenbakers and Blankenbecklers would probably call them "black sheep," and would disown them). Henry Aylor and his wife were members of Hebron Lutheran Church, and their names are on the church rolls as late as 1775. In 1797 he sold land to his son, Henry, Jr., and made his will in 1805.

Henry and Anna Margaret Aylor's children were: 1. Henry, Jr., M. Barbara Carpenter, daughter of Andrew and Barbara (Weaver) Carpenter. Andrew Carpenter was an uncle of the Rev. Wm. Carpenter 2. Jacob, he married Frances Murray; they had several children, and one of them Rhoda Aylor married Evans Wilhoite, son of Jesse and moved to Jefferson County, Ky. Descendants of this family lived near Prospect in Jefferson County on Highway 42; 3. Abraham, married 1801, Mary Shearer, no children; 4. Susanna, married James Murray; 5. Delilah, married Mose Newman; 6. Molliner married Adam Delph.

Henry Aylor, Jr., and his wife Barbara Carpenter, were the parents of twelve children: 1. Lewis, probably the oldest, married 1810 Nancy Creel; 2. James, perhaps the youngest married 1819, Henrietta Underwood; 3. Michael, born 1795, Sarah Banghorn; they emigrated to Boone County before 1811; 4. Benjamin, married 1800 Anna Tanner; they also emigrated to Boone County; of their children, Milly, born 1801, August, born 1803 and Ephraim born 1805, were born in Virginia; 5. Absolom, married 1806, Mary Carpenter, daughter of Solomon and Hannah Carpenter; 6. William, no further information; 7. John H., married 1811, Judith Terrell and moved to Kentucky, probably to Boone County; his will was made in 1852; 8. Elizabeth, born 1777; married 1798, Aaron Carpenter; 9. Susanna, born 1792; married 1819, James Snyder; 10. Sarah, married 1815, James Snyder; 11. Annie, married 1806, Henry Murray; 12. Mary (Polly), born 1774; she married 1794 the Rev. Wm. Carpenter, for twenty-six years pastor of the Hebron Lutheran Church of Madison County, Va., its first American-born minister, and the

first to preach his sermons in English. In 1805 he organized Hopeful Lutheran Church in Boone County, Ky., and became its pastor in 1813, serving for twenty years until his death in 1833.

Lewis Aylor, perhaps the first-born of Henry, Jr. Aylor's children was the father of James Aylor, who migrated to Boone County, and married Eliza Wilhoite, daughter of William and his wife Anna Clore, who moved from Virginia to Boone County, Ky., in 1800. This James Aylor had no heirs. James Aylor, youngest son of Henry Aylor, Jr., had a son, William, and there were perhaps other children.

Alexander Aylor, son of Lewis, and a grandson of Henry Aylor, Jr., was a citizen of Boone County and in 1852 witnessed the will of his uncle John Aylor, whose wife was Judith Terrill. I have no further record of Alexander.

In the Carr Genealogy the names of the following Aylors are given, but without reference to their lineage. They were citizens of Boone County, probably children of the Aylor immigrants from Virginia.

A. (Alexander?) Aylor married Martha Jane Utz, whose parents, John Ephraim Utz and Judy Clore, were married in Boone County, April 11, 1827. Perry Aylor, who married Harriet Utz in Boone County, March 13, 1836; they had at least two children, Bertha and Anna. Bertha married Lewellyn C. Tanner in Boone County Oct. 20, 1886. E. J. Aylor, born 1872, married Laura Maria Riddell, whose parents, James A. Riddell and Virginia F. Smith, were married in Boone County, Dec. 22, 1894. Moses Aylor married Hattie Ann Snyder whose parents, Julius Franklin Snyder and Hester A. Wilhoit, were married in Boone County, Jan. 26, 1843. Another Harriet Aylor, who married John Blankenbaker, was a daughter of Gabriel Aylor and Susan J. Smith; they were married in Madison County, Va. Nov. 8, 1842; Gabriel Aylor, son of Absolom Aylor, Sr., and grandson of Henry, Jr., was a brother of Jeremiah, who married Elizabeth (Carpenter) Hoard in Madison County, Va., Aug. 14, 1837. They "moved West" (perhaps to Boone County, Ky.) in 1857.

Jemison Aylor, born Feb. 24, 1827 (son of ?) married Sarah J. Hicks, April 5, 1849. Information is lacking as to where he was born or married, or whether he was a resident of Boone County; his wife's sister, Elizabeth H., married James Willis Clore in Boone County, Nov. 28, 1857, and at least three of Jemison and Sarah (Hicks) Aylor's 11 children were married in Boone County; they were Alice Aylor, married Albert Rouse, 1881; Clara, married Charles J. Craven, 1885 (in Kenton County); Ezekiel J. Aylor, married 1892, Laura M. Riddell; Harvey Aylor, married, 1893, Ollie Riggs.

Henry Johnson Aylor born Feb. 1, 1853 (son of ?) married in Boone County, 1884, Addie A. Rouse; she was a daughter of Wm. A. Rouse and his third wife, Sarah F. Gordon, who were married in Boone County, Sept. 20, 1864.

Elizabeth Aylor, sister of Henry Aylor, Sr., married Christopher Tanner; his will, dated 1781, in Madison County, Virginia, names these children: Jacob, Frederick, Christopher (II), John, Abraham, Dorothy and Maria Magdalene, who married Christopher Zimmerman in 1768; they emigrated to Boone County in 1810. Their children intermarried with the House, Tanner, Snyder, Rouse, Crigger, Crisler, Beemon and other pioneer Boone County families, and were prominent citizens, as are many of their descendants of the present.

Warehouse Sales Being Checked

Frankfort, Ky.—Scales in tobacco warehouses are being given a thorough and rigid inspection, preparatory to their reopening around November 1, George L. Johnson, director of the Division of Weights and Measures in the Department of Agriculture, said today.

"We have assigned a crew of six field representatives to check all scales at tobacco warehouses for accuracy before the warehouses open for the season," said Johnson. Warehouses usually begin receiving tobacco around November 1, he explained, with sales usually beginning later in the month. The project, he explained, is one of assuring that farmers receive full value for their crop, as well as guaranteeing that warehousemen are not held accountable for more tobacco than they receive.

KENTA-BOO COMMUNITY CLUB MEETING HELD TUES.

The Kenta-boo Community Club met last Tuesday evening with a large number present including the Fire Chief and several of the firemen from Florence. They demonstrated the new fire engine. Refreshments were served following the meeting and everyone had a general good time.

The next meeting will be held the third Tuesday of November. All members are urged to attend as officers will be elected for the ensuing year.

All meadow and pasture seedings should be composed of mixtures of grasses and legumes for better feed and better conservation of the soil.

Business Recession Forecast By Harvard University Economist

The 58th annual convention of the Kentucky Bankers Association, held at the Brown Hotel in Louisville last week established a new high in attendance—and probably a new high in the attention delegates gave to what many fine speakers had to say.

At the very first session, Dr. Sumner Slichter, Harvard University economist, predicted a business recession within two years. He stated that the recession will be brought about by a decrease in government spending for defense and foreign aid, but predicted that it would be severe only if business happens to be contracting, rather than expanding, when the decrease in government spending takes place. He stated that intelligent action on the part of the government and private business could largely offset the bad effects of the recession and, among other things, urged increased industrial research, a large program of toll road construction, and a cut in taxes.

On the other hand, J. A. Livingston, editor of "Business Outlook," stated that a reduction in defense expenditures will not have the serious effect on business that many economists predict. He pointed out that even today, defense amounts to only 15 per cent of the total national product. Mr. Livingston also pointed out that declining commodity prices and decreasing expenditures for plant expenditures and new housing are factors which are rapidly halting inflationary tendencies. His prediction was that the dollar would increase a few cents in its purchasing power during 1953.

The same thought was brought out by Raymond Rodgers, professor of banking at New York University, who talked on the subject, "The Outlook for Our Dollar." Professor Rodgers stated that the outlook for our dollar is considerably brighter than it has been since 1940. He urged bankers to hold on to their dollars "because they will become more valuable." He based his reasons for this assumption on four factors: (1) the gold position of the dollar is stronger; (2) the money management position of the dollar is stronger; (3) the political position of the dollar is stronger; (4) the economic position of the dollar is stronger.

Regulations adopted by the Association called for an end to the excess profits tax, reduction of government expenditures, and caution on the part of bankers in handling their affairs.

Old Business Directory Yields Interesting Notes

An old Business Director, published for the year 1875, had the following information:

Petersburg, a village of 600 inhabitants, settled in 1818, incorporated in 1828, and situated on the Ohio river, in the northwestern part of Boone County, 10 miles from Burlington, the county seat, and 116 miles by river from Louisville. It is immediately opposite Aurora, Ind., with which place it has regular communication by ferry, as also with Lawrenceburg, Ind. It contains a stove factory and a distillery, two churches, Methodist South and Reform or Disciples, a common and select school. Its shipments are whiskey, live stock, tobacco, grain and willow-ware. Daily mail, S. G. Botts, postmaster.

ESTABLISHED 1875

BURLINGTON, KENTUCKY THURSDAY, NOVEMBER 13, 1952

VOLUME 77

NUMBER 16

Burley Marketing Referendum Will Be Held Nov. 22nd

Five Polling Places Set Up In County By PMA Committee.

Approximately 1100 burley tobacco growers in Boone County are eligible to vote in the referendum Saturday, November 22, on burley tobacco marketing quotas, according to Mr. Cook, chairman of the County PMA committee.

The referendum will determine, in accord with the law governing marketing quotas, whether growers want burley quotas for three years beginning in 1953; whether they want quotas for the 1953 crop only; or whether they do not want quotas.

The burley quota, proclaimed November 5, will continue in effect if two-thirds or more of the growers voting in the referendum cast favorable ballots.

The purpose of marketing quotas is to provide growers with a method of adjusting supply to demand and to help them obtain fair prices for the tobacco they produce.

According to the county PMA chairman, "anyone who has an interest in the 1952 crop of burley tobacco, either as owner, tenant, or sharecropper is entitled to one vote on the question of marketing quotas."

Mr. Cook pointed out that acreage allotments will be continued in 1953 if quotas are approved. Notices with specific farm acreage allotments for 1953 will be sent to farm operators before the date of the referendum.

Price support loans of 90 per cent of parity will be provided for 1953-crop tobacco if the marketing quotas are approved in the referendum. Since quotas are now in effect for the 1952 crop, price supports already are available on the 1952 crop.

Polling places announced by the committee are as follows: Burlington, Florence, Grant, courthouse.

Petersburg, Hebron, Constance, Hebron schoolhouse.

Walton, Verona, Walton Town Hall.

Union and Beaver, New Haven school.

Hamilton, Hamilton school.

Seven Hundred New Registrants Reported In Boone County

At the close of registration of voters prior to the November election, 700 new names had been added to the registration list, according to C. D. Benson, County Court Clerk.

A recent issue of a daily paper stated that 70 per cent of the new registrants were Republican, but according to Mr. Benson, the figures are somewhat different. Mr. Benson stated that 82 per cent of the new registrants were Democrats, while 18 per cent were Republican.

Burley Support Prices Show Little Change

Loan Rate Ranges From 70 Cents to 16 Cents A Pound.

Support prices for the 1952 burley tobacco crop, released last week showed virtually no change for most grades.

The loan rate ranges from 70 cents a pound for choice lugs downward to 16 cents for one grade of nondescript tobacco.

The minimum average, fixed by the Agriculture Department to reflect 90 per cent of parity prices, is 49.5 cents a pound or \$49.50 a hundredweight. Last year the loan rate was 49.8 cents.

Among the 109 classifications into which the government inspectors will grade the crop are six new graders to take care of tobacco that is mixed in stripping. Some other revisions were made in the classifications of the various grades. The Kentucky crop is expected to be upward of 413 million pounds this year, while the eight-state belt is figured to produce 606,000,000 pounds on the basis of government estimates.

Final Draft of Master Plan Outlined At Florence Meeting

Will Control Future Growth of Community, According To Report.

A final draft of Florence's "Master Plan" to control future growth of the community was started by the Florence Planning and Zoning Commission following a public hearing attended by more than 200 Thursday night of last week.

After considering all comments, the commission will submit its proposed ordinance to Florence City Council for action. If the measure is approved, Florence will become the first city in Boone County to have a planning and zoning ordinance.

According to the proposal five zones would be established within the city limit—Residence A and B, retail business, highway business and industrial zones.

Under the plan, any future new businesses would have to provide off-street parking space for customers. This, officials pointed out would help eliminate a growing traffic problem in the city.

The ordinance would control planning in the city and in the five-mile surrounding radius.

This would affect only the planning of new subdivisions in the area, it was explained by William Fitzgerald, Florence city clerk.

Through the program, it is hoped to overcome the problem of short, dead-end streets and to see that new subdivisions follow approved lines regarding size of lots, drainage, etc.

Many of those present at the meeting were under the impression that they would be directly affected. Mr. Fitzgerald explained that the proposed ordinance would not affect any home or business now in existence in either Florence or surrounding area.

The zone setup in the city limits would protect against encroachment of new business in residential sections, it was reported.

Six-Man Football Crown Won By Burlington Eagles

Season Closed With Convincing 56-12 Victory Over Walton.

Coach Edwin Walton's Burlington Eagles won their fifth consecutive Northern Kentucky Six-Man Football Conference crown last Friday night as they closed the season with a convincing 56 to 12 victory over Walton's Bearcats at the local field.

The contest developed into a scoring rout for the Eagles early. Coach Walton substituted freely after the half. He finally withdrew all of his regulars and sent in his "midget" six who scored two TDs during their eight minutes of play.

The victory was number seven for the Eagles in Conference play against one defeat. The loss was at the hands of second place New Haven who closed out their season Thursday night with a 44 to 29 win over Florence. The Tigers finished the season with a six win, two lost record. Their losses were to Burlington and Hebron.

Hebron's Cardinals had an even split for the year with a four-four record which was good for third spot. Walton, playing their first year of football, finished with two wins and six losses, and the Knights of Florence ended with one victory against seven defeats.

Final Standings

Besides his daughter he is survived by a grandson, Charles E. Luchte, of Hebron.

You are urged to bring a properly labeled specimen for every member of your family. It is hoped that as many as possible will take advantage of this service and make "Diabetic Detection Week" a real service to the community.

Hebron Cardinals Open Hoop Season Friday, Nov. 14th

Will Meet Covington Catholic; Florence To Entertain Mason Five.

America's most watched sport, basketball, will make its debut for Boone County fans this week end with the Hebron Cardinals meeting the Covington Catholic Colonels at the latter's gym Friday night, and the Florence Knights entertaining Mason High's Bulldogs, members of the Penogran Conference, on the same night.

The season will get into full swing the following week with all county fives in games, including one Boone Conference tilt between Hebron and New Haven at New Haven. The other games will be Florence at Lloyd, Burlington at Gallatin County and Walton playing Dayton at Dayton.

Prospects Bright

Prospects for more stronger teams in Boone County this season than for several years seems likely. New Haven's Tigers, who for several years were the doormats of the Conference but a team that came to life during the latter part of 51-52 season, appear to have one of the best to represent their school for many years. The Tigers, with N. "Red" Perkins as new coach, are loaded with veterans and lettermen

plus at least one new player. In depth and experience, no team in the county can compare with the Tigers. A squad with Rhodes, Flynn, Faegan, Moore, Cook, Crume, Jones, Baker, etc., should give the Tigers their best record in several years.

Hebron, always a toughie in Boone basketball, will be playing for a new coach, Duncan Huey. Huey, at Florence the past two seasons, moved in as head Card mentor this season to replace Charlie Ransler who is now assistant basketball coach at Erlanger Lloyd.

The Cards, though hurt by graduation last year, still have Big John Crighter plus several other lettermen and some good freshmen. They too have added at least one newcomer to their squad.

Hopes are high at Florence where prospects look the brightest for at least a half dozen seasons. The Knights who will take their coaching from George Maines, assistant at Burlington last season, are well fortified with lettermen and boys moving up from the reserve team.

Hudson, Maddox, Utz and Markesbery are enough on any team to assure fans a good ball club.

At Walton, the 34th District champions, appear tough going in. They still have their one-two punch of Smith and Vest. Also back from last year's champs are Grubbs and several others who saw much action.

The Bearcats are the fourth team playing for a new coach this season. His is John Durham. If you were going to select a pre-season favorite, you would almost have to stay with the champ.

Local Prospects Not So Good

Only Burlington of the five Boone teams appear to be weaker than in the past year. The Eagles were extremely hard hit by graduation last season. Only one regular from last year's Eagle squad is back, Jerry Ryle. Coach Ralph Maurer's Eagles, besides Ryle and two hold-over reserves, will be made up of untried material.

Bountiful Supply Of Water Reported In Boone Test Well

Yields Is Expected To Exceed 2,500 Gallons Per Minute.

The A. R. Posey Co., of Cincinnati struck water at 162 feet on a tract of land of the McGlasson farm near Taylorsport Tuesday morning, according to Robert Ellis, member of the Boone County Water Commission.

A six-inch shaft was sunk into the gravel formation on the Paul McGlasson farm and the well brought in at 162 feet. It is expected that the well will produce 2500 gallons per minute, Mr. Ellis stated.

The Boone Water District is attempting to find adequate source of water to set up a distribution system for the entire county.

Mr. Posey is continuing to drill in an attempt to hit bedrock before he establishes the end of the drilling operation.

Thurman Posey of the A. R. Posey Drilling Co., who is in charge of operations at the site, stated that the source of water struck far exceeds his expectations.

A similar well drilled for the Monsanto Chemical Co. across the Ohio River now yields 2,500 gallons of water a minute. It is expected that the Boone County well will exceed that amount.

Upon completion of the test wells, a survey will be made of the area to determine the number of customers desiring to purchase water from the Commission.

Six youths ranging from 14 to 18 years of age were arrested Monday night and Tuesday morning on armed robbery charges, following the holdup of a young couple near the Boone County Airport late Sunday night.

The young couple, parked near the airport were surprised by two youths who wore masks, one brandishing an automatic pistol, who demanded their money. After taking the billfold of the young man containing a small amount of money and the purse of the young girl, the bandits disappeared in the darkness.

The holdup victims drove to the airport, where they reported the incident to Deputy Sheriff Bobby Moore who followed the couple back to Youell road in a police cruiser. He stopped an auto there and found the six youths in it. He ordered them to accompany him to the airport where the other police and authorities joined him in questioning which continued until 2 a. m. Monday.

The boys denied having anything to do with the robbery, and none of them had a gun. The victim insisted that the youths were involved but without the gun there was little evidence against them.

Sheriff Easton procured a warrant Monday for the arrest of the six youths, and with Deputies Kinman, Moore, Detective Robt. Gordon and Patrolmen of the State Police rounded up the six youths Monday night and Tuesday morning.

Those arrested are: Robert Kinman, 18, Ed Kaiser 15, Robert George 15, and Paul Redding, all of Ludlow were arrested by Deputy Sheriff Byron Kinman on a charge of being accessories to the holdup.

The youths were returned to Burlington jail Tuesday morning and were arraigned before Judge C. L. Cropper, Boone County Judge Wednesday at 10:00 a. m.

Sheriff Easton stated that he found the masks and gun used by the youths near the scene of the holdup.

The Youell Road near Boone County Airport has been the scene of many holdups during the past several years, Sheriff Easton stated.

Many efforts have been made to apprehend the holdup artists working in this area, to no avail. Bloodhounds have been used upon two occasions in an effort to track down the culprits.

The little daughter of Mr. and Mrs. Wilbur Ryle underwent a tonsilectomy at Booth Hospital, Thursday of last week.

Road Blocks Will Be Set Up To Check Hunting Licenses

State Police Will Assist Conservation Officers In Check.

The Department of Fish and Wildlife Resources, in cooperation with the Kentucky State Police, will periodically set up road blocks on several roads leading into the state to check licenses and game bags during the hunting season which opens on November 20. This announcement was made this week after an agreement had been reached with State Police to participate in the move.

The Department stated that in the past many out-of-state hunters have been hunting in Kentucky without licenses, and have exceeded their bag limits of game. By establishing the road blocks, these hunters can be checked as they leave the state, it is pointed out.

The Police Officers and Conservation Officers will work together in this movement. The two departments have announced their intentions of the blocks in order that the hunters may be warned. An out-of-state hunting license costs \$15.50 and can be purchased at the clerk's office in any County Seat.

Cut In Burley Acreage Announced For 1953

A general cut of 10 per cent in 1953 acreage allotments for burley tobacco growers has been announced by Charles Brannan, secretary of agriculture.

A marketing quota of 546,000,000 pounds, compared to the 1952 quota of 591,000,000 was proclaimed at the same time.

Except in special circumstances, the allotment cuts will not apply to those already at seven-tenths of an acre or less.

The cutbacks announced would lower Kentucky burley acreage from approximately 320,000 to 288,000 next year, it was estimated.

Other states principally affected include North Carolina, West Virginia, Indiana and Missouri.

Christmas Leave Will Be Granted Navy Men

The Navy Recruiting Station announced today that the Navy is going to follow the open door policy on Christmas leave for new recruits. All men and women who are enlisted prior to 20 November 1952 will be granted holiday leave between the periods from 20 December to 4 January. This holiday leave will take the place of the regular "re-cruit leave" given enlistees upon completion of their recruit training. Enlistments are currently open to all who qualify. The quota has been removed because of a number of factors, such as the expiration of enlistment contracts and the release of the reserves.

Auto License Plates Delivered To Clerks

Kentucky's 1953 license plates are being delivered to county court clerks, according to Charles W. Williams, director of the Division of Motor Vehicle Registration. The tags are designed with white numerals on a blue background.

Williams explained that state law provides that the plates be placed on sale Dec. 1, but the actual date that sales begin in each county is determined by the county clerk.

The new tags may not be displayed until December 29. The old plates expire Dec. 31 and the last day of renewal without penalty is March 1.

The state allotment of plates is—passenger cars, 880,000; commercial trucks, 58,000; farm trucks, 98,600; motorcycle, 15,700; and dealer tags, 7600.

The passenger car license fee is \$5, motorcycle, \$2.50, and farm trucks, \$5. Fees for commercial truck licenses are figured on a gross weight basis.

Household Workers Covered By Social Security

As a result of numerous inquiries regarding household workers and how the social security law affects them, Edward J. Bolter, field representative of the Covington, Kentucky office of the Social Security Administration has outlined briefly the most important points concerning this part of the law.

Since January 1, 1951, all regularly employed household workers have been covered by social security. A simple rule to follow is, if a person works as a maid, cook, laundress, nursemaid, gardener, or does any other kind of work for one household on at least two different days every week (all day or just part of a day), and is paid cash wages of at least \$50 in the three-month period of January through March, April through June, July through September, or October through December, then the work counts toward Social Security.

If you are a household worker or if you have someone working for you and have never reported social security taxes on them, it is suggested you see Mr. Bolter on one of his regularly scheduled visits.

Fall Festival Will Attract Numerous Exhibits Nov. 22

Contests Will Be
Featured For Young
And Old.

What do you do and see at a fall festival? Come to the Burlington high school on Saturday evening and night, Nov. 22, at which place and time the Burlington Parent-Teacher Association will attempt to show you the following good time.

First you look over the exhibit list (and prize list) which appear in this paper and in programs which will soon be distributed and decide which and how many you are going to enter. Enter something... the biggest pumpkin, a feed sack dress, doll collection, etc. If you don't win the prize, you can at least argue with the judge. Anyway bring your entry.

Now as you enter the door, you have two choices: You can get in free or you can donate from ten cents up and earn a chance to win the door prize. What is the prize? A twenty-five dollar Government bond. Then, after registering your entry with the clerk, head straight to the cafeteria and enjoy oyster soup, ham sandwiches, celery, pickles, pie and coffee... and while there listen to a continuous entertainment of music (local talent)... and enjoy yourself in fellowship with your neighbors.

Now that you are full and happy go back to the top floor and look at the amazing display of hobbies that you and your neighbors have. It will be worth the trip to see Albert Weaver's fishing tackle... or to see a piece of newspaper type the size of a match head, on which is the entire Lord's Prayer. On the way upstairs, Junior or Sis will want to stop by and get a bag of popcorn and a soft drink.

Back to the first floor and you can see what kind of tobacco produced in Boone County this year. How big was the corn? How pretty were the apples?

By this time you will probably want to go thru the gymnasium and take a try at the interesting games and booths. There will not be a winner every time, but there will be fun every time. Yes, you will hear the gobble of a turkey. Ask how you can get him for your Thanksgiving dinner. (Mr. and Mrs. Ross Fair will vouch that he is corn fed and ready for the table. It was such donations as this by Mr. and Mrs. Fair plus the many others you will see listed that make a festival possible.)

If you don't like turkey, at another booth ask how you can get the ham they have displayed. Then try your luck at shooting basketball goal. By now if you are not tired out go to the rest of the booths, if you are, look up in the balcony at the displays of local business places. Go up and ask them about their special prices. You may strike up a bargain.

Are you hungry again? If so or not, got to the Home Ec Department on the basement floor and look at the pies, cakes, cookies, flowers, quilts, dresses, canned goods and so on. Pass your opinion on which is the best even though the judges

probably won't agree with you.

We almost forgot Junior and Sis. Oh! they are seeing the comic movie and have already sat thru three showings.

Sit down and talk to your friends. Then get ready for the cake walk and auction. Now listen for the list of prize winners and hear what their prizes are. Now for big winners... the turkey... the ham... the bond. Have you had a good time? Yes, but make another trip around to see if you missed seeing anything or anybody, get your wraps, and say goodbye. Wait a minute, go get Junior and Sis, they have gone back to see another movie short. Now goodnight... and if you haven't had a good time you must be "mad at the whole world."

Burlington Lady Heads Local Fund Campaign For Centre College

The increase of Centre faculty salaries will be the chief purpose of Centre's 12th Alumni-Alumnae Fund campaign which opened Tuesday, November 11 and ends June 30, 1953. The goal is \$30,000.

Centre's alumni-alumnae fund campaigns of the past three years were devoted to the retirement of debt on the school's new Alumni Memorial Building. The debt was erased by June 1 of this year. The past year's campaign raised \$22,800 from 1130 contributors, the largest total contributions and second largest number of contributors of any Centre alumni-alumnae fund to date.

Directors of the Centre alumni and alumnae associations voted at their semi-annual meetings on May 31 to adopt the increase of faculty salaries as the chief purpose of the 12th fund. Faculty salary increase had been designated by Centre trustees and President Walter A. Groves as an urgent need of the college at the present.

Centre's approximately 5,000 alumni and alumnae will be solicited by mail from the Centre alumni office. Each class from 1890 to 1952 has class manager working in behalf of the 12th fund.

Mrs. Lee R. McNeely, Jr., Burlington is class manager of the Centre campaign in this area.

**Need Money to
Improve
Your Farm?**

HERE'S THE ANSWER! "We never were able to improve our farm until we got a long-term, 4%, amortized Federal Land Bank loan."

"Then, our payments were so much smaller that we took the difference and improved the whole place. With lower interest we had money left to lime, fertilize, build up our pastures, put back fertility taken out by crops, buy better livestock, paint buildings, keep up our fences, put modern conveniences in the house and improve the whole farm."

That kind of story has been told time and time again by farmers who financed their farms with Federal Land Bank Loans. The low, 4% interest rate with amortized principal payments made the difference between "keeping the farm up" and "just barely getting by." Why Be Old At 40?

N. TULCH

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

Do you walk with toe pointed out? Are you bedeviled by a thousand demons tearing at your back? Do you hate to get up in the morning? Do you experience foot pain when walking?

Can you be on your feet all day without fatigue? Any or all of these conditions may indicate that one or more of the four arches of your feet are on the verge of collapse. There is really no end of the trouble that such a condition could cause. Around the bones and muscle of your feet are numerous nerves, all of which are directly connected with the nerve center. Severe pains in your feet are transmitted to every part of your body.

What can you do about it? For years men and women have withstood the aches and misery due to some foot condition and have always decided "There is nothing you can do about it."

Now comes a sure way to relief for many aches and pains due to faulty foot condition. You will be eager to rise each morning and meet the conditions of the new day. You will have the springy active step of a youngster of eighteen. You will not be old at forty! There is no secret to it. You don't have to take a long rest, nor a change of climate. You need only to be correctly fitted in a pair of surgical shoes. You may think this is a simple way to end all of pain and misery, you have been suffering for a good many years, but after all don't the simplest things in life bring the greatest joy?

Resolve today that you will pronounce the death sentence on the misery, aches and pains due to foot trouble.—Adv.

THE MASTER'S GARDEN

The Master has a garden
In the land—eternity,
And He will fill that garden
With His blossoms—you and me.

Just here, He needs a tiny bud
And a little child goes home,
Mother will serve as a tender vine
Not just now—but later on.

Over here He needs a sturdy oak,
A strong and stalwart tree;
On earth a family circle is broke
And the head of the house sets out to sea.

And He knows of a very special place
Where peace and quiet reign,
And the sunlight falls in softest rays
Where the aged and weary shall live again.

And thus His plan shall be made complete
Though the time be soon or late;
He will gather His children there to meet
Some morning inside the eastern gate.

Water plays an important part in egg production. An egg is approximately 65% water. Every 24 hours, 100 laying hens will require about 10 gallons of water. They will drink more when the water temperature is right and the water is easily accessible.

The Jamesway 8 gallon waterer for laying hens is available with a lamp heated base and stand or may be used as range waterer without base of stand.

Jamesway offers a poultry waterer for every need in a variety of sizes.

ROBERTS BROS.

HEB. 3142 HEBRON, KY.

Approximately 100 farm and home economists were on hand to learn from government economists what 1953 has in store.

A high level of business activity, expanding employment and increasing population were given as reasons for anticipating little change in incomes for the nation as a whole.

Farmers, however, may have a lower net income, due to increased production costs and wage rates that may be higher than the past year. What the farm family must buy is expected to be somewhat higher in relation to prices received for products sold.

Retail prices of foods will probably show little change. Beef and veal consumption may rise slightly per person. Due to an abundant supply of chicken, fish and possibly lamb and mutton, and frozen fruit and juices, prices of these items may show a decrease, while price tags on turkeys, eggs, bread, butter and some cereal products, dry beans, peas and fresh vegetables may be slightly higher. Shipments of potatoes of high quality are large, and lower prices may be expected.

The home freezer was recognized as providing a new incentive for home production of food, resulting in greater variety at reduced prices.

ENTERTAIN WITH FISH FRY

Mr. and Mrs. Howard Wilson entertained the members of the Burlington Methodist Church with a fish fry on Saturday evening in their home in Edgewood.

The earlier part of the evening was spent in enjoying the good things to eat. Later, games were played.

As the church is considering adding church school rooms, a guest suggested that a building fund be created at this time. This suggestion was enthusiastically accepted.

and the group generously contributed.

Florence Youth Makes High Score in Eastern Classification Tests

Cecil J. Martin, Florence has been informed by officials of Eastern Kentucky State College that his son, Albert Lee Martin, made high scores on Classification Tests given during Freshman Week at Eastern.

The General Classification scores were in the highest twenty-five percent of the four hundred sixty students entering the College for the first time.

The personnel office at Eastern recently released this information and mentioned that the high average is complimentary to the elementary school and to the high school attended as well as to the student making the superior record.

Fertilizers Build Farm Soil's Supply Of Organic Matter

ORGANIC matter plays an essential part in soil fertility, but chemical fertilizers are necessary to build up the organic matter supply in large land areas, declared the Middle West Soil Improvement Committee, in citing a recent statement by Dr. L. M. Turk, head of the Soil Science Department of Michigan State College.

Dr. Turk pointed out that those who advocate the use of compost or manure to increase the soil's organic content are performing a definite service. But in condemning the use of chemical fertilizer, he said, "some people are doing a distinct disservice to the nation."

"For efficient crop production," he said, "lime, fertilizers and organic matter must go hand in hand. Organic matter is dependent upon plants. And plants are dependent, among other things, upon an adequate supply of soil minerals." The most effective means of adding organic matter to large fields is by an intelligent use of purely inorganic fertilizer, Dr. Turk believes. Growing a cover crop through the use of commercial fertilizer and plowing it under adds greatly to the organic matter in the soil.

Dr. Turk said no proof has been offered that crops grown without chemical fertilizer are more free from disease and insects than are crops produced with commercial fertilizer.

Burley Referendum Eligible Voter List Completed

By County PMA; Lists Open For Inspection In County Office.

Burley tobacco growers who are eligible to vote in the referendum on November 22 have been listed by the county PMA in preparation for the referendum. The lists are open for inspection in the county office at Burlington.

The referendum has been called in compliance with the Agricultural Adjustment Act of 1938. The act provides for proclamation of marketing quotas by the Secretary of Agriculture. They will remain in effect, however, only if approved by at least two-thirds of the growers voting in the referendum.

The voters, Mr. Cook said, will cast ballots on three proposals: In favor of quotas for three years, 1953, 1954 and 1955; in favor of quotas for one year, 1953, but opposed to quotas for three years; or opposed to any quotas.

Any person who has an interest in the 1952 crop of burley tobacco as owner, tenant, or share cropper is eligible to vote in the referendum, but no person may cast more than one vote even though he may be engaged in producing burley tobacco in two or more communities, counties, or states.

Purpose of marketing quotas are to provide growers with a method of adjusting supply to demand and to help them obtain fair prices for the crop produced.

A favorable vote on quotas will mean that price support loans will be available to cooperating growers at 90 percent of parity on the 1953 crop under present law.

If more than one-third of the growers voting in the referendum are opposed to quotas, no price support will be available on the 1953 crop. Since quotas are now in effect for the 1952 crop, price support will be available for the 1953 crop regardless of the referendum vote.

Polling Places Announced
Polling places at which burley tobacco growers will vote in a referendum on marketing quotas November 22 were announced today by the county PMA committee.

The polls will open not later than 9 a. m. and close at 5 p. m.:

Burlington, Florence, and Grant, courthouse.

Petersburg, Hebron, Constance, Hebron firehouse.

Walton, Verona, Walton Town Hall.

Union and Beaver, New Haven school.

Hamilton, Hamilton school.

Harry Bailey

Requiem High Mass was sung at 9:00 a. m. Monday at the All Saints Mission, Walton, for Harry Bailey, retired farmer and lifelong resident of Boone County, who died early Saturday at his home in Beaver Lick. Mr. Bailey was 91 years old.

Burial was in All Saints Cemetery, Verona.

Chambers and Grubbs, Walton funeral directors were in charge of arrangements.

Besides his widow, Mrs. Martha Hunter Bailey, he is survived by two daughters, Mrs. Kruse Johnson, Walton, and Mrs. Margie Knorr, Covington, and four grandchildren.

Ohio Youth Held For Action Boone County Grand Jury

Four Youths Exonerated By Companions In Holdup Near Airport.

Robert Wiley, 18, of Lockland, Ohio, was held to the Boone County grand jury under \$2500 bond on a charge of armed robbery when he waived examination before County Judge C. L. Cropper, Wednesday morning of last week.

Damon Redding, 17, of Ludlow, charged with armed robbery was granted a continuance of one week by Judge Cropper. His bond was set at \$2500.

Wiley and Redding were among a group of six teenagers taken into custody by local officers and state police Monday in connection with the holdup of a young couple on Youell road near the Boone County airport Sunday night.

The pair exonerated their companions, Judge Cropper said, insisting they knew nothing about the actual holdup. The four juveniles were referred to Kenton County juvenile authorities for supervision.

Boone County Fives Off To Good Start In Hoop Contests

Knights and Cards Troupe Opposition In Opening Games.

Coach George Maines of the Florence Knights and Coach Duncan Huey of the Hebron Cardinals got their teams off to winning ways last Friday night in opening basketball games. The Knights downed Mason's Bulldogs by a 51-35 count at the winner's court and Hebron defeated Covington Catholic 65 to 49 at the loser's floor.

The Knights started slow and were trailing 12-3 at the quarter and 17-15 at halftime, but they pulled into a 40-24 lead during the third period and were never headed. Luck paced the Knights with 15 points, Hudson and Markesberry split 24 points, Denler 10 and Utz 2. R. and B. Simpson divided 22 points to lead the Bulldogs. Mason's reserves won 30-26.

Big John Crigler poured in 26 points in about three quarters of action, took care of the offensive and defensive backboards against a big Covington Catholic team and generally led the Cardinals to their initial victory of the season. The Cards held a 17-7 quarter lead. The score at halftime was 31-18 and at the third stop the Cards had increased to 45-31. Besides Crigler's effort, Anderson had 9 points, Bonta 3, Hogan 3, Tanner 10, Henderson 3, Bell 2, Conner 1 and Brautigan 9. Eggers had 13 for the Cardinals and Bogenschutz 11. The Cardinal seconds won 48 to 30.

Cards vs. Tigers
County fans have a natural coming up this Friday night when Hebron takes on Norman Perkins' New Haven Tigers in the Tigers' lair. It is not only a Boone Conference tilt but it may prove early who is going to rule the roost in the local scene.

The Cardinals may have an advantage of having played one game, a successful one, whereas the Tigers, quitting football a week later, have had less practice and no game experience for the season. On the other hand the Tigers will be playing at home and less an authority than Mr. Adolph Rupp, says "the home team has at least a ten point advantage." Take your choice, if you please, but we will only venture so far as to say it will be a "real battle."

Eagles vs. Wildcats
Burlington's Eagles will open their season Friday night against the Gallatin County Wildcats at Warsaw. The Cats have been at practice for more than five weeks and still have four lettermen back from last season. Coach Maurer of the Eagles has been desperately experimenting with various combinations in order to find a starting five.

In his choice will come from Jerry Ryle, Harold Dringenburg, Kenny Bell, Eddie Brown, Jackie Patterson, Billy Ogden, Peter Cropper, John Fair and Warren Ryle.

Knights vs. Jugs

In a game that is as much a natural as the Kentucky-Tennessee footballer will be the Florence Knights vs. Erlanger Lloyd's Jugs, generally game at Erlanger Friday night. Seaman Charles W. Jones Enjoying Visit Here

Returned to the United States aboard the attack carrier USS Princeton was Charles W. Jones, seaman, USN, son of Mr. and Mrs. Alex Jones of Route 2, Burlington, Ky., and is now enjoying a brief furlough with his parents and other relatives.

The Princeton had eight months of combat duty in Korea and its planes participated in some of the most spectacular air raids of the Korean conflict.

They blew up the important Siuho Dam close by the Manchurian border, were the first to attack through the heavy flak at Pyongyang, at Kewon and at vital power plants just south of the Yalu River.

They gave close air support to UN troops at White Horse Mountain, Cherwon and Sniper Ridge. The ship received high praise from Commander Naval Forces Far East.

Cooperation Of Public Urged In Christmas Mailing

Many Posters Given Which Speed Handling Of Packages And Cards.

The following information has been compiled as a guide to mailers for the approaching Christmas season:

Postage—Save time, purchase your stamps in advance of the rush period. Prepay postage fully on all mail.

Addresses—All mail matter must be plainly and completely addressed, preferably in ink, giving street address, including apartment number, if any, or post office box or rural route and rural box number whenever possible. Mail intended for delivery in the large cities should be addressed to include the delivery zone number when applicable. It is important that the sender's return card appear in the upper left corner of the address side.

Avoid the use of address tags unless absolutely necessary, in which case a slip containing the name and address of the addressee should be placed inside the parcel for purpose of identification. Address labels and tags and the address space on cards and parcels should be free of any extraneous written or printed matter.

Greeting Cards—Send holiday greetings as first-class mail to obtain the many advantages which this service affords. Such greetings prepaid at the first-class rate may be sealed and contain written messages; they are dispatched and delivered first; forwarded, if necessary, without additional charge, and, if undeliverable, returned at no further expense to the mailer provided the sender's return address is shown on the envelope.

Unsealed Christmas greetings sent as third-class mail without unauthorized writing enclosed are chargeable with 2 cents postage (if weight does not exceed 2 ounces). However a minimum charge of 3 cents is applicable to such greeting cards which measure less than 4 inches long or 2 1/2 inches wide.

Patrons having a number of

greeting cards to deposit are urged to tie them in bundles with addresses all faced one way before mailing so as to facilitate their handling in the post office.

Greeting cards bearing particles of glass, metal, mica, tinsel and other similar substances for decorative purposes which are likely to rub off and injure postal employees or damage canceling machines must be enclosed in tightly sealed envelopes with postage prepaid at the first-class rate in order that such cards may be accepted for mailing.

Packing and Wrapping—Pack articles carefully and tightly in strong durable containers. Wrap and tie packages securely with good quality paper and cord, but do not seal them unless name and address of sender are shown together with the printed inscription reading "Contents, Merchandise—Postmaster: This parcel may be opened for postal inspection, if necessary," as sealed parcels not so labeled or endorsed are subject to the letter rate of postage. The name and address of the sender may be hand-stamped or typewritten on the labels.

Construction of Bridge To Begin Early Next Year
Plans for building the long-awaited bridge across the Ohio River between Boone County and Lawrenceburg, Ind., is expected to begin early in 1953, it was announced last week by the Indiana Toll Bridge Commission.

The only bid received on a minor phase, the building of toll houses and office building, was \$90,000, topping by \$15,000 the engineer's estimate. It was given by Traylor Bros., Inc., Evansville.

A legal obstacle has appeared in the plans, but the commission will seek an opinion from the state attorney general.

Bids received on the two major phases were below engineers' estimates and acceptable, it was reported. Bates & Rogers Construction Co., Chicago, turned in the low bid of \$1,698,670 for the substructure. Low bid on the superstructure was \$2,648,277, given jointly by Mt. Vernon (Ohio) Bridge Co. and John F. Beasley Construction, Chicago.

The bridge, which will mark the culmination of a hope entertained for seven years, will connect W. Kentucky Route 20 in Boone County near Petersburg. The 2 1/2-mile road connecting the bridge approach and the highway will be built by Kentucky.

Bids on the revenue bonds will be received by the Indiana commission November 21st. The bridge will be financed by a bond issue, which will be retired from tolls to be collected.

It has been estimated the span, to be called the Indiana-Kentucky Memorial Bridge, will gross \$386,000 in revenue a year. The charge for one-way passenger cars will be 30 cents, for round-trip passenger cars 60 cents. Trucks will be charged on a sliding scale determined by weight.

Indications Point Toward Successful Event Saturday

When Burlington P-T. A. Sponsors Fall Festival At Burlington School.

From all indications the Burlington Parent-Teacher Association Fall Festival which will be held at the Burlington school building this Saturday evening and night will be one of the biggest and best community "get-togethers" ever held locally. There will be something of interest for all.

The oyster soup supper which will start the evening will be served beginning shortly after five o'clock and will last till everyone is served or until all the food is gone. Besides the soup, Mrs. Sam Ryle who is chairman of the supper committee, states that there will be ham sandwiches, celery, pie and coffee.

Mrs. Ryle has requested that all donors of milk for the supper have it at the school at least by three o'clock and those donating pies have them there by five o'clock.

Mrs. Albert Seebree and Mrs. Orville Seebree of the advertising committee report that there will be more than one hundred prizes offered in the exhibit contests. A list of the exhibits, which were carried in the newspaper last week, are available at the school or at any business place in Burlington. Enter something and take home a prize.

Edwin H. Walton, chairman of the booth committee, states that the gym will be full of interesting contests of skill and "luck." Featuring activities there will be the "Turkey Contest," basketball free-throw, and the Cake Walk. This committee reports that they still need more cakes and they would greatly appreciate it if those who have not been contacted by the supper committee would get on their cookbook and join in the community spirit.

Your presence at the festival may mean that you will have a turkey for Thanksgiving or you may be the winner of the door prize, government bond and most certainly it will mean that you have had an enjoyable visit and that you have helped the youth of the community through the Parent-Teachers Association.

Hunting Season Officially Opens November 20th

Hunting Prospects Are Better Throughout State Says Department.

Kentucky's nimrods start on their annual pilgrimage in quest of quail and rabbits today (Thursday), November 20, and early indications are that they should have better than average success. Reports from throughout the state, the Department of Fish and Wildlife Resources claims, indicate that hunting for both rabbits and quail generally throughout the state should be better than for last season. In many sections great increases in the supply of rabbits and birds are claimed, while in other areas it is reported that the populations are just about the same as for last season.

On the above named date, the ruffed grouse hunting season opens as well as hunting with dogs and guns of furbearing animals. The trapping season also will commence on November 20 and continues through January 18. The duck season opened Monday, November 17, and continues through January 10.

The season closes on rabbit, grouse and quail on January 18.

There will be a deer season on Kentucky Woodlands Refuge in the western part of the state for bow and arrow hunters. It will begin on Monday, November 24, and continue through December 6, with no hunting permitted on Sunday. The bow and arrow hunters must have a hunting license, and must check in at the Woodland Superintendent's office near Golden Pond.

Hunting will be restricted to certain areas and only one deer may be killed by a hunter. He may take either a buck or doe of the Fallow species, but only a buck of the whitetailed family.

The bag limit for rabbits this year is eight, with a possession limit of 16 after two or more days of hunting. The daily limit on quail is six, but 12 may be held in possession after two or more days of hunting. Only two ruffed grouse may be killed. Each hunter must have a state hunting license, however, a junior license which costs one dollar, may be obtained by hunters under 16 years of age. All shotguns must be plugged so as to hold not more than three shells in the barrel and magazine combined and the plug must be of such a type to be incapable of removal without disassembling the gun.

There is no limit on the number of furbearing animals that may be taken.

Statewide hunting licenses cost \$3, while non-resident hunting licenses are \$15.50. Resident trapping licenses are \$3, while for non-residents the cost is \$15.50. Resident furbuyers licenses cost \$5 while for a non-resident buyer the cost is \$75.

Burlington Boy Will Receive Air Medal

When Bloodmobile Visited Florence On Armistice Day.

When the Bloodmobile visited St. Paul's School at Florence on Armistice Day, Nov. 11 under the auspices of Boone County Chapter, American Red Cross 77 pints of blood were collected for the Department of Defense. Mrs. Agnes Atha, of Walton rural route, walked two miles to Beaver where she caught a bus and came part of the way and finished the balance of the trip with a friend to give blood. Garage, Rouse's Oil Station, Leo Brophy Insurance, Consolidated Telephone Co., Florence Deposit Bank, Denham's Drug Store, Florence 5 and 10c Store, Mrs. Louella Houston.

The Rainbo and Buttertut Bread Companies donated the bread for sandwiches for donors and Louis Riddell cut the ham. Mrs. Domaschko chairman and the Red Cross wish to thank these folks for their help. Thanks is also extended to this newspaper for the publicity.

The LifeLine Committee and the blood donor solicitors who made door to door solicitation for blood, the fine nurses under the chairmanship of Mrs. Jack Caldwell, and Rev. Edward Carlin, pastor of St. Paul's Church and school for the use of the building and Ross Russ, moving supply chairman.

Eugene Cuneo Captured Tuesday By Airport Police

Among Trio Escaping From Covington Jail Monday Night.

Eugene (Monte) Cuneo, 24, of near Hebron, was captured on a farm late Tuesday afternoon near the Greater Cincinnati Airport, less than 24 hours after he escaped from Covington Jail. Charles Bond, a special police officer on duty at the airport captured Cuneo on the Spence farm, adjacent to the field.

Cuneo, who knew the Spences, said he went to the farm to seek something to eat. He said he had not eaten since Monday.

Mrs. Spence seeing Cuneo outside the house, went nearby to the airport and notified Officer Bond. The officer said he saw Cuneo attempt to escape into a field, and fired shots by his head before the prisoner stopped running.

Cuneo is charged with the rape of a 12-year-old Covington girl, and his trial set for yesterday (Wednesday).

Upon being questioned Cuneo stated that the trio split up after leaving the jail. He admitted that the two other men had planned the escape well in advance.

Cuneo's clothes were torn when he had walked overland since the flight before through heavily wooded sections. The man said he had slept in a field Monday night.

Total of \$5,739 Paid In Old Age Assistance In Co.

During Month of October According to Report of Security Division.

Public assistance payments for October totaled \$3,307,421 or \$504,954 above the sum paid during September, Aaron Paul, director of the Department of Economic Security's Division of Public Assistance, reported this week.

The increase was made primarily because of additional sums made available by the Congress and anticipated balances of state funds resulting from case load reductions

in the field of the aged, dependent children and needy blind.

Payments in Boone County for October were \$5,739 of which \$5,260 was for old age assistance, \$316 for aid to dependent children and \$163 for aid to the needy blind.

Paul explained that maximum payments under the state-federal program were raised from \$50 to \$55 a month for both the needy aged and needy blind, while maximum allowances for aid to dependent children has been raised \$3 a month.

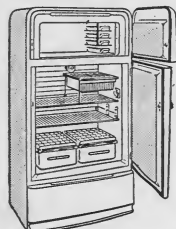

Old age assistance rolls have been decreased 13,000 in recent months, aid to dependent children's rolls have declined 10,000 and aid to the needy blind 150—making available larger average payments to the recipients.

Need Money to Improve Your Farm?

HERE'S THE ANSWER! "We never were able to improve our farm until we got a long-term, 4%, amortized Federal Land Bank loan."

"Then, our payments were so much smaller that we took the difference and improved the whole place. With lower interest we had money left to lime, fertilize, build up our pastures, put back fertility taken out by crops, buy better livestock, paint buildings, keep up our fences, put modern conveniences in the house and improve the whole farm."

That is the story has been told time and time again by farmers who financed their farms with Federal Land Bank Loans. The low, 4% interest rate with amortized principal payments made the difference between "keeping the farm up" and "just barely getting by." Find out how a Federal Land Bank Loan can help you—**TOOAY!**

RESOLUTION

NOVEMBER 11, 1952

Whereas the Boone County Board of Education is erecting a school building in territory recently annexed to the City of Florence, on Price Pike, and is desirous of having the city water mains extended from its present terminus so as to serve said school building, and the Board of Trustees of Florence, Kentucky, having found said water main to be a necessity.

Now, therefore, be it resolved by the Board of Trustees of Florence, Kentucky, as follows:

1. That a six-inch, Class 250, cast iron water line, together with the necessary appurtenances, be laid and constructed under and along Price Pike in the City of Florence from the present terminus of the city water main, thence along the west side of Price Pike in a north-westerly direction a distance of 510 feet, more or less, to the service line of the Boone County High School.

2. That said proposed improvement be classed as a stage improvement.

3. That the total cost of said improvement be assessed pro rata, on an abutting foot basis, against the owners of land fronting on said improvement.

Passed and adopted and ordered published this 11th day of November, 1952.

G. R. SCOTT, Chairman,
Florence Board of Trustees.

Attest:
WILLIAM FITZGERALD,
City Clerk.

GASOLINE 4,800 GVW to 90,000 GCW
DIESEL 19,500 GVW to 100,000 GCW
A product of General Motors engineering

**Built with features usually
reserved "for big trucks only"
—that's why GMC's last longer!**

THERE's extra value in a GMC pickup, stake or panel truck because there's extra quality in the way it's built—a long list of heavy-duty features that are usually reserved by other manufacturers for their "big trucks only."

First, there's the sturdy, truck-built valve-in-head engine—protected against wear and breakdown by the same features you find in the big 200-H.P. GMC's: Tocco-Hardened crankshaft, airplane-type main and rod bearings, full-floating piston pins

and rifle-drilled connecting rods carrying full-pressure lubrication all the way to the piston pins.

There's extra stopping power in a GMC's burly brakes, extra strength in its deep truck frame—extra comfort in a GMC's longer "pillow-action" springs, extra ease in a GMC's recirculating ball-bearing steering.

They're features usually reserved for "big trucks only"—yours in a GMC at no extra cost. You won't find a better truck on the market!

Walton Woman's Literary Club Entertained In Home of Mrs. Alan Gaines

"Recapturing the Spirit of the Time" was the topic of an interesting talk given by Mrs. Charles A. Vaughn at the November meeting of the Walton Woman's Literary Club, which was delightfully entertained in the home of Mrs. Alan H. Gaines. The speaker, who was introduced by the program chairman, Mrs. H. F. Mann said that if our citizenship of today is to live, we must recapture some of the ways of the pioneers and that we owe a debt of gratitude to Christopher Columbus, who had the faith and courage to cross the untried ocean and come to this country in the face of many difficulties.

Mrs. Vaughn paid tribute to the Pilgrims, who came here in order that they could have a place to worship, according to their conscience. She said that the most noteworthy memorial in our country is a plain white marble slab on which are engraved the names of those, who first

landed on the Plymouth coast. She quoted Ralph Sockman who said, "The ultimate of our civilization should be truth, beauty and goodness."

The meeting was opened with the pledge of allegiance to the flag, which was led by the president, Mrs. Julia A. Rouse, followed by the club collect.

Mrs. J. C. Bedinger conducted the devotional with an inspiring talk. She said that we are endowed with bodies, mind and spirit and that we should take care of our bodies to the best of our ability and that we should cultivate and enrich the mind and spirit closing with "We should thank God for His care over us."

Mrs. Mann led the group in singing "Faith of Our Fathers." Mrs. Wallace K. Grubbs, representative of the Woman's Club to the newly organized Walton Youth Center, reported that Mr. John Durham, member of the Walton-Vernon High School faculty, has been selected as president of the senior group and Bobby Mudman has been selected as leader of the

junior members. Mrs. Grubbs said that a meeting will be held at an early date with these and representatives from the churches and other local organizations.

Mrs. A. R. Conner, of Florence was welcomed by the president, Mrs. Rouse, as a new member of the club.

Delicious refreshments were served by the hostess at the conclusion of the program.

Members in attendance were Mrs. J. C. Bedinger, Mrs. C. S. Chambers, Miss Jean Chambers, Mrs. J. R. Conrad, Mrs. E. E. Fry, Mrs. A. H. Gaines, Mrs. A. R. Conner, Mrs. Wallace K. Grubbs, Mrs. J. L. Hamilton, Mrs. Clayton Jones, Mrs. D. L. Lusby, Mrs. H. F. Mann, Mrs. J. E. McCabe, Miss Emma Jane Miller, Mrs. John Meyers, Mrs. James Powers, Mrs. C. W. Ransler, Mrs. G. C. Ransom, Mrs. S. D. S. Ransom, Mrs. Julia A. Rouse, Mrs. W. O. Rouse, Mrs. W. W. Rouse, Mrs. W. D. Scroggin, Mrs. A. P. Stephens, Mrs. Forest Thompson, Mrs. D. Hess Vest and Mrs. E. B. Wallace. Hughes, Mrs. Leo Flynn, Mrs. J. B. Johnson and Miss Louise Conrad.

We Give Thanks

Like our forefathers of long ago, we give thanks for the blessing of food, clothing and shelter, freedom and opportunity, and for all the spiritual and material benefits enjoyed by all of us.

This country affords truth and justice, though we sometimes question this. It is not until we read of the bigotry, intolerance and prejudice that floods other countries that we are alive to our own rights and benefits. There are few of us who would exchange what we have for what they have.

As we gather around the festive board this Thanksgiving Day we should consider what we have as Americans, giving thanks to God for His many blessings. We should be grateful that the airplane flying overhead isn't pointing out our community for destruction, that our newspapers and radios are not controlled by the government, and that we are still a free nation.

With heads humbly bowed before Him, who is the giver of every good and perfect gift, let us offer up a prayer that He will continue to lead us in the future as He has in the past, and humbly submitting our lives to Him from whom all strength and wisdom flows.

Burley Market Will Open In Kentucky Monday, December 1

Opening Delayed Due To Prolonged Drouth Throughout State.

The 1952-53 burley tobacco market will open in Kentucky Monday, December 1st, it has been announced by warehouse officials.

Opening of the burley market was delayed this year due to the prolonged drouth throughout the state which made early stripping of the weed impossible.

This year's crop will be from 5 to 10 per cent below last year's in poundage, with the quality reported not quite so good because of the drouth. Last year Kentucky's burley crop totaled 518,000 pounds, but the estimated drop suggests the 1952 crop will total roughly 450,000 pounds, according to U. S. Department of Agriculture figures.

Federal price supports for burley this year are slightly, but not appreciably, below the 1951 support price. The government support price last year was \$49.80 per 100 pounds compared with \$49.50 this year.

The Covington market with two houses will open on December 1st, with the Kenton Loose Leaf Warehouse holding the first sale, while the Covington Independent Warehouse, Erlanger, will have its first sale December 2nd. These two houses alternate selling days, with the Kenton house having first sale.

Reports from various sections of the county indicate that Boone County's burley crop this year is of high quality. Poundage is expected to be somewhat less than the previous year.

Burlington Eagles And Hebron Cards Turn In Victories

John Crigler, Hebron Pivot Specialist Scores Forty-Three Points.

The Burlington Eagles opened their basketball season last Friday with a 48-42 win over Gallatin County at Warsaw and Hebron's Cardinals won their second victory and first in Boone Conference play as they downed the Tigers of New Haven 98 to 68 at the loser's floor.

Boone County's other three representatives didn't fare so well. The Florence Knights lost to Erlanger 60-52, Walton lost to the Dayton Greendevils 59-43 and then New Haven's loss to Hebron.

Of most interest was Hebron's surprisingly easy win over New Haven. The chief difference in the game was Hebron's John Crigler, elongated pivot specialist, who dipped the nets for 43 points. The Cards led most of the contest except for early in the first quarter. They held 28-20, 47-39 and 70-48 leads at the first three stops. Cook with 20 points paced the Tiger offensive. The Card scores also won by a 72-29 score.

Eagles Off Good

Burlington's Eagles showed unexpected strength in defeating a fast Gallatin County five by a 48-42 count. The game was close during the first two quarters with the Eagles holding 8-7 and 22-19 leads, but Burlington's team came back after the halftime to sew the contest up with an 18-point quarter while holding the losers to seven points. Scoring for the locals was well distributed as Patterson and Brown split 14 point, Dringenberg had eight, J. Ryle 11 and W. Ryle 15. For Gallatin County Yancy had 13 and Sosby and Howell had eight each. The Burlington Reserves made it a clean sweep with a 26-24 win over the Gallatin seconds.

Knights Lose Close One

The Florence Knights put up a nip-and-tuck affair with Erlanger 60-52. The winners scored 20 points in the final half while holding Florence to 11 tallies. The winners held a 27-26 halftime lead.

For the Knights Hudson had 10 points, Denner 7, Luck 15, Markesberry 4, Utz 13, Maddox 1, Yelton 1, and Taylor 1. Schneider paced the Jugs with 23 points. Erlanger's reserves won 42 to 23.

Cats Lose

The Dayton Greendevils defeated the Walton Bears at Dayton Friday night in rather easy fashion. The Greenies held a 11-8 first quarter margin, increased it to 32-21 at halftime. Smith led the Bearcat scoring with 15 points and Vest had 11. For the winners Murray had 16 and Boothe 18. Dayton's reserves won 44-26.

Second Test Well Will Be Drilled This Week, Is Report

Bountiful Supply Of Water Struck In First Well.

Drilling operations on a second test well was started this week by the A. R. Posey Co., of Cincinnati, on a tract of land of the McGlasson farm near Taylorsport, according to Judge C. L. Cropper.

The second well will be a six-inch shaft similar to the one drilled recently on the same tract of land. The first well which was sunk is reported to be one of the best struck by the Posey Co., in many months. It is expected that the well will produce over 2500 gallons of water per minute.

Tests are being made of the water struck in the first well, Judge Cropper stated. It is expected that the water will be of high quality with the iron content at a minimum.

A survey will be made by engineers to determine the number of water customers available, it was Boone County Water SystemETA reported. The number of customers using water from the Boone County Water System will determine the number of wells that will be necessary to supply the demand.

An adequate distribution system will be set up by the commission which will supply the county and adjoining territory provided enough customers are interested in obtaining water from the commission.

The board charges whisky was sold at the Stephenson cafe though their state permit granted only the privilege to sell beer.

Kentucky's first public school system was established in 1838.

BANK EXAMINATION

Bank examiners completed the regular annual examination of this bank in two and one-half days last week. They stated that they had never examined a bank of our size in such a short time. All accounts being in balance and our loans being in good condition made for a rapid audit.

The only bad feature was the fee we had to pay of almost \$300.00 for this examination.

We welcome an examination anytime. Our customers are entitled to feel and know that their business affairs are safely administered at all times.

Need Money to Improve Your Farm?

HERE'S THE ANSWER! "We never were able to improve our farm until we got a long-term, 4%, amortized Federal Land Bank loan.

"Then, our payments were so much smaller that we took the difference and improved the whole place. With lower interest we had money left to lime, fertilize, build up our pastures, put back fertility taken out by crops, buy better livestock, paint buildings, keep up our fences, put modern conveniences in the house and improve the whole farm."

That kind of story has been told time and time again by farmers who financed their farms with Federal Land Bank Loans. The low, 4% interest rate with amortized principal payments made the difference between "keeping the farm up" and "just barely getting by." Find out how a Federal Land Bank Loan can help you—TOOAY!

Bolte Will Visit Erlanger December 2

Mr. Edward J. Bolte, field representative of the Social Security Administration, will be at the Post Office in Erlanger from 3:00 to 4:00 p. m. on Tuesday, December 2nd. He will receive applications for Old-Age and Survivors Insurance benefits under the Social Security law, as well as accept applications for social security account numbers. With Christmas holidays just around the corner, Mr. Bolte advises that students who are planning to work during the holidays should apply now for a social security account number card. Applications

may be obtained from Mr. Bolte on his regular visit. It takes 10 days to two weeks to obtain an account number, so your application should be made promptly. Remember, most employers will not put a person to work unless he has his social security card.

When only 25 years old, Gideon Shyrook won the competitive architectural contests which earned him the right to design Kentucky's Old State Capitol Building.

The old State Capitol building in Frankfort, erected in 1827, is one of the finest examples of Greek Revival architecture in the world.

SOCIAL SECURITY CARDS NECESSARY FOR EMPLOYEES

Many people who are not ordinarily employed, especially housewives and high school students, work for a few weeks before Christmas. To secure any temporary work in a store, office or factory, the applicant must have a Social Security card. If you plan to work and have never had a card, or if you have had a card and lost it, you should apply at once at the Social Security office in the Post Office Building, 7th and Scott's Streets, Covington.

It takes as much as a week to issue a card, so don't wait until you need one. Get it now.

When you secure work, whether permanent or temporary, whether for a few weeks or a few hours, always show your card to your employer. Make sure he copies your name and number correctly. The Social Security Administration also urges employees never to take down

an employee's name and number from anything except an official Social Security Card. If the person you want to hire does not have a card, tell him to go to the local post office, secure an application blank, fill this out and mail it to the Social Security Administration, 7th and Scott's Sts., Covington, Ky. If the person whom you wish to hire says he has a card but does not have it with him, take down his name, address, date and place of birth, mother's maiden name and sex and race. Keep these on file until the worker shows you his card. If he does not bring in a card, attach the identifying information to your tax return.

FOR KENTUCKY FOLKS

Seed Facts

Pasture seeding in Kentucky should reach a new high in 1953. Normal spring seeding will be augmented by reseeding of pastures damaged by droughts as well as by new seedlings of land prepared but left unseeded in the dry fall of 1952. Although the supply of some seed may be short, the total supply will be adequate. Farmers may have to change their usual seeding mixtures in some cases but if they will select seed which are in large supply and make their purchases early, pasture seedings may be made within the usual price range.

Kentucky produced large crops of blue grass, orchard grass, and fescue seed in 1952, but very small crops of clover and lespedeza. Blue grass seed supplies will be less than a year earlier because of smaller yields in the western area. A good red-clover crop in the west, augmented by a large carry-over from last year, will make that legume a good choice for pasture mixtures. White Dutch clover, ladino, and sweet clover seed will also be abundant and relatively cheap. Orchard grass supplies are normal and may be supplemented by imports. Fescue seed is abundant and very cheap. Lespedeza will be very scarce and high.

Usual seeding rates may be reduced, without affecting the stand, by supplying additional plant food, seeding at the proper time and by better placement of the seed.

In 1952, Kentucky led the nation in the production of orchard grass and fescue seed and ranked near the top in blue grass seed. This state produced 22.8 million pounds of fescue, slightly over half of the nation's 42.8 million pounds total. Kentucky's orchard grass production was 4.9 million pounds out of the U. S. total of 11.8 million.

Plymouth Prices Are Substantially Reduced

Four of the outstanding cars in the new 1953 Plymouth line are priced substantially lower than in 1952. John P. Mansfield, Plymouth Motor Corporation President, announced today that no models are increased in price despite great advances in engineering and design throughout.

"Lower prices of the four body types this year give the most sensational Plymouth value in history," Mansfield said.

Substantial reductions have been made in the factory retail price at factory, Detroit, Michigan, of the 1953 Cranbrook Belvedere and Cranbrook Convertible. The Convertible, at \$2120.00, is priced \$38.00 lower than the 1952 model and the Belvedere, at \$1975.00, has been reduced \$78.46.

The popular Plymouth Suburban, which appeared in the 1952 line as a cord line with a price of \$2002.06, is available in the finer Cambridge line for 1953 and is priced at \$1925. The Savoy, which also was a Concord model in 1952 selling at \$2117.13 is available in Plymouth's top Cranbrook line for 1953, priced at \$2558.00.

Prices of the 1953 Cranbrook 4-door Sedan, Cranbrook Club Coupe and Cambridge 4-door Sedan are

More Corn Per Acre on Midwest Farms Calls For Better Soil Care Plus Plant Food Use

MORE corn per acre—rather than just more acres in corn—is what is needed on many Midwest farms this year, reports the Middle West Soil Improvement Committee, in a statement issued here.

With the lid off on 1951 corn acreage allotments and prospects of a "feed squeeze" ahead, the need for more efficient soil management methods to build higher corn yields per acre is more critical than ever, says the committee.

Agronomists at Midwestern agricultural colleges are advising farmers to make long range plans now for high crop yields. They point out that the present international emergency may last a long time. And whether there is a hot or cold war, they will steadily need more food in the years ahead.

"The secret of getting and maintaining high corn yields per acre," says the committee's statement, "lies not only in providing a well balanced supply of nutrients, but in giving the soil a backlog of plant food and organic matter on which crops can draw."

"The use of lime and a complete fertilizer containing nitrogen, phosphate and potash is of top importance. Vital, too, is a rotation that centers around deep-rooted legumes such as alfalfa and sweet clover. Well-fertilized legumes, reinforced by manure and crop residues will add tons of valuable organic matter to the soil. This organic matter improves soil tilth, structure and drainage. It conditions the soil to make

It's the Corn per Acre, Not the Corn per Ear That Counts.

more efficient use of fertilizer and to produce more bushels of corn per acre.

"Important, too, in getting top corn yields is a planting rate that provides a big enough stalk population to take advantage of the soil's improved fertility. Planting more stalks per acre may cut the size of the ears, but it will increase yields by giving you more ears."

The committee points out that a complete starter fertilizer applied in the row at planting time will get your corn off to a fast, healthy start. It will help speed up maturity and avoid the danger of damage to the corn crop from early autumn frosts.

Tilth-Building Soil Organisms Get High Energy Foods from Spring-Plowed Legumes

Well-Fertilized Alfalfa Adds Tons of Organic Matter to Farm Soil.

WHEN you plow under a good stand of sweet clover early in the spring, you are supplying excellent food for the billions of soil organisms which work day and night for you below the soil surface.

These organisms need energy foods—nitrogen, sugars, starches—to do their vital job of rotting organic matter, fixing nitrogen, fighting plant diseases, building soil tilth and providing nutrients for growing crops. Well-fertilized sweet clover supplies these energy foods.

Dr. G. N. Hoffer estimates that a good stand of sweet clover will add as much as 6 tons of organic matter per acre to the soil. The tops and roots contain about 3 tons of dry matter, including about 1 1/2 tons of sugar, starches, nitrogen and other materials the organisms need.

A well-fertilized stand of alfalfa will give comparable results, research shows.

These top rooted legumes will distribute the material through a thick layer of soil. Their roots push far below the plow layer. When they have enough top growth in late summer and fall and the nitrogen, phosphate and potash and other raw materials they need, they will pack their roots with the sugars and starches. Then, when they are plowed under in spring, these sugars will be left distributed throughout the soil for the use of the organisms. Dr. Hoffer emphasizes that plowing should be done early in the spring. If you wait until big top growth occurs, the sugars and starches are pulled from the roots and part of their value to the organisms is lost.

Christmas Seal Campaign Now In Progress In County

Seal Sale Is Opportunity To Invest In Health, According to Association.

The Forty-Sixth Annual Christmas Seal Sale is now in progress throughout the nation, and again the Boone County Tuberculosis Association reminds the people of Boone County that it—the Seal Sale—is their opportunity to invest in health.

Seals have been mailed on a county-wide basis this year and already many have responded to the call—the call that helps to stamp out tuberculosis. Mrs. Kathryn Cropper, chairman of the seal sale and treasurer of the Boone County Tuberculosis Association, states that Boone County has for the past several years ranked high in the per capita contribution for the seal sale in Kentucky. She and Mrs. Sibbia Reimer, president of the local association, both were confident this week that the County would again reach her customary high mark.

They leave these reminders with the public concerning tuberculosis: There were nearly 34,000 deaths from TB last year. . . 93 a day. . . almost one every 16 minutes. . . 400,000 Americans are estimated to have active TB. There are nearly 115,000 new cases every year. . . TB treatment is so costly that 98% of hospitalized TB patients can't pay their hospital treatment. . . Causes more deaths than all other infectious diseases combined. . . Kills more persons between 15 and 34 than any other disease. . . Kills people of all ages.

Don't forget your Christmas Seals!

Plenty Hardwood Action Scheduled For Basketball Fans

New Haven To Meet Burlington and Florence In Conference Tilts.

There will be plenty of action on the hardwood for Boone County basketball fans this week. Two Boone Conference tilts, both involving the Tigers of New Haven will feature the local play.

The charges of "Red" Perkins will play host to Ralph Maurer's Burlington Eagles Friday night, Dec. 5, and then on the following night the Tigers will invade Florence for a tussle with George Maines' Knights.

Other games for the week include some with no bearing on Conference standings, but "natural" rivalries. Tuesday night it's Erlanger Lloyd Jugs at Burlington, Florence at Beechwood, and Walton at Simon Kenton. As this print reaches the public these three contests will be decided and their results will be a good barometer as to how Boone County teams stack up against the Northern Kentucky Conference quints.

Another test of the two leagues will be Hebron's game with Ludlow at Hebron on Saturday night. Crittenden's Bulldogs of the Penogran Conference will play at Hebron on Friday night and Williamson of the same conference will play at Walton the same date.

Games Last Week

The Burlington Eagles split even in two tilts last week. The locals learned a good basketball lesson from the Deming High Demons of Mt. Olivet last Wednesday night when they lost to the Robertson County five by a 67-41 count at the winner's floor. The game was closer than the score indicates as the Eagles trailed only two points 21-19 at the quarter and 35-27 at halftime.

The Eagles edged over Covington Catholic at Burlington Friday night by a 40-39 score. The Eagles took an early lead and held 15-6 and 22-10 leading at the first two stops. The visiting Colonels pulled up to 28-26 at the third quarter and tied the game 33-33 all midway in the final quarter. Burlington played the game without the services of Capt. Jerry Ryle who was ill. Burlington's seconds lost to both Deming High and Covington Catholic.

Hebron's Cardinals, playing what is expected to be one of the strongest teams in this section lost 69-43 to the Newport Wildcats at Newport last Friday. The cats led 22-10 at the close of the first period and they held a 32-25 halftime margin. The winner's big spurt came in the third quarter as they scored 21 points while holding the Cards to six points. Hebron's reserves won 41-31.

Florence scored a 76-51 win over Falmouth last Wednesday night at Florence. The Knights, playing their best game of the season, held leads of 16-6, 31-14 and 55-31 at the first three poles. The Falmouth reserves won their game 46-22.

Walton defeated Beechwood 64 to 47 last Tuesday night at Walton. St. Thomas of the Northern Kentucky Catholic loop defeated the New Haven Tigers by a 59-47 score at New Haven Saturday night. The visitors took an early lead and though outscored in the final two quarters coasted to the victory. St. Thomas also won the opener by a 32-24 count.

**Ewbank-Pryor**

The marriage of Miss Jean Ewbank, daughter of Mr. and Mrs. W. Ryle Ewbank, Warsaw, to Mr. Virgil F. Pryor, of Indianapolis, Ind., and the late Mrs. Hattie Pryor, was solemnized at 12:30 p. m., Saturday at the home of the bride's parents.

The double ring ceremony was performed by the Rev. William D. Smith, Rector of Holy Trinity Episcopal Church, Georgetown, before an improvised altar of oak leaves, fern and wedding tapers in cathedral candelabra.

The bride wore an ensemble of champagne moire with the gown designed along Princess lines, and its jacket was encrusted with pearls. She wore dark brown accessories and a half veil. She carried brown orchids on her white prayer book. Mrs. Pryor's attendants were her two sisters, Mrs. Pat James, Danville, Matron of Honor, and Mrs. Richard LeGrand, Warsaw, and Mrs. Whitney Gross and Miss Marilyn Sue McKnight of Georgetown, Bridesmaids. They wore iridescent taffeta gowns in fall colors and half veils. Their bouquets were fashioned in fall flowers, centered with chrysanthemums and cattails.

Robert A. Foust, Marion, Ind., was best man, and Charles E. Hamilton and Harold Parker, both of Georgetown, and Hugh Hood, were ushers. Following the wedding a reception was held at the home of the bride's parents. A three-tiered wedding cake centered the table. Mrs. Pryor is a graduate of the

University of Kentucky, College of Home Economics, and is Home Demonstration Agent in Scott County.

Mr. Pryor is a graduate of the University of Kentucky College of Law. He is a member of Pi Kappa Alpha social fraternity and Phi Delta Phi, honorary legal fraternity. He is engaged in the practice of law at Georgetown.

After a Southern wedding trip, the couple will make their home at 416 West Main St., Georgetown.

History of Florence Baptist Church Studied By Historical Society

The Boone County Historical Society, at its meeting on Friday, November 21, 1952, studied the history of the Florence Baptist Church. Mrs. Blanche Beemon, Clerk of the church, presented a paper giving the outstanding events in the nearly 100 years of the life of the church in Florence. Rev. Roy Johnson, pastor of the church, was present and added some interesting bits of information on the subject.

This is the second in a series of meetings on the history of the churches in the county. Others will be announced as the studies are completed.

Mr. Kenneth Kiefer, the president, presented the society with its charter. It was recently agreed that the society should be incorporated as a non-profit organization for the purpose of preserving an interest in the history and folk-lore of the county.

William Fitzgerald, the secretary, exhibited a photographic copy of the Act of the Kentucky General Assembly of December 13, 1798, for the division of Campbell County to form Boone County. The act was signed by Governor James Garrard. He also exhibited a photographic copy of the Act of January 27, 1830, by which the village of Connersville became the Town of Florence. Pittman Clondas, B. A. Collins, Jacob Shotts, Henry Stuck, and William T. Bainbridge were named trustees of the town. The act was signed by Governor Thomas Metcalf.

Need Money to Improve Your Farm?

HERE'S THE ANSWER! "We never were able to improve our farm until we got a long-term, 4%, amortized Federal Land Bank loan.

"Then, our payments were so much smaller that we took the difference and improved the whole place. With lower interest we had money left to lime, fertilize, build up our pastures, put back fertility taken out by crops, buy better livestock, paint buildings, keep up our fences, put modern conveniences in the house and improve the whole farm."

That kind of story has been told time and time again by farmers who financed their farms with Federal Land Bank Loans. The low, 4% interest rate with amortized principal payments made the difference between "keeping the farm up" and "just barely getting by." Find out how a Federal Land Bank Loan can help you—TODAY!

The local Post Office issues the following helpful information, relative to the Christmas mailing rush: Local mailers are reminded that drop letters (including Christmas greetings) must this year necessarily bear a 2c stamp. Unsealed greetings mailed anywhere in the United States take a 2c stamp (providing there is no written message enclosed). To get the very best service, seal your greetings and affix a 3c stamp—by doing so, and by putting your return address in the left hand corner of the envelope, you are assured of your greeting reaching its destination promptly and should the party have moved and left an address, your greeting will be forwarded on without additional cost, and if it cannot be delivered, it will automatically be returned to you. When you purchase your Christmas cards beware of the small size, as anything smaller than 3x4 inches requires 3c, whether sealed or unsealed.

Mr. and Mrs. David Osborn and family had as their dinner guests Sunday, Mr. and Mrs. Benny Grant, of near Idlewild.

We're glad to report Ella Osborn has recovered from her illness and is able to be out.

Death Rate Reduced From Tuberculosis Since Year 1907

Boone County Listed In Upper Bracket In Purchase of Seals

"Since the first Christmas Seal Sale in 1907, the death rate from tuberculosis has been reduced nearly 90 per cent and 6,000,000 lives have been saved that would have been lost had TB been permitted to kill at the rate of half a century ago," Mrs. Kathryn Cropper, chairman of the Seal Sale Drive in Boone County said this week. Mrs. Cropper also said that the death rate has been cut in two since 1945, when it was 40 per 100,000 population.

Boone County has always been among the highest counties of the state in relation to the purchase of seals—the means by which we fight this disease. Both Mrs. Cropper and Mrs. Sibbia Reimer, president of the local Tuberculosis Association, indicated that they were sure the county would again be among the leaders.

Recently in your mail you received a sheet of 1951 Christmas Seals. Proceeds from the sale of these Seals are used to finance T. B. prevention and control work of the voluntary tuberculosis associations throughout the county. So if you have failed to purchase your seals, do it now. It is a worthwhile Christmas gift—a gift of health.

Clothe The Needy Report Made By Mrs. Markesbery

Total of 175 Persons Clothed Since Project Was Started.

The following is a report to the people of Boone County, through whose cooperation the "Clothe The Needy" project of the Boone County Chapter, American Red Cross has been so successful.

The organization is proud of this service because it has filled a real need to the less fortunate of the county. Mrs. Bert Markesbery, county chairman of this project states that she has clothed 103 persons since the last Thursday of August, this year, and also that the project will be in progress one year on January 1st and during this first year Mrs. Markesbery and her committee have clothed 175 persons.

This has been made possible through using clothing that has been donated, money, feed sacks, yard goods, thread, buttons, needles, etc., that have been given through various organizations and individuals.

Rev. Edward Carlin of St. Paul's Church at Florence has donated the space in which the project is carried out, together with heat and electricity free of charge. Mrs. Frank Lee Dills donated a sewing machine and the Burlington Pike Homemakers' Club donated a pair of scissors.

Various ladies from different Homemakers Clubs also individual ladies go each Thursday from 11:00 a. m. to 2:30 p. m. and sew, mend and give out this clothing to the needy.

The history of this "Clothe The Needy" project in brief, is: Mrs. Elizabeth G. Nestor, the Executive Secretary, in making her home visits in line of duty, recognized the need for clothing of some sort for the various families she visited. In many cases they were without food and had large families. She devised the plan of soliciting used clothing with a central location for distribution. About this time, Mrs. Markesbery went to Mrs. Nestor stating that the Gunpowder Homemakers Club wanted to volunteer for some kind of Red Cross work. Mrs. Nestor told Mrs. Markesbery of her plan for clothing the less fortunate and asked her aid. Mrs. Markesbery accepted the county chairmanship of this new project, the Red Cross and the Gunpowder Homemakers sponsored it. Mrs. Markesbery has worked long, hard and diligently and deserves much credit for building up the service to its present point.

Different Homemakers Clubs are taking a month at a time in assisting Mrs. Markesbery and the Burlington Pike Homemakers Club of which the County President, Mrs. Albert P. Grogan is a member, is taking the month of December. Anybody desiring to assist in sewing, etc., may do so by contacting Mrs. Markesbery, who is always grateful for any help given.

There is much clothing ready for distribution. Those needing clothing must come with a letter stating their case, etc., from and signed by ministers of county churches, presidents of P. T. A., school principals, school nurse or head of recognized organizations such as American Legion, Rotary, Lions, Masons, Knights of Columbus, Eastern Star, etc.

This clothing is being collected for one purpose only, to give to the need. Look around you and if you see some one in need, give them this information.

Your Red Cross extends thanks for your cooperation.

Age 76 years and 4 months. His parents were the late Chas. Samuel, and Florence Ryle Smith. On Dec. 24, 1902 he was married to Sallie Rich, who survives him. He also leaves two daughters Mrs. Leonard Riggs, Burlington and Mrs. D. W. Miller, Big Bone; four sons, Jas. Stanley, principal Walton high school; Robert L. Florence; Wm. L. Interesting Letter Received From Former Co. Agent

The Recorder is in receipt of a letter from William Davis, former County Agent of Boone County, who is now stationed with the U. S. Agricultural Department in Karachi, Pakistan. The letter follows:

"Guess you fellows thought I would never write. I have been on the go a large part of the time since my arrival.

"I was very pleasantly surprised with Karachi. It's really a very nice town and one can buy most everything needed. Items imported from the U. S. or England are pretty high but local goods are cheap, so it balances out pretty well.

"My family arrived on October 18, and we had a grand reunion. I was certainly glad to see all the family. Peggy got off the plane calling for her daddy. I just saw her for a few seconds and then she had to go thru customs with her mother. The folks had a grand trip and enjoyed their day and a half layover in London. A friend of Ann Campbell's met them in London and took them to see the sights.

A friend of mine from the Agricultural Engineering Dept. at U. K. is here with me and his wife met my family in New York, so they could travel together.

"We stayed in the Palace Hotel in Karachi for a week after the family arrived and then moved into our apartment. It is a beautiful 5-room unit and completely furnished. A picture of the place is enclosed.

"We have four servants, a bearer, cook, sweeper and dhooli (he washes the clothes). Only two, the cook and bearer, stay around the house all day. The sweeper works about an hour in the morning sweeping and scrubbing floors and the dhooli washes and irons twice a week. I also have a fourth interest in a mali (gardener). These servants cost about \$70.00 a month. The bearer serves the food, dusts, takes care of our clothes and plays with Peggy. Mary says it is the first time in her life that she has been able to get up from the table, walk away, and never look back. The life seems to agree with the whole family.

"Shortly after I arrived here I took a trip to the Northwest Frontier Province to discuss the rural youth program with some of the workers there. I stayed a month and had some experiences I'll never forget. I visited a lot of villages on the trip to meet some of the agricultural people. The hospitality in the villages was wonderful. It was necessary to eat at every stop. I ate everything from fried minnows to pudding topped with pure silver leaf. Sometimes I ate with the usual utensils and sometimes with fingers. I also drank limeade made from sweet lime juice and canal water. I worried about getting sick from the food and water for a while but finally decided to eat and drink everything within reason and make

the best of it. So far I have made out o. k.

"One of the villages I visited was on the border of Kashmir and Northwest Frontier Province. We followed a mountain road thru Kashmir to a point four miles from the village and then began to walk. If you have ever walked four miles across mountains you know what it's like. The first mile was around the side of a mountain. We followed a path about a foot wide and the path was 500 feet above a river. It was a straight drop to the river. After successfully walking this path we went straight down the mountain to another river. Here it was necessary to cross on a swinging bridge. The bridge was about 150 feet long and about 75 feet above the water. It was a three-wire bridge. One wire to walk on and two to hold on to. Again we were successful in crossing, but scared to death. After a short rest we climbed to a plateau about 300 feet above the river. Here my buddy, a flatlander from Texas, gave out. I went on with the Agricultural assistant who was guiding. The trail led across the plateau, around the side of another mountain and down to a dry river bed. We walked along the river bed for about 1/4 mile and then began a climb to the village of Boi which sets on the top of another plateau 500 feet straight up.

"When I finally reached the top I was exhausted. My feet hurt, my head hurt, my heart was thumping, my side hurt and I was out of breath. In other words I was in a h— of a shape.

"I talked with the leader of the village about agricultural problems for about two hours and had dinner with him. When I started back he brought a saddled horse for me to ride back to the swinging bridge. The horse path went down the mountain another way, but it was just as steep. It was the first time I ever saw a crupper on a saddle to keep it from sliding over the horse's head. You have probably seen cowboys ride horses down steep banks in the movies. Well, that's the way the horse went down that d— mountain. Every time he went around a curve in the trail I could look 500 feet straight down just by looking between his ears. I figured the horse didn't want to fall any more than I did so I turned the reins loose and hung on. When I got back to the bridge my host said he had an easy way for his guests to cross. He had a crate wired onto pulleys on a cable. I was supposed to sit in the crate and be pulled across. I told him I would rather walk the swinging bridge, but he wouldn't consider it, so I doubled my long legs up and got in the crate. Two men pulled me across and I was right, I should have walked! What a h— of an experience. The rest of the trip back was uneventful but nerve-racking. I found out from my host at the village that I was the first American to visit his village. I can understand why none other had ever been there.

"About two weeks ago I went to India to study the village develop-

ment project they are working on. We have started a similar project here and needed some ideas.

"I went to Hyderabad State and spent three days with the U. S. Extension Advisor who is in charge of the U. S. team there. Hyderabad City is the capital of the State and the home of perhaps the world's richest man. The Nizam, as he is called, at one time had 300 wives. He's getting old now and has cut down to 90 wives.

"India, like Pakistan, is not the land of snakes and tigers as many people think. I saw some beautiful country around Hyderabad and New Delhi. The government buildings in Delhi are as beautiful as any I have seen. I hope to get back to Delhi some day to take a few color pictures. I didn't have time on my last visit.

"I have rambled considerably in this letter, but have said very little about my work.

"We are starting a Village Agricultural and Industrial Development Program here in Pakistan. As the name implies it is aimed at improving the total aspect of village life. As yet the program is in the planning stage but we hope to be in full swing shortly. The first item is the training of the village workers who will correspond to our County Agents. However, in this program their job will not only include agriculture, but many other programs such as health, communication, education, cottage industries, etc. Six training institutes will be set up for this purpose (three in West Pakistan and three in East Pakistan). It's a big job but we expect to see results in the not too distant future.

"Mary and her mother have just returned from some kind of a concert downtown. I don't go for the long-hair stuff myself, so I stayed home with Peggy.

"Drop me a line sometime and let me have the news in the county. "Sincerely, Bill."

We are sure there are many persons in Boone County that would like to write to Bill, so we are publishing his address:

Christmas Bazaar At Florence School Friday Night, December 12

By Charles Utz and Newell Graham

Hey! If you are interested in having the time of your life then here is some good dope! The Florence Parent Teachers Association is having a Christmas Bazaar that we can personally guarantee will be bursting at the seams with fun, enjoyment, and good old fashioned Christmas spirit. This gala event will be held at Florence High School on December 12, 1952.

So many features have been planned for this affair that we can not possibly mention all of them; but here are just a few that we think will give you an idea of what a wonderful time will be yours if you attend.

First, we would like to mention the spectacular prize that you might win as a door prize. A big, and we do mean big, turkey will be the prize given away for your Christmas enjoyment. You must be in attendance to win.

Next, we would like to tell you about a few of the highlights of the menu for the supper that will be served. There will be such treats as Coney Islands, hot dogs and chili. Also there will be homemade pie and good coffee. Assorted soft drinks will be sold.

Now, here is a real inside tip. If you attend the bazaar you will have a chance to get some of your Christmas shopping done at a reasonable price. There will be booths for handwork, novelties and candy. The homemade candy is the finest in Northern Kentucky. Another place where useful gifts may be purchased is in the Country Store of the Bazaar.

Here is some more big news! You have a chance to win a delicious cake if you walk in the cake-walk. For the kids, the Bazaar offers a round trip directly to the North Pole where they can meet and talk to Santa. They will be able to try their luck at drawing a surprise from Santa's pack.

Here is a chance to win a beautiful big doll and all you have to do is give the big doll a name. If your name is selected, you can take the doll home for Christmas.

We have listed only a few of the wonderful games and features of the Bazaar; there are many, many more. So come and join the fun, attend the Florence P.T. A. Christmas Bazaar.

Open House Held At New Haven

A program, "Past, Present, and Future," was given by the Sociology class of New Haven High School on November 6. It was under the direction of Mr. Norman Perkins, their teacher. The program was presented in connection with the "Open House" held for the parents on that day.

To commemorate the past, they played records of actual voices of famous men and women. Some of those heard were: Will Rogers, Adolf Hitler, Franklin Roosevelt, Harry Truman, and General Eisenhower.

For the present, they used the personal testimony of students in high school to affirm their reasons for taking their subjects.

Mr. Perkins predicted things that he expects to happen in the future. Those taking part in the program were: Mr. Perkins, Jack Feagan, George Baker, Reuben Jones, Alpha Halsey, Jill Feagan, Peggy Parker, Ronnie Crume, and Jerry Bell.

The basic aim of the program was to acquaint the parents with the school system, faculty, progress, development, and needs of the school. A Thanksgiving program, "Hansel and Gretel," was given by the second grade on November 26, under the direction of Miss Beverly Bower. The characters were: Hansel, Wendell Coffey; Gretel, Kathy Craddock; Mother, Victoria Moore; Father, Paul Tudor; Witch, Alice McWherty; Angels, Second Grade Girls; Gingerbread Men, Second Grade Boys.

Not Next Year??

In an interview with Mr. H. N. Ockerman, superintendent of Boone County schools, this week a "News" reporter learned that Mr. Ockerman doesn't think it possible for the new Boone County High School to be completed for occupancy next fall. Mr. Ockerman said, "there is simply too much money involved to risk rushing the job. For example," he said, "we could lay brick now, but there would be a great risk in doing so during the cold weather."

"The major part of all grading has been completed, practically all floor slabs have been poured and all the foundation is up and ready for the brick," Mr. Ockerman stated.

Some work will continue during the cold months Mr. Ockerman said and "you know these are big contracting companies doing the work and with good weather conditions they could possibly fool us all and have the entire building completed earlier than we anticipate."

The new high school building is located on Price Pike in Florence. It will be the new home for Boone County's four high schools, Burlington, Florence, Hebron and New Haven.

CHRISTMAS REVERIE

By Viney Wilder

The world has grown so small today

That Bethlehem's not far away,

The hills where shepherds watched by night

Are circled now by routine flight;

With speed and ingenuity

We've conquered earth's geography.

But still the angels' story chimes

Above a world of troubled times;

And still the gentle Christ Child knocks

On doors where hate has forged the locks

And turned the hearts of men once more

Down evil, twisted paths of war.

The world has grown so small today

That men must lose their pride and pray

That love will motivate the mind

Till peace shall come for all mankind.

"THE NEWS"

Interesting Program Featured At Florence

Lorraine Utzinger

On November 13, 1952 a fascinating demonstration with electrical apparatus was performed at Florence High School. Mr. Strickfaden performed feats which seemed like magic. He used magnets to make music, light, color, and sound. He used Bonnie Brown, Charlotte Brown, Clyde Aylor, Jackie Brown, Randall Rouse, and Billy Hughes to help put into the students the different demonstrations. Each of his displays was explained in understandable terms, and emphasized that truth is stranger than fiction. It was interesting to all the age groups.

Mr. Grath Wells, a G-man, gave a very interesting talk about the F. B. I. He demonstrated how to read and obtain finger prints. An F. B. I. man must be able to pass strict examinations, have high ideals and morals, and be extremely alert.

Court procedure was explained by Mr. William McEvoy, Boone County Attorney, in October 1952. He gave a fictitious case as an example to show the court procedure from the first step to the aquittal or conviction.

Rev. Roy Johnson from Florence Baptist Church gave a talk entitled "The 4-H." We appreciated his talk and hope that we may follow his advice.

Mr. George Stoll, President of the Stoll Oil Company in Louisville, Kentucky, gave a splendid talk entitled "Sheep, Dogs, and College Professors." Mr. Stoll is very interested in young people and besides his business professions, he donates time to the American Federation of Churches.

GUESS WHO SAID THIS: "American Efficiency is that indomitable spirit which either knows not will be deterred by any obstacle which plugs away with business-like perseverance until every impediment has been removed—that simply must go through with a job once it has been tackled." Time Magazine says that Josef Stalin made this remark 25 years ago.

The school would like to "Thank" all who helped make the Halloween party successful.

Total enrollment in Boone County schools as of November 1, 1952, was 2,215 Mrs. Sibbia Reimer, supervisor of schools, reported recently. The county's census (total number of youngsters from 6 to 18 years) totals 2,532, she said. This, she said, means that only 317 pupils are not in our schools and of this 317 slightly more than 200 are enrolled in private schools and public schools outside of the county. A few of the remaining number are youngsters who are in the service or have graduated under the 18-year age limit. Some feel, too, are children who have reached their sixth birthday but were not started to school because parents wished to wait until their seventh year before enrolling them.

(Don't feel bad if you didn't get them all. See how many your teacher can get correct.)

A Russian youngster's dog had a litter of puppies. "These are real Communist puppies," he said to his friends, proudly.

About a week later, he wore a doleful look. "The puppies are now Democrat puppies," he muttered. "Their eyes have opened."

...And Mr. Perkins Is A Great Guy

New Haven gained a new coach and teacher this year. We are very happy to have Mr. Norman Perkins with us. Since he is new to us, let's find out a little about him.

To quote Mr. Perkins, he was "born at an early age in Elsmere, Kentucky, so he would be close to his mother." This all took place in 1928. His first memory was when the doctor hit him on the back, which he says made him so mad that he didn't walk for eleven months and didn't talk for fifteen.

He attended grade school at Elsmere and they tore the school down to get him out. After they got him out of there, he journeyed over to Lloyd High School, where he majored in athletics, study hall, and being a general ladies' man. Upon graduation, he received a football scholarship from the University of Kentucky. After completion of the football year, he took the school down to get him out. After they got him out of there, he journeyed over to Lloyd High School, where he majored in athletics, study hall, and being a general ladies' man. Upon graduation, he received a football scholarship from the University of Kentucky.

After the Navy and he decided to part, he attended Georgetown College, where he received his A. B. in Physical Education. He minored in History, Sociology and Women.

He taught last year at Burlington High School. He has always wanted to be a coach and the opportunity came to him through New Haven. He says he has received many golden hours of enjoyment with us but knowing our gang, we want to credit him with nervous of steel. His hobbies are eating and sleeping. His aim in life is to make money, money, money—I guess this is to help pay for what he calls his expensive pastime, namely, women.

Seriously speaking, his biggest ambition is to help prepare youth for the future. We think that's a great ambition—and Mr. Perkins is a great guy.

Florence High School Classes Organize

By Lois Caudill

The Florence Senior class consists of 14 students of which Barbara Denham is President, Jennie Tanner is Vice President, Billy Maddox is Treasurer, Mary Hughes is Secretary, and Herman Hahn is Sergeant-at-Arms. They have received their much anticipated class rings but are still waiting impatiently for their Senior pictures, which they expect to receive before Christmas. The work on the annual is well under way. Present plans call for a bigger and better annual than Florence has ever had before.

Another rather small class is the Junior class which has 16 students. Their class President is Larry Duncan, the Vice President is Phyllis Scott, the Secretary is Lorraine Utzinger, the Treasurer is Charlotte Duran, and the Sergeant-at-Arms is Bernard Hudson.

Out of the large group of the Freshman class, Dottie Dolwick was chosen class President; Charlie Utz, Vice President; Evelyn Miller, Secretary; Albert Bonar, Treasurer; and the two Sergeants-at-Arms are Newell Graham and Buddy Markesbery.

The Sophomore class officers are, Lois Howard, President; Jerry Connors, Vice President; Randall Rouse, Secretary; Clyde Aylor, Treasurer; and Frankie Dixon is Sergeant-at-Arms.

Miss Lemming is the director of about 35 students who are in the Chorus. Janet Dolwick and Sue Ashcraft are the pianists. They are planning to have a Christmas program with the cooperation of the Y-Teens and Hi-Y.

HAMILTON SCHOOL NOTES

The total enrollment of the Hamilton school is 98. The first and second grades, taught by Mrs. Ruth Mason, has 38 students, 25 of which are in the first grade. Mr. and Mrs. Dave Caudill teach grades three through eight. The enrollment for these grades: Third has thirteen; fourth has eighteen; fifth has four; sixth has thirteen; seventh has six and eighth has nine.

There are three school clubs: 4-H Club, Hamilton Junior Sportsman Club and "The Club" Mrs. Caudill "gets us" with it we run up the steps. Officers of the 4-H have not been elected yet. J. Malone Doolin is president of the Sportsman Club, Duane Black is vice-president, Dean Woods is treasurer and Herman Allen is secretary.

Honor roll pupils for the first period (all A's including conduct) were Kenny Williamson, Janny Aylor and Brenda Setters of First Grade; Elaine Moore and Vonley Nunn of Second Grade; Jo Ann Freeman of Fourth Grade; Herbert Richardson of Fifth Grade; Joy Feldhaus of Sixth Grade and Vernice Stephens of Eighth Grade.

Second period honor roll students were Elaine Moore of the Third Grade and Vernice Stephens of the Eighth Grade.

Notes

Twenty-two families represented in our school have television sets. All the students of this school live on farms. All teachers live on farms. Many of the school children raised their own tobacco crops. There has been no serious illness this year. And there has been no high water to prevent buses running to school. Bus drivers are Bud Aylor, Mrs. Cliff

Stephens. Mrs. Stephens is also lunchroom cook. Mrs. Joe Hodges is her assistant and Mrs. Hodges is also custodian of the building.

CONSTANCE SCHOOL NOTES

The third, fourth, and fifth grades organized a class club on September 15th, and elected the following officers: President, Emma Lou Dalton, Vice President; Carroll McKlasson, Treasurer; Raymond Reeves and Hope Ellis, Secretary.

The name selected for the club is the 345 Citizenship Club, and the purpose of the club is to try to help children today to become better citizens tomorrow. Present projects are to practice safety and health and to purchase a Bible and a flag for the room.

The Constance Corncracker 4-H Club had 100% completions in 1952. They met recently with Mr. Claxon and Mrs. Aylor, County Agent and Home Demonstration Agent and planned for the 1953 projects. The election of officers was postponed to the next meeting.

The lunchroom recently purchased a new 16 cu. ft. International Harvester Deep-Freezer from Calvin Cress & Sons, Burlington.

The school library has just received about \$100 worth of books. The librarians are listing them. The librarians are Jackie Coyle and Mary Ballinger.

The twenty-seventh annual oyster supper sponsored by the P.T.A. was at the school Saturday night, November 22d. The social was well attended. Mrs. William Joseph was named prize prize for obtaining the most P.T.A. members. The prize was \$10 given by Mr. Lents, principal of the school. There are 102 members.

The P.T.A. will have its Christmas party at the next meeting Wednesday evening, December 17. A large crowd is expected.

Sense and Nonsense

Wonder why Betty Moyer is looking so sour these days? Could it be anything about Butch Rollins? Mary Ballinger and Don Tunning like to sit together to study.

It seems that Jackie Coyle is worried. It may be because her boy friend, Jimmie Klassner is looking with one eye at Louise Keaton.

Pat Joseph was ill recently, and Charles Masters did not know whether it was proper to visit a girl friend while she was ill.

Aneta Hempling says that she doesn't have any preference among boy friends, because they are too much like street cars—one coming along every fifteen minutes.

FLORENCE GRADE NEWS

Mrs. Yelton's room is having fun making Christmas decorations for their room and Christmas tree.

Mrs. Jones's room seems to be having an epidemic of mumps and half of the room is sick with them.

Mrs. Markesbery's room is proud of the new books they have received and they are expecting more. They also have a basketball team this year that will make its debut this week. David Dixon is the captain of the team.

Miss Bonnie Schram's room also has a basketball team. Their captain is Danny Coppage.

Mrs. Pettit's sixth grade appreciates the new library books which they received last week.

This year Mrs. Slater's room is giving the Crippled Children's Fund some money for Christmas.

The eighth grade is sorry to report that Gary Butcher has left them to go to another school.

The room also drew names for Christmas presents and they hope to have a lot of fun at Christmas.

Miss Sebree's room has made a frieze of the exploring in America during the days of the colonies.

Gary Saff, from Picadome School in Lexington has been visiting Miss Sebree's room this week.

The fifth grade has also made a study of the more recent artists. Many interesting pictures were obtained from the church bulletins.

HEBRON Y-TEENS

On September 19 and 20, 18 girls and 5 mothers including our advisor, Mrs. Fowler, went to Butler State Park, Carrollton, Ky., for the Fall Conference of the Y-Teens of Northern Kentucky. They all had a wonderful and inspirational week-end.

On September 30, the organization elected new officers. They are: President, Virginia Herbstreit; vice president, Jane Rogers; secretary, Maxine Collins; treasurer, Carol Clayton and song leaders, Mary Lou Utz and June Kruse.

This year, the club plans to give clothes and other articles to needy families at Christmas and we hope to have a Mother and Daughter Banquet sometime in the spring. The Y-Teens also decided to send 8 boxes of chocolates to Korea.

This love that keeps them burning; In sympathy and trust; God help us that no lamp goes out Because we let it rust.

There was a boy for every girl at New Haven?

Ronnie Crume couldn't flirt? (Does this paper go to Florence? Ohhh!)

The Senior class had some more girls?

The seventh and eighth grades never lost their books?

All the senior boys came to school on time?

Florence

Mr. and Mrs. Harold Ramey recently entertained with a family dinner at their home on Highway 25, Erlanger, including as guests Mr. and Mrs. Clyde Arnold, Mr. and Mrs. Sherman Peeno, of N. College Hill, Mr. and Mrs. Norris

Riddell and children and Walter Arnold. Mr. and Mrs. Wm. Floyd (nee Sally Souther) of Akron, Ohio, departed recently for a motor trip to California to enjoy a well earned vacation.

Friends of Mrs. Clyde Arnold regret to learn she has been confined to her home with illness the past week and join in wishing her the best.

Your local post office asks the following favors of all patrons of the post office and rural routes.

Due to the tremendous bulk of outgoing mail to be handled, you can be of much assistance if when depositing your greeting cards, you present them at the post office window or to your rural carrier tied

securely in bundles. If you will, it will be appreciated if the bundles be sorted as to local or out-of-town. Buy your stamps early and get your greetings on the way so that they will have ample time to reach their destination. It is most important that your parcels be in the mail at the earliest possible date unless you intend to send them Air Mail. Be sure your parcel is wrapped and tied securely so that the wrapper will not be lost in transit. Remember, these parcels must be handled many times and some of them must travel long distances. Every effort will be made to give you the service you so rightly deserve. Again, for your convenience, we give you the rates necessary for your greetings: A 2c stamp will take your greetings anywhere in the United States, unsealed as long as no message is enclosed. If you wish to seal your greeting, and enclose a Christmas message, affix a 3c stamp and be sure to put your return address in the left hand corner of the envelope—this entitles your greeting to directory service, which means if the party has moved, the receiving post office will forward it on if a forwarding address is on file—if not, then your card will be returned to you at no additional cost. Do not send greeting cards smaller than 3x4 inches unless you affix a three-cent stamp. Many thanks for your consideration in the past.

The Ladies' Auxiliary of Boone Post American Legion are sponsoring a turkey bowl bingo social at the Legion Home on Wednesday evening December 10, 1952 at 8:00 p. m. You and your friends are extended a most cordial invitation to attend.

On December 18, one week prior to Christmas, the Ladies' Auxiliary of the Florence Volunteer Fire Department are sponsoring their monthly pillow slip bingo social to

be given at the Fire Hall and Community Center for the benefit of the building fund. Game time is at 8:00 p. m. Come and swell the crowd. Tell your friends about it. Mr. and Mrs. James R. Rice, Jr., formerly of Burlington Pike, and now of Verona, Ky., are receiving congratulations upon the arrival of a baby daughter the past week at St. Elizabeth Hospital.

The Boone County Baptist Sunday Schools will meet Monday night, December 15, 7:45 p. m. at the Sand Run Baptist Church.

Rev. Kirtley Jolly, pastor of the Independence Baptist Church will speak on "Relationship of the Sunday School to the Worship Service." There will be special music and Bruce Campbell will have charge of the music program.

These meetings have been of great benefit in the past, and all members of the various Sunday Schools throughout the county are urged to attend.

Rev. R. A. Johnson, pastor of Florence Baptist Church is superintendent of the work in the North Bend Association.

Fifty-Three Boone Counties Enrolled At University of Kentucky

University of Kentucky authorities reported this week that 53 students from Boone County are among 5,594 men and women attending the institution during the current fall session. This includes the Northern Kentucky Center in Covington.

Dr. Richard L. Tutill, University registrar, said that 118 of Kentucky's 120 counties are represented in the student body this fall.

Students also are listed from 39 other states, the District of Columbia, and 27 foreign countries and U. S. possessions.

Students from Florence are Terry Lohr, Anna Lutes, John Alexander, Fred Canton, Thomas Month, William F. The December meeting of the Boone County Chapter, Daughters of the American Revolution, was held at the Florence Christian Church in Florence.

Benefit Basketball Game Planned At Burlington Dec. 20

Proceeds To Be Donated To Three Boone County Fund Drives.

Burlington's Eagles will play the Alumni in a doubleheader at the local gym on Saturday night, Dec. 20th, it was announced by school officials this week. The contest will be played for the benefit of the Boone County Tuberculosis Association; the Boone County Cancer Campaign and the Easter Seal drive. Game time has been announced for 7:00 p. m.

Many former stars

Many former stars of former Eagle teams will take part in the game. Among those who have been working out and will see action are Bill McBee, alumni coach '50, Lefe Miller '49, John Cropper '50, Harold McFarland and Gayle Rouse '52, Sonny Ockerman '50, Ray Deck '52 and Albert Rouse '51.

Quite a bit of interest has been generated in the game and whether any questions are settled or not, except who wins, it will be interesting to see Jimmy Ryle, a star of the Eagles for several years, attempting to outdo "Shorty" Ryle, the little brother... how Jerry Ryle operates against former pivots of the Eagles such as Miller, McBee and Rouse... how "Huck" McFarland pits his ball handling antics against big brother "Goose" Ryle, and how Coach McBee will make all legitimate efforts to show up his former coach.

Fans have a double opportunity in the program—a chance to see some good basketball and a chance to help two of our most worthy health organizations.

Everybody Pays

Admission price will be twenty-five cents and everybody, including players, coaches, school officials and ticket takers will pay to enter.

Other games on the basketball menu before the New Year are St. Henry at Florence, Dry Ridge at Hebron and New Haven at Gallatin County this Friday night, Dec. 19.

Walton's Bearcats will be on a trip this week playing Scottsville Thursday night, Dec. 18, and Warren County of Bowling Green on Friday night.

Burlington's Eagles will play host to Joe Reed's Crittenden Bulldogs next Tuesday night, Dec. 23 in the final county contest before 1953.

One Hundred Pints of Blood Needed When Bloodmobile Visits Walton Friday, December 19th

Donors Slow In Making Pledges, According To Report of County Chairman, Mrs. Allen Gaines.

One hundred pints of blood is the goal, when the Bloodmobile visits Walton, Friday, December 19th, according to Mrs. Allen Gaines, county chairman.

Mrs. Wm. Cluster, recruitment chairman reports that donors have been slow in signing pledge cards for the visit at this time, but hopes that the quota can be reached before Friday morning.

With Christmas only six days off from the visit of the Bloodmobile, and many of us very much in the Christmas spirit, what better gift could be made than a pint of blood for the boys who are fighting for the freedom that we enjoy here in these United States.

Your gift of a pint of blood may mean that some boy who is wounded on the battlefield will enjoy next Christmas at home. Without that pint of blood he may never live to see another Christmas. Won't you help to reach the goal?

The Bloodmobile will be at the Walton Christian Church from 1:00 p. m. to 7:00 p. m. Friday, Mrs. Gaines announces. Persons who have not been contacted by Mrs. Cluster are urged to call Walton 18 and make their pledge, now.

The Bloodmobile visits the County under the auspices of the Boone County Chapter American Red Cross.

Farmers Failing To Complete Program Will Lose Benefits.

Mr. Brown stated that few farmers have heeded the warning, and should they fail to complete their program and fail to sign-up work sheets by February 15th, they will lose their benefit payments.

Farmers calling at the PMA office to complete their work sheet should be prepared to present seed bills to the committee, showing the amount of seed used on various fields in the program.

Internal Revenue Man Will Visit Boone County

Will Assist Individuals In Filing Declaration Or Final Returns.

Director of Internal Revenue, Wm. M. Gray, announces that an agent from his office will visit Walton January 14 and Jan. 29 and Burlington January 15 and January 30, 1953 for the purpose of assisting those individuals who are required to file either amended declaration or final returns by January 15 and

January 31.

If at least two-thirds of your gross income is derived from farming, you may file the declaration on or before January 15, 1953, instead of March 15, 1953. If you wait until January 15, 1953, you must then pay the entire balance of the estimated tax (item 6 of the declaration). However, if farmers file their final tax returns on or before January 31, 1953, and pay the total tax at that time, they need not file a declaration.

Other individuals who would be required to file an amended declaration or final return by January 15 for the reason their original declaration is not equal to the prior year's tax liability or 80% of the final tax liability will be required to file an amended declaration or final return by January 15, 1953. Generally, this is applicable to professional people and persons in private enterprises as well as those people earning more than \$4500 per year plus \$600 for each exemption or income of \$100 or more not subject to withholding.

The Director of Internal Revenue urges that taxpayers desiring the above service list and total items relating to their income and their deductions, including allowable expenses, so that information necessary in the preparation of a return be on hand when availing themselves of this service which is absolutely free.

Supervisors Will Take Office January 1 For 4-Year Term.

The State Soil Conservation Committee today announced the names of recently elected Boone County Soil Conservation District Supervisors.

Elections were held in Kentucky's 120 Soil Conservation Districts on November 4th and tabulation of results completed last week. The supervisors will take office January 1 for a 4-year period.

Elected in the Boone district were: Joseph B. Helzer, Jr., Stanley Eichholz, William H. Presser, Hubert E. White, and Joseph A. Huey.

The state's 120 Soil Conservation Districts cover 118 counties. Pike and Henderson counties do not have county soil conservation programs.

Fisk-Crowder

The home of Mr. and Mrs. Dewey Crowder, Burlington, Ky., was the scene of a beautiful wedding the evening of December 3rd when Miss Helen Louise Fisk, the daughter of Mr. and Mrs. John Fisk of Versailles, Ind., and Dewey Gilbert Crowder, the son of Mr. and Mrs. Dewey Crowder, of Burlington, were united in marriage. The ceremony was performed in the presence of the immediate families and a few friends by Bro. R. A. Johnson, pastor of Florence Baptist Church.

Their attendants were Miss Dora Fisk, sister of the bride and Mr. Charles Wm. Jones, a friend of the groom.

The bride was lovely in a blue lace dress over taffeta and her sister was dressed in orchid lace over taffeta. Both girls wore small white felt hats. The groom and his best man wore their navy uniforms, as both are serving in the U. S. Navy.

The happy young couple left following the ceremony for a short honeymoon trip through Western Kentucky.

The bride holds a position with the American Telephone and Telegraph Co., Cincinnati, Ohio, and returned to her duties there following their honeymoon trip.

Gilbert left Tuesday night, Dec. 9th to return to his ship the USS Ashland stationed at present at Norfolk, Va.

Their many friends here wish for them a long, happy married life together.

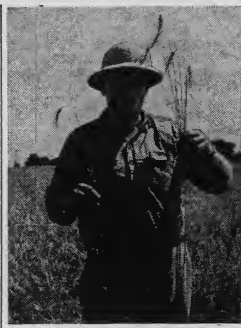

Build Bigger Crop Yields for Defense Program By Using More Plant Food, Brannan Urges

SECRETARY of Agriculture Brannan's recent statement that fertilizer is one of the most vital tools for boosting crop production to meet America's emergency food and fiber needs, was cited by the Middle West Soil Improvement Committee as a reason why farmers should give plant food a top listing in any soil management program.

Mr. Brannan pointed out that the threatening international situation and our own mobilization program have created a new and sudden demand for a greatly increased farm output. This new demand, he said, comes at a time when farm production is already at a high level and virtually every acre is under production.

The application of increased quantities of fertilizer, he said, "is the farming practice which provides one of the biggest opportunities for increasing all agricultural production in behalf of the defense efforts."

"Although the total acreage of cropland was not increased significantly during the past 30 years," he added, "farmers found several ways of increasing production to keep pace with our growing population. Mainly this was done through mechanization, improved crop varieties, better pest control, fertilization and improved cultural practices."

Fertilizer doubles wheat yield on Ed Doubet's Hanna City (Ill.) farm.

Farmers have more than tripled the use of fertilizer in this 30 year period, said Mr. Brannan.

Stressing that we must speed up our rate of agricultural production to meet urgent emergency needs, he said that "we are looking on fertilizers as the key for accelerating immediate production and improving soils for sustained production at high levels."

COUPLES ADVISED TO TALK OVER FINANCES

Newly married couples can grow together in the ability to handle money if they share in the planning of how it is to be spent, said Mrs. Marion McDowell, assistant professor of home economics at the University of Kentucky. She advised a discussion of money planning during the engagement period.

"If a tightwad and a spendthrift get together in marriage, they have a difficult adjustment to make," she told a class of co-eds in a course called "Family Living." "The bride is embarrassed to discuss money matters, and the young husband may have the impression that because he brings in the check it is really his. Under such conditions, the couple may never get to the point of actually planning together the spending of the money which belongs to both."

When either husband or wife holds a large sum of money, and the other has no knowledge of income, the situation may be more serious in case of a crisis than it needed to

be, the home economist said.

Mrs. McDowell stressed the importance of establishing good habits of planning, spending and saving in the early years of married life when earnings are above actual necessities. If all the earnings are lived up in these years, the family will come upon the high school and college years without sufficient funds. It is at that time that expenditures are beyond earnings in the average family, she stated. Not until the children can take care of themselves does the recovery period come.

In practicing conservation farming one must first understand the meaning of land use. Land use is correctly using each acre on your farm and treating it according to its needs. Land use is determined by land classes, based on soil characteristics, degree of erosion, and slope. All farm land falls in one of eight classes.

Don't turn the cow on pasture until the grass has a six-inch start.

FARMING IN 1953 TO BE REVIEWED AT STATE MEETING

The business of farming in 1953 will get much attention in the programs of the 41st annual Farm and Home Convention at the University of Kentucky Feb. 3 to Feb. 6. Farmers, bankers and credit association men will discuss farming as it appears at the beginning of the new season.

Sectional meetings will deal with tobacco production; cattle, sheep, hog and poultry production, crops and feed supplies, fruit and vegetable growing, homemaking, machinery on the farm, the country church and other phases of farm life.

In addition to a large number of Kentucky farmers, stockmen and organization officers, prominent authorities from other states will come to Kentucky for the convention.

The relatively new practice of

irrigating crops will be reviewed at the convention. Of special interest will be reports of men who irrigated tobacco. Pastures and other crops also were irrigated in 1952 with notable results.

One day will be devoted to tobacco growing, curing and marketing. This will include a report on curing experiments at the University of Kentucky.

Several farm organizations will meet during the convention. These will include the Kentucky Seed Improvement Association, the Bluegrass State Sheep Association, the Kentucky Rural Church Fellowship, the Kentucky Milk Goat Association and all of the dairy cattle associations.

If a stand of Ladino Clover lasts several years it usually will be advisable to top-dress it with a phosphate fertilizer or with a fertilizer containing both phosphate and potash.

YOUR CHILD'S HEALTH

The red Double-Barred Cross, emblem of the people's 20th century crusade against tuberculosis, is traditionally featured on the Christmas Seal. Adapted from the historic Cross of Lorraine, it is the registered insignia of the National Tuberculosis Association and the 3,000 affiliated state and local associations in the annual Christmas Seal Sale to support their year-round programs for the control and prevention of tuberculosis. This year's sale began on November 17 and continues until December 25.

This year the red Double-Barred Cross is more prominently displayed than ever before, occupying nearly half the Seal's surface and lighted by a candle set in an old-fashioned brass candlestick. There's a special reason. This is the 50th anniversary of the Double-Barred Cross as the international symbol of the war against tuberculosis. It was adopted as the world emblem on October 23, 1902, by unanimous vote of the first International Conference on Tuberculosis, held in Berlin and attended by medical and lay leaders from 20 nations, including the United States.

Mechanical structures, such as terraces and diversion ditches will not successfully control erosion if other needed conservation measures such as proper land use, are not also practical.

Production is not efficient if it robs the soil of its fertility and results in ultimate depletion and land poverty, even though a money profit is made for several years.

Land owners interested in establishing conservation practices can obtain assistance by asking for it. Apply to your Soil Conservation District.

A good pasture should provide a combination of palatable grasses and legumes. The growth should be dense enough to furnish feed without too great effort.

The foolish farmer permits his farm to be depleted year after year until the land becomes non-productive; then he abandons it for what he calls "a rest."

Cumberland Falls, in Cumberland Falls State Park near Corbin, Ky., is said to have one of the rarest of all natural phenomena, a misty air resembling a rainbow that can be seen only on nights when the moon is full.

Waterways are an essential part of a water disposal system. They are simply the lower "natural draws" in the fields where the water collects that runs off the area.

Bigger Corn Goals Heighten Need For Plant Food in '52

WITH 1952 corn planting goals reported at 88 million acres, Midwestern farmers will be asked to produce big yields again next year, points out the Middle West Soil Improvement Committee.

Prospective 1952 goals will be about 3½ million acres more than the corn acreage harvested this year, says the committee.

"Getting big corn yields per acre," it says, "is a matter of following good soil management practices that increase the plant nutrient and organic matter supply."

"Soils specialists estimate that farmers in many states could double their present corn output. "Where soils already have good tilth, the generous use of nitrogen,

Well-fed corn yields extra bushels.

phosphate and potash can give immediate yield increases. This is particularly true if a starter fertilizer at planting time is reinforced by a bag of nutrients in the soil.

"Other soils may need to be conditioned for high yields by building up the organic matter supply with a well-fertilized legume-grass crop."

"When taprooted legumes such as alfalfa and sweet clover are well fed with phosphate and potash, they condition the soil all the day down through the root zone and enable corn to make the most efficient use of plant nutrients and moisture in the soil. The active organic matter added by the legumes supplies energy material for the billions of tiny organisms below the surface that fix nitrogen in the soil, fight plant diseases and release carbon dioxide for the use of crops."

Tight Phosphate Supply Spurs Need For Early Orders

FARMERS are again facing a tight fertilizer supply situation for the coming year, reports the Middle West Soil Improvement Committee.

"The record-breaking demand for foods and fibers to meet defense, civilian and foreign-aid requirements," says a statement issued by the committee, "means that more fertilizer will be needed to produce higher crop yields per acre."

"But shortages of vital raw materials used in fertilizer are already evident. This is particularly true of superphosphate, because of the serious shortage of sulfur. It is estimated that this year's demand for sulfur for defense purposes, industrial and agricultural use will exceed the supply by at least one million tons."

The committee lists these suggestions by Michigan State College soils men for helping farmers meet this situation:

(1) Have a soil test made now to find out what plant nutrients it needs.

(2) Order your fertilizer immediately.

(3) Take delivery as soon as possible before the winter rush.

"If you act promptly," says the committee, "you can probably get the grades and amounts you want. But if you delay too long, it may be too late to get plant food supplies when you need them most."

The Michigan State scientists point out that by ordering now, farmers will help fertilizer manufacturers make room for more supplies and keep their production at a high level.

Blind Tournament Will Be Held At New Haven School

Drawings Will Be Held Forty-Five Minutes Prior To Opening Game.

The Sixth Annual "Boone County School News" basketball tournament will be held at the New Haven school gymnasium Friday and Saturday nights, Jan. 23, it was announced this week by Mr. Flem Justice, principal of the New Haven school and tournament manager. Participating schools will be Burlington, Florence, Hebron and the host.

The tourney, as in past years, will be for the benefit of the "School News," official publication of the Boone County schools, and drawings for time of play and opposition will be held forty-five minutes prior to the opening whistle of the first game. There will be two games each session and game time for the first contest will be 7:30, Mr. Justice said.

Eagles Hold Margin

Burlington's Eagles have won four of the previous five tournaments. Hebron's Cardinals won the initial play in 1948 and the Eagles were victors the past four years. The "School News" trophy is presented to the winning team for one year, and after a team wins the trophy three years that team gains permanent possession. Burlington, therefore, has one trophy and a one-year hold on the present prize.

Wide Open

This year's tournament appears to be a wide open affair as the four county quints seem to be about equal in strength.

Officials named to work the tournament as selected by coaches and principals of the schools are Paul Champion and Paul Weisbrodt, referees; Sarah Cook, timer, and Billy McKibben, scorer. Admission will be fifty cents straight and the admission doors will be opened at 6:30 p. m.

FAT CATTLE FEEDING DEMONSTRATION

Mr. Cattle Feeder:

On Monday, December 22nd, at 1 P. M., twenty calves will be weighed, graded, neck chained and started on feed for a 90 to 120 day feeding period at the Cincinnati Union Stock Yards. All cattle feeders are invited to attend a "Kick-Off" meeting at this time at the Cincinnati Union Stock Yards. We will have a brief program of interest to all cattle feeders.

The purpose of this demonstration is to familiarize cattle feeders with a new method of producing quality beef—fast and profitably. These 20 calves will be on feed at the yards during the entire feeding period for your observation. Records will be posted showing feed consumption, daily gains and up-grading.

At the completion of the demonstration, a cattle feeders day will again be held to summarize the results. Cost figures, daily gains, feed consumption and up-grading will be discussed at this meeting.

Be sure to attend the "Kick-Off" meeting at the start of the demonstration, and "Wind-Up" meeting at the completion.

Well Balanced Diet of All Plant Nutrients Gives Top Corn Production, Builds Up Land

Corn plants lodge badly and yields are cut when soil has too much nitrogen, not enough potash.

LOADING up the soil with one plant nutrient while neglecting the others is like filling the gas tank on your car and letting the engine run dry of oil.

Howard Lathrop, Purdue University agronomist, points out that it takes a balance of gasoline, oil and a good spark to run a car.

"And," he says, "it takes a good balance of nitrogen, phosphate and potash to make a good corn crop."

Overfeeding the soil nitrogen cut corn growth in tests on the Charles Schenck farm in Davies county, Indiana, Lathrop reports. Three plots of corn each received 100 pounds of phosphate and potash per acre. One plot had 8 pounds of nitrogen, a second had 108 pounds and the third, 208 pounds.

Tissue tests of corn on the 8 pound plot showed no nitrogen, but ample phosphate and potash. As the nitrogen applications went up, the potash levels in the corn plants went down, reducing growth. On the plot where 208 pounds of nitrogen was applied, there was just not enough potash in the fertilizer to balance it out. The lack of potash caused a lack of energy foods in the plant. The root systems of the high nitrogen corn lodged badly.

Lathrop says that to get high corn yields, you need a soil well stocked with nitrogen, phosphate and potash in balanced supply. You need plenty of active organic matter to build the soil's tilth. This can be added by well-fertilized deep-rooted legumes such as alfalfa and sweet clover in the rotation. Finally, you need plenty of reserve nutrients to feed the bacteria and fungi that rot organic matter, fight plant diseases and release nutrients.

New Officers Elected At Garden Club Christmas Party

The annual Christmas party of the Boone County Garden Club was held at the home of Mrs. Roy Lutes, Florence. Her home was beautifully decorated for the occasion and the holiday feast was one that will be remembered a long time.

The business session was opened with prayer by the president, Mrs. Sam Denham, Sr.

Names for the new officers were presented and the voting began.

The votes place in office for the year 1953, Mrs. Roy Lutes, president; Mrs. Sam Denham, Jr., vice president; and Mrs. Wm. Wesler, secretary and treasurer.

For the year 1954 Mrs. R. C. Garrison, president; Mrs. Eva Goodridge, vice president; and Mrs. Frances Dempsey, secretary and treasurer.

Mrs. Sam Denham, Sr., president of the club the past two years turned over the reins to the newly elected officers and a program committee was appointed and suggestions taken for 1953 club work.

The program committee will meet in January. The next regular club meeting will be in February. If interested in Garden Club work, it is an ideal time to join.

Refreshments were served by the hostess, Mrs. Roy Lutes to Mesdames Sam Denham, Sr., Sam Denham, Jr., R. C. Garrison, Harold Conner, Eva Goodridge, T. Hensley, F. Dempsey, Wm. Wesler, F. Berkshire, Nell Markland, Ruby Hollis, Wm. Fitzgerald, R. H. Carter, H. R. Daugherty, Aileen Conner, W. L. Oliver, Paul Chaney, Fanny Scott, A. J. Leonard, Geo. Morith and son, Miss Lucy Lee Grant and Miss Jane Scott.

Covington Shoppers Will Hear Carols

Covington shoppers will hear Christmas carols, sung by church, theater, and college choirs and glee clubs every evening at 7:30, starting Monday and continuing through Dec. 23. Singers will be at the General Building & Loan, 627 Madison Avenue. The Christmas music conforms with the nightly shopping hours, which last until 9 o'clock. It is sponsored by the Covington Retail Merchants Association and the building and loan association.

Each choral program will be followed from 8 to 9 p. m. by an hour of Christmas music on the Wurlitzer organ at the building and loan association. Windows there have been appropriately decorated as background for the singers and organist.

During the so-called "reconstruction years" following the Civil War, Kentucky made much progress, noting such landmarks as the adoption of the present State Constitution, the opening of the first telephone exchange in Louisville, and the running of the first Kentucky Derby.

Blame for Erosion Rests on Poor Soil Management Methods

THE blame for soil erosion usually rests on poor soil management rather than on washing of the land declared Dr. L. D. Baver, formerly with the Ohio State Agronomy Department.

"The business session was opened with prayer by the president, Mrs. Sam Denham, Sr."

"How serious is poor soil management?"

Poor soil management, he said, affects more people than soil erosion. It affects people on level lands as well as rolling and hilly areas. Good soil management on the rolling lands includes more than erosion control.

"Good soil management," he said, "is closely allied to good farm management. You do not put grass on a hillside just to control erosion or make the countryside look green. Grass is planted there to make feed for a cow that will produce milk that will help rear a better boy or girl."

He pointed out that good soil management can restore exhausted land to profitable crop production. He cited tests at the Ohio Agricultural Experiment Station at Wooster, where six inches of surface soil was removed from impoverished land. By good soil management, the subsoil's fertility level was brought above the average for Ohio. At Raleigh, N. C., where he formerly was dean of the agricultural college, land that could produce only 10 bushels of corn per acre was changed into pasture. The soil was limed and fertilized with phosphate and potash. Now the legume-grass pasture yields digestible nutrients equivalent to 92 bushels of corn per acre.

Mayfield, Ky., is named for an early Kentucky pioneer whose name was found carved on a tree near the site where the city now stands.

Soils low in organic matter "bake" and "crust" easily.

Four Soldiers Are Robbed of \$235 In Holdup Saturday

Bandits Nabbed By Sheriff and Police In Erlanger.

Marvin Ray Hardie, 49, Kansas City, Mo., and Charles A. Durain, 27, formerly of Florence, accused of the holdup of four soldiers in Florence Saturday night were bound over to the grand jury when arraigned in Boone County Court before Judge Carroll Cropper Monday on charges of armed robbery. They were placed in Burlington jail in default of \$20,000 bond each.

In the examining trial it was learned that Durain had been sentenced to LaGrange from Boone Circuit Court within the past three years on a charge of breaking. FBI agents were in Burlington Monday questioning the pair.

The bandits were captured separately a short time after the soldiers had been forced to surrender their wallets containing a total of \$235. The soldiers were forced to drive their car to the rear of Kirk's Garage, Dixie Highway, near Sanders Drive, where the holdup took place.

The soldiers, who were on furlough from Camp Polk, La., were enroute to their homes for the holidays. They are Frank J. Rica, New York; Glenn W. Renner, Millersburg, O.; and Albert Rowles, Bordman, Pa., and Richard Fairchild, East Mauchunk, Pa.

State troopers, Elsmere and Erlanger police and Boone County Sheriff Wendell Easton participated in the capture and arrest of the pair.

Hardie and Durain told officers they had stolen an auto belonging to a deputy sheriff in Kansas City and made him accompany them part of the way. About two miles west of Florence on U. S. 42 they wrecked the car.

The soldiers said they saw the pair standing beside the car and noted that one of them had on khaki trousers. They asked if the pair were in the armed service and when they yelled yes the soldiers stopped. Hardie was captured by Elsmere Volunteer Patrolman George Murray, when the patrolman was called to an Elsmere home where it was reported two men were lurking in the back of the house.

After being tipped off, Sheriff Easton and state police visited the Dixie Dew, Erlanger, where they found Durain had engaged a room. Sheriff Easton gained entrance by telling Durain he was a doctor. It was known that Durain would seek medical treatment because he had sustained a severely split lip in the auto accident.

A pistol and \$90, hidden under a pillow were found by police.

When the pair told police they had left the wallets in back of Kirk's Garage, officers proceeded there and found the missing billfolds. The wallets containing all the soldiers' personal effects, including \$140 which had been hidden in a secret compartment, were returned to their owners.

PECANS DOING WELL
IN FULTON COUNTY

The pecan nut crop on grafted
trees in Fulton county is increasing
as the trees get larger, according to
Joe B. Dixon, assistant county agent
for the University of Kentucky.

The quality of the crop is good
and farmers are becoming more en-
thusiastic about the future of nut
production, Dixon said. The Major
and Indiana varieties have the ad-

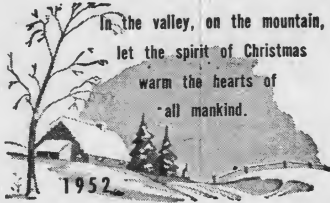

vantage of maturing earlier than
the Green Rivers variety, farmers
reported.

A good crop of native pecans was
harvested in Fulton county this sea-
son.

TREES AND SHRUBS MAY NEED WATERING

Due to the unusually dry summer, fall and early winter, thousands of young trees, shrubs and evergreens will die this winter unless they are given water, warns N. R. Elliott, Horticulturist at the University of Kentucky. Where a supply of water is available, he recommends that from six to 10 gallons per plant should be applied during Decem-

ber. Where water is scarce, two to three gallons once a week will help build up a reserve of moisture.

Evergreen trees should continue to be watered at least once a month during January, February and March, the watering being done when the temperature is above freezing, Mr. Elliott advised.

Nineteen families in Grayson county are planning to raise 500 to 1,500 chickens each next season.

Candidates Will Be Selected For Annapolis And West Point Schools

In order to afford opportunity to the young men in Kentucky interested in appointment to the United States Military Academy or the United States Naval Academy, Senator Earle C. Clements will conduct a preliminary examination, under the auspices of the United States Civil Service Commission, on Monday, January 12, 1953, for the purpose of selecting qualified candidates to fill the 1953 vacancies over

IT PAYS TO ADVERTISE

Importance Stressed In Crusade For Freedom Program

Campaign Extended To December 31st, Is Word.

A Lithuanian immigrant, now a citizen of Kentucky, called this week for a "strenuous effort" to "bring home to the people the importance of this (Crusade for Freedom) program."

Dave Cohen, a retail merchant of Central City, scene of recent widely-publicized labor strife became the personification of the spirit of the Crusade for Freedom. In a letter to State campaign chairman Robert E. Hatton enclosing his contribution Cohen wrote:

"In the thirty-one years that I have lived in Muhlenberg County, since I migrated from Lithuania, it is my observation that a lot of American people take their heritage for granted, but to one that has seen and remembers persecution the program of Crusade for Freedom should embrace everyone of us, because I realize that this program, more than anything else, will secure the peace for future generations."

Meanwhile, Henderson County became the first Kentucky County to reach, and exceed, its financial quota. William Brannaman, Henderson attorney, and county chairman reported a total of \$1296.13 had been contributed against a quota of \$1,000.

Military personnel in Kentucky have contributed 12 per cent of the State's quota, Robert P. Steptoe, executive director announced. Personnel at Fort Knox contributed \$5,000. Camp Breckinridge personnel contributed \$1,130. The Kentucky quota is \$50,000.

The Crusade for Freedom campaign, extended two weeks, ends December 31st.

Members of homemakers clubs in McCracken county are getting lessons in short cuts in food preparation.

RECIPE OF THE WEEK

Christmas bread, rich with candied fruit and nuts, is traditional in many households for Christmas Day breakfast. Mrs. Pearl Haak, University of Kentucky food specialist, likes this recipe:

Christmas Bread

1 package granulated or compressed yeast, 1/2 cup lukewarm water, 1 cup scalded milk, one-third cup shortening, one third cup brown sugar, 2 tablespoons salt, 4 to 4 1/2

cups enriched flour, 1 egg, 1 cup quick or old fashioned rolled oats, 1/2 cup pecans, 1 cup mixed candied fruits.

Soften yeast in lukewarm water. Pour scalded milk over shortening, sugar and salt. Cool to lukewarm. Stir in 1 cup flour. Add beaten egg and softened yeast. Fold in rolled oats, pecans and candied fruit. Add enough flour to make a soft dough. Turn onto floured board and knead until satiny, about 10 minutes. Make dough into a

ball. Place in greased bowl. Cover and let rise in farm place until double in bulk, about 1 hour.

Punch dough down, cover and let rest 10 minutes. Shape into two round loaves. Place on greased cookie sheets. Brush lightly with melted shortening. Cover and let rise until double in bulk, about 45 minutes. Bake in moderate oven, 375 degree, for 10 minutes. Reduce heat to 350 degree, and continue baking 30 minutes more. Cool and frost with thin powdered sugar

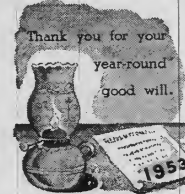

frosting. Decorate with candied fruit and nuts.

Christmas Breakfast: Broiled grapefruit, scrambled eggs, little pig sausages, Christmas bread, butter and coffee.
